### Attachments

- Attachment I: Colorado DWRF Priority Scoring Model
- Attachment II: Application of Additional Subsidization
- Attachment III: Colorado DWRF Planning & Design Grant Prioritization
- Attachment IV Calculation of DWRF Loan Capacity for 2015
- Attachment V: Cash Draw Proportionality Percentages
- Attachment VI: Net Funds Available for Transfer

### Appendices

- Appendix A: 2015 DWRF Project Eligibility List
- Appendix B: Project Priority / Fundable List
- Appendix C: Loan Summary Report
- Appendix D: DWRF Set-Aside Activity
- Appendix E: Funds Available to the DWRF Loan Program
- Appendix F: DWRF Administrative Fee Account
- Appendix G: Private, Not For Profit Project Eligibility List

# **Introduction to the Colorado DWRF**

---

The Drinking Water Revolving Fund (DWRF) program provides financial assistance to governmental agencies for the construction of water projects intended to improve public and environmental health, help communities adhere with the federal Safe Drinking Water Act (SDWA), and invest in Colorado's water infrastructure.

State legislation (SB 95-083) established the DWRF as an enduring and viable fund. The DWRF shall be maintained and be available in perpetuity to provide financial assistance as authorized and limited by the SDWA.

## **State Revolving Fund (SRF) Partnership**

The SRF program is administered by three partnering agencies. Colorado statute directs the Colorado Department of Public Health and Environment, Water Quality Control Division (division); the Colorado Water Resources and Power Development Authority (authority); and the Colorado Department of Local Affairs, Division of Local Government (DLG), to jointly operate the SRF. The SRF Agencies administer the programs in alignment with the same common goals approved and supported by the Water Quality Control Commission (WQCC) and the authority board of directors (authority board).

### **SRF Agencies Responsibilities**

<b>Division</b>	<b>Authority</b>	<b>DLG</b>
<ul style="list-style-type: none"><li>• Primacy agency.</li><li>• Program administration.</li><li>• Technical review and advisory role.</li><li>• Manages DWRF set asides.</li><li>• Federal reporting.</li></ul>	<ul style="list-style-type: none"><li>• Financial structure.</li><li>• Manages budgets and investments.</li><li>• Disburses funds.</li><li>• Federal reporting.</li><li>• Provides state match.</li></ul>	<ul style="list-style-type: none"><li>• Financial and managerial assistance to systems.</li><li>• Coordinates funding collaboration via Funding Coordination Committee.</li><li>• SRF outreach.</li><li>• Conducts financial capacity assessments.</li></ul>

### **Program Mission**

- Dedicated to providing affordable financing to systems by capitalizing on all available funds to address the state's priority water related public health and water quality issues.
- Actively target and allocate affordable resources to projects and initiatives that result in significant public health and environmental benefits, while maintaining perpetual, self-sustaining revolving loan fund programs.
- Manage the funds in a manner to provide benefits for current and future generations.

The SRF agencies also partner with the state Funding Coordination Committee (committee) which includes staff from the division, authority, DLG, Colorado Water Conservation Board, USDA Rural Development, Colorado Rural Water Association and Rural Community Assistance Corporation. The committee facilitates the use of collaborative capital financing when appropriate.

### **Intended Use Plans (IUP)**

The IUP is a federal Environmental Protection Agency (EPA) Capitalization Grant agreement requirement. The DWRF IUP describes the agencies' plan to utilize funds to finance drinking water infrastructure and support related program activities during the calendar year 2015.

## Long Term Goals

---

Colorado's long-term goals were established to protect public health, ensure the integrity and sustainability of the DWRF, and provide support for the division strategic plan goals (2011-2015). Additional long term goals include:

- Effectively and efficiently deliver financial and technical assistance to public water systems.
- Award SRF resources in accordance with the needs of Colorado citizens.
- Maintain the fiscal integrity of SRF funds and assure continued program enhancements.
- Leverage funds in the DWRF and Water Pollution Control Revolving Fund (WPCRF) to maximize the amount of available funding for projected loans identified in the annual IUPs while continuing to reduce un-liquidated obligations.
- Maintain compliance with state and federal laws.
- Continue to implement process improvement activities through LEAN practices.
- Work to implement a statewide needs assessment of early implementation of future rules.
- Identify and assist projects/studies that look at water quality issues on a regional level impacting public water systems (e.g., high nitrates on the eastern plains).
- The committee will strengthen its ability to identify and influence funding decisions to maximize use of all available state and federal funds for the highest priority water related public health and environmental projects.
- Evaluate the current disadvantaged community program to determine its alignment with the future LEAN state and whether or not the current definition meets the needs of Colorado communities.

## Short Term Goals

---

Short-term goals of the DWRF for 2015 include:

- Complete the pre-qualification, engineering needs assessment, plans and specification self-certification criteria and HOP revisions for LEAN implementation.
- Attend conferences to provide program information to potential borrowers such as Colorado Rural Water Association, Colorado Municipal League and Special District Association and the Colorado Water Congress conferences.
- Maximize use of all DWRF Capitalization Grant funds as directed by EPA.
- Maximize utilization of the four percent administrative set-aside funds, to support eligible activities including technical support to public water systems.
- Identify, select and implement an online integrated system that supports eligibility survey, application processes, and project management for the DWRF and WPCRF that provides better program coordination and transparency between staff and stakeholders.
- Target funding to address uranium, radium and other radionuclides.
- After receipt of the EPA allotment formula and appropriation guidance, the authority, in conjunction with the division, will submit an application for the annual capitalization grant funds in a manner that maximizes effective and timely use of funds while reducing un-liquidated obligations.
- The division, in conjunction with the authority and DLG, will identify and develop criteria to provide loan incentives for drinking water projects that participate in the Drinking Water Excellence Program.

## Drinking Water Revolving Fund Projects

Colorado SRF priority projects address risks to public health, disadvantage communities and SDWA compliance. Examples of eligible and ineligible projects are listed below.\*

### **Eligible Project Examples**

- Addresses present and future SDWA requirements.
- Replaces aging infrastructure.
- Restructure and consolidate water supplies to rectify contamination issues or to assist systems unable to maintain and ensure SDWA compliance for financial or managerial reasons.
- Purchase a portion of another system's capacity to cost-effectively rectify a SDWA compliance issue.
- Planning including required environmental assessment reports, design and construction costs associated with eligible projects.
- Land acquisition \*\*
  - Land must be integral to the project.
  - Acquisition must be from a willing seller.

### **Ineligible Project Examples**

- Dams or rehabilitation of dams.
- Water rights, except water rights owned by a system purchased to consolidate for capacity development.
- Reservoirs, except finished water reservoirs that are used for treatment processes which are located on the same property as treatment facility.
- Drinking water monitoring costs.
- Operation and maintenance costs.
- Projects primarily for fire protection.
- Projects for systems that lack adequate technical, managerial and financial capability, unless assistance will ensure compliance.
- Projects for systems in significant noncompliance under the SDWA; unless funding will ensure compliance.
- Projects primarily intended to serve future growth.

\*Governmental agencies distributing or supplying 2,000 acre feet, or more, of water per year must have an approved (by the Colorado Water Conservation Board) and updated water conservation plan as defined by Section 37-60-126, CRS.

\*\*The cost of complying with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (the Uniform Act) is an eligible cost.

## **Drinking Water Revolving Fund Project Lists**

---

**Appendix A: DWRF Project Eligibility List** is an inventory of projects that completed an eligibility survey in 2014. The eligibility survey is released annually to potential borrowers to capture 20 year capital improvement needs. Appendix A includes the name of the public water system, a description of the project, population, the estimated cost of the project, potential green infrastructure type and cost and the type of project as described in the DWRF Rules. Borrowers can add projects to Appendix A by completing an eligibility survey in June of each year.

**Appendix B: Project Priority / Fundable List** is an inventory of projects that are eligible to receive or have recently received a loan from the DWRF. This list includes anticipated loan terms, interest rate and type of loan, project description and green infrastructure categories if applicable. Projects listed in Appendix B have a projected construction start date within 12-18 months at the time of eligibility survey submission in June. Project listed in Appendix B have been assigned a preliminary ranking score; however, this score is subject to refinement based on additional information from potential applicants and further prioritization. An active copy of Appendix B is maintained on the division's website.

## **Criteria, Methods and Evaluation for DWRF Distribution**

---

This section describes the application process, including the prioritization criteria and authority board action, how policies apply to the allocation of loan proceeds, and the proposed Federal Fiscal Year (FFY) 2015 federal bill requirements, such as Green Project Reserve, principal forgiveness, Davis-Bacon Act, and American Iron and Steel.

Loan applications are accepted seven times a year and are scored based on the ranking system found in Attachment I: Colorado DWRF Priority Scoring Model.

### **Application, Prioritization and Approval**

Applicants should coordinate with their assigned division project manager to determine the appropriate application schedule to ensure authority board action and loan execution in a timely manner. The table below lists loan application deadlines, types of loans and the authority board meeting where the application is presented for approval.

Application Deadlines	Loan Type	Authority Board Meetings
January 15, 2015	Direct loan Leverage loan (bond issue spring)	March
February 15, 2015	Direct loan	April
April 15, 2015	Direct loan	June
June 15, 2015	Direct loan Leveraged loan (bond issue fall)	August
August 15, 2015	Direct loan	October
October 15, 2015	Direct loan	December
November 15, 2015	Direct loan	January

*All loans are subject to available funds and prioritization if needed*

The prioritization of applications will only occur if funding requests exceed available funds.

**Attachment I: Colorado DWRF Priority Scoring Model** will be used for the prioritization of applications. Loan applicants that do not prioritize may be considered at the next applicable loan application date at the applicant's request.

The SRF agencies may determine applications be presented for approval at later authority board meetings depending on the volume of applications submitted at any one application deadline. Delays will not impact the applicant's prioritization ranking, but rather are meant to assist the SRF program workload balance. The determination will be based on the number of applications received, the applicant's timeframe for procuring funding and applicant's construction timeline.

All loan approvals are valid for 18 months. Prioritized and approved leveraged loans that do not execute their loan within 18 months will be reprioritized upon the next application deadline, if necessary.

### **Allocation of Loan Proceeds**

The SRF programs have policies set by the WQCC, authority board, and SRF committee that dictate use of loan proceeds. Proceeds from loans and administration fees will be used to benefit communities through Planning and Design Grants and Disadvantaged Community Loans.

### **Capitalization Grant**

For FFY15 and consistent with the 2014 appropriations language, the following requirements may apply to each state receiving DWRF capitalization grants:

### **Green Project Reserve (GPR)**

Historically, the capitalization grant agreement has required all SRF programs to direct a portion of their capitalization grant toward projects that address green infrastructure, water efficiency, energy efficiency, or other environmentally innovative activities. This changed in FFY12 when EPA made the GPR requirement optional for states under the DWRF program; however, if the 2015 appropriation grant/guidance requires a GPR set-aside, the incentive below will be offered.

Projects that implement eligible green components equal to, or greater than, 20 percent of the total project cost will receive a reduced loan interest rate of 0 percent, for up to a maximum of \$2.5 million. Leveraged loan projects over \$2.5 million total cost will only be eligible for the reduced interest rate on the first \$2.5 million. This incentive will only be offered until Colorado's GPR requirement has been met. These terms are subject to final action by the authority board and are not guaranteed terms until such time.

In the event that the 2015 appropriation guidance does not require additional GPR set asides, the incentive will only be available for any remaining unobligated GPR funds.

The division has identified and included potential green projects in **Appendix A: DWRF Project Eligibility List** and **Appendix B: Project Priority / Fundable List**. These projects have been identified by *green type* and the estimated dollar amount. The division will utilize the definition for *categorical* and business case as provided by the EPA in the appropriation guidance. The division will review all business cases to determine GPR eligibility and post them on the division's website.

### **Principal Forgiveness Loans**

In 2014, the DWRF capitalization grant appropriation required that not less than 20 percent, but no more than 30 percent, of funds shall be used by the state to provide additional subsidy to eligible recipients in the form of principal forgiveness, negative interest loans, grants, or a combination of these.

The SRF programs are in the process of implementing the LEAN future state of the programs. Part of that process recommends use of the additional subsidy to be issued for the planning and engineering phase for SRF borrowers. This will provide the opportunity to assist with more planning and engineering monies to those who otherwise could not afford the project. Further, it will position projects to quickly move into construction prior to appropriating additional SRF funding. Utilization of additional subsidy for planning and engineering purposes and the related criteria and terms will be set solely by the authority board. In the event this recommendation is not approved, the following will be applied for any available additional subsidy in 2015.

The state intends to distribute the additional subsidy in the form of principal forgiveness per **Attachment II: Application of Additional Subsidization**. In 2015, principal forgiveness for the DWRF will be distributed one time at the June 15, 2015 application deadline. The balance of the funds remaining beyond the required additional subsidy will be made available through loans without principal forgiveness.

#### **Davis-Bacon Act**

The requirements of Section 1450(e) of the SDWA (42 U.S.C. 300j-9(e)) regarding prevailing wage rates shall apply to the construction of treatment works carried out in whole or in part with assistance made available by a state revolving loan fund as authorized by section 1452 of the SDWA (42 U.S.C. 300j (12)).

#### **American Iron and Steel (AIS)**

On January 17, 2014 Congress passed the AIS requirement as part of the EPA Consolidated Appropriations Act for iron and steel products used in SRF projects for construction, alteration, maintenance or repair. Projects with loan execution and/or plans and specification approval on or after Januray 17, 2014 and prior to October 1, 2014 are subject to AIS.

The statute permits EPA to issue waivers for a case or category of cases where EPA finds (1) that applying these requirements would be inconsistent with the public interest; (2) iron and steel products are not produced in the US in sufficient and reasonably available quantities and of a satisfactory quality; or (3) inclusion of iron and steel products produced in the US will increase the cost of the overall project by more than 25 percent. States are allowed, on behalf of the borrower, to apply for waivers of the AIS requirement directly to EPA headquarters.

The DWRF program will refer to compliance guidance issued by the EPA which can be found at the following website: <https://docs.google.com/file/d/0B0tmPQ67k3NVYkN2NWdGN2JGNjA/edit>.

The above requirements are subject to further interpretation by the EPA and will be implemented consistently with any formal guidance issued by the agency.

#### **Miscellaneous**

EPA Capitalization Grants may be allocated to any or all projects based on the amount of available grant and re-loan funds and at the direction of EPA.

The proposed payment schedule using FFY15 drinking water funds will be included in the application for the capitalization grant. The payment schedule identifies the anticipated amount of EPA Automated Clearinghouse (ACH) draws from the capitalization grant and state dollars to be deposited into the DWRF.

The state will provide the necessary assurance and certifications as part of the Capitalization Grant Agreement and Operating Agreement between the state and EPA.

#### **Capitalization Grants and Re-loan Funds**

- Federal capitalization grant will primarily be used to fund all loan applicants first, subject to program constraints, to assist with reducing any un-liquidated obligations. Re-loan funds will generally be allocated after federal monies have been issued.
- Disadvantaged Communities Loans.

### **Disadvantaged Communities (DAC) Loans**

In accordance with federal statutes, states are authorized to provide loans at or below market interest rates, including interest free loans with terms up to 30 years. A DAC is defined as a governmental agency that has a population of 5,000 or less with a median household income (MHI) that is 80.0% or less than the state MHI.

- EPA capitalization grant funds or re-loan are the source of capital used to fund DAC loans. To the maximum extent practical and based on available data, projects eligible to receive the reduced interest rate will be identified on the **Appendix B: Project Priority / Fundable List**.
- MHI, as a percentage of the statewide MHI, will be used to distribute funding to governmental agencies that are disadvantaged in accordance with two affordability tiers.

DAC	MHI	Loan Amount	Loan Terms
Category 1	MHI from 61.0% - 80.0%	up to \$2.5 million per project	Loan terms up to 30 years * Interest rate is established at 50% of direct loan rate **
Category 2	MHI less than 61.0%	up to \$2.5 million per project	Loan terms up to 30 years * Interest rate is established at 0% **

\*Not to exceed the project's design life.

\*\* The authority board determines all interest rates on or before December 31<sup>st</sup> each year for the following calendar year.

- DAC status will be determined based on the most current American Community Survey (ACS) data at the time the pre-qualification is submitted. The DAC status determination will be valid for a period of eighteen months. If the applicant does not execute the loan with DAC terms during the 18 months, the most current ACS data will be referred to determine DAC status.

Note: All loan requests exceeding the direct loan limit of \$2.5 million will not be eligible for a DAC loan. If the authority board decides to utilize additional subsidy for capital construction, **Attachment II: Application of Additional Subsidization** will be used.

### **Planning and Design Grants**

The intent of the planning and design grants is to assist DWRF applicants with costs associated with complying with program requirements such as: engineering reports, technical, managerial and financial reviews, environmental assessments, engineering design documents, energy audits, and the legal and accounting fees that may be associated with the formation of a legal entity capable of receiving DWRF assistance.

As mentioned in the Principal Forgiveness Loan section above, the authority board is considering a shift in the use of additional subsidy for FFY15 to subsidize planning activities on an individual project basis. In the event additional subsidy is authorized for this purpose, the amount and criteria for planning and design grants will be set per the authority board. If the authority board determines to utilize the same planning and design grant criteria as identified in the 2014 IUP, the following criteria will be used:

- Project is on the current year DWRF Appendix A or will be added to the subsequent year's project eligibility list,
- Population is 5,000 or less, and
- MHI is 80.0 percent or less than the statewide MHI.
- A local match of 20 percent is required for all planning and design grants. Planning and design grant invoices will be paid at no more than an 80:20 ratio.

The ranking system is located in **Attachment III: Colorado DWRF Planning & Design Grant Prioritization**. Governmental agencies must meet the following planning and design grant criteria:

One grant in the amount of up to \$10,000 will be awarded per community, per project. An applicant may not receive more than one planning and design grant for the same project. Additional funds may be allocated for planning and design grants at the discretion of the authority board.

Grant applications will be accepted between January 1 and January 31 of each year. Starting February 1, all applications will be prioritized according to the criteria set in **Attachment III: Colorado DWRF Planning & Design Grant Prioritization** and awards will be made in rank order until all grants have been committed. If there are more grant funds than applications, funds will be disbursed on a first come first serve basis. If the entity does not seek funding through the DWRF, they may be requested to repay the grant or seek a waiver of the repayment requirement from the authority.

These planning and design grant funds are provided from the administrative fee account from income received from DWRF loans.

### **Special Projects**

Colorado Governor John Hickenlooper implemented a state agency initiative to apply customer-focused process improvements to state services (commonly known as LEAN) with the purpose of increasing efficiency and effectiveness while measuring such improvements. The SRF agencies are utilizing the LEAN concept to improve SRF program processes and the borrower's experience. LEAN is defined as a systematic approach of continuous improvement, based on what the customer needs are through an effective and efficient business process. The DWRF program is anticipating implementing a portion of the future state by January 1, 2015, and full LEAN implementation is anticipated by the end of the 2015 calendar year.

### **Emergency Procedures**

The WQCC may amend **Appendix A: DWRF Project Eligibility List** and **Appendix B: Project Priority / Fundable List** at any time throughout the year to include projects that it determines and declares to be emergency projects needed to prevent or address threats to public health. In cases where the WQCC determines the amendments will result in substantial changes to **Appendix A: DWRF Project Eligibility List** or **Appendix B: Project Priority / Fundable List**, public notice and opportunity for comment on the proposed inclusions shall be provided.

### **Small Systems Funding Goal**

To the extent that there are a sufficient number of eligible projects, the state shall use at least 15 percent of all funds credited to the DWRF account on an annual basis to provide loan assistance to systems serving 10,000 persons or fewer. It is anticipated that up to 45 small systems, with populations

less than 10,000, will be funded from October 1, 2014 through December 31, 2015, for a total of up to \$100+ million in DWRF loans. To further the small system-funding goal in 2015, planning and design grants will be made available to assist small systems.

## Financial Status of the DWRF

---

A federally capitalized DWRF was authorized by the 1996 Amendments to SDWA and was established in Colorado with the receipt of the first capitalization grant in September, 1997. The DWRF requires the state to match the total amount of the federal grant with a 20 percent contribution of state funds. On May 27, 2014, \$3,078,800 was transferred and is available for state match. The DWRF provides both direct loans and leveraged loans to finance projects.

Direct loans are designed for smaller projects at or under \$2.5 million. The program provides low interest direct loans to small public water systems that allow savings on cost of issuance. The direct loan sources are capitalization grant funds and re-loan funds.

Leveraged loans are designed primarily for investment grade borrowers with projects over \$2.5 million. This type of loan is used as the source of security for bonds that are sold to increase the DWRF loan capacity. The loan source comes from the capitalization grant funds, state match funds and bond proceeds. In 2014, the program issued leveraged loans using a cash flow fund concept, to further enhance the leveraging capabilities and liquidity of the DWRF program. The leveraged loan structure may use the cash flow or reserve fund model in the future based on the authority board and current economic conditions. In 2014, the leveraged loan interest rate was 70 percent of the market rate including the administrative fee of up to 1.25 percent. The market rate on bonds is determined on the day of sale as the *all-in bond yield* or all costs considered of the AAA rated drinking water revenue bonds sold by the authority.

The authority board determines the interest rate for both direct and leveraged loans by the end of the calendar year for the following year.

The administrative fee income is deposited into an account separate from the DWRF and is used for SRF Agencies staffing and operations expenses. Administrative fee income will continue to be used to fund in part the planning and/or design grant program in 2015. Administrative fee income, as available, will be used beginning with the FFY08 DWRF capitalization grant to reimburse the authority for state match funds deposited to the DWRF. The program reserves the right to charge up to 1.25 percent administrative fee on all DWRF loans if it is determined that additional funds are needed to fund administrative costs and/or repay the state match provided by the Authority. Up to \$1.0 million of WPCRF administrative fees collected from loans may be transferred to the DWRF to pay for administrative costs of the DWRF.

Administrative fees received from DWRF loans for 2015 are estimated to be \$3,640,000. These funds will be used for direct program costs including legal and accounting fees, trustee fees and other consultant fees, in addition to labor and overhead allocations of the authority, division and DLG. Total costs for administration of the DWRF are estimated to be \$2,815,000 and exclude any state match repayment. A portion of the state match may be paid from DWRF set aside grant monies. **Appendix F:**

**DWRF Administrative Fee Account** is a table showing the administrative fee account activity since inception.

Each year the DWRF eligibility list needs (currently over \$4.0 billion) are compared against the loan capacity of the DWRF. Continued leveraging will assist more communities on **Appendix A: DWRF Project Eligibility List** to achieve SDWA compliance. To date, the leveraged loan rates have been in the range of 1.86 percent to 4.60 percent. Although no interest income on the grant funds and state match funds accrue to the DWRF from the leveraged loans, the long-term or perpetual nature of the DWRF remains in place. Please see **Attachment IV: Calculation of DWRF Loan Capacity for 2015**.

Through June 30, 2014, the state has received a total of \$290,414,600 in federal capitalization grants (includes the \$6,666,667 transfer back to the WPCRF in 2003). Of this amount, \$69,288,835 has been set aside for non-loan activities. The state expects to receive, but is unable to anticipate, the amount and funding levels of the FFY15 capitalization grant. For appendices and table purposes, the FFY14 amounts were assumed for FFY15 and may or may not be accurate. **Attachment V: Cash Draw Proportionality Percentages**, lists the open projects funded with capitalization grant funds and the ratio of federal funds that are drawn.

The 2015 **Appendix B: Project Priority / Fundable List** documents 50 additional projects that have had a preliminary eligibility assessments completed through August 2014. The 50 projects added identified eligible project costs of \$290,033,391.

Projects receiving an eligibility assessment during the calendar year will be added to the Appendix B throughout the year.

### **Transfer Activities**

As authorized by Congress, Section 302 of the SDWA Amendments authorizes a state to transfer up to 33 percent of the amount of a fiscal year's DWSRF program capitalization grant to the Clean Water State Revolving Fund (CWSRF) program or an equivalent amount from the CWSRF program to the Drinking Water State Revolving Fund (DWSRF) program. In turn, 33 percent of the cumulative DWRF capitalization grants for FFY97 through FFY14 (total DWRF grants at \$290,414,600) may be reserved from the DWRF and transferred to the WPCRF, and this same amount may be reserved from the WPCRF and transferred to the DWRF. See the table in **Attachment VI: Net Funds Available for Transfer**, which itemizes the amount of net SRF funds available for transfer between the two programs.

Based on the WQCC and governor's approvals, a transfer of no more than \$10 million may be transferred to or from the DWRF into or out of the WPCRF in 2015. The exact amount of the transfer, if any, will be determined after the January 15 or June 15 application deadlines, and the WPCRF and DWRF loan demands are determined. If a transfer is pursued, a stakeholders group will be notified of the state's intent to transfer capitalization funds from the DWRF to the WPCRF or from the WPCRF to the DWRF. None of the transferred funds will be used for administrative purposes.

It is estimated that a transfer of \$5 - \$10 million from either the DWRF to the WPCRF will reduce the revolving level of that program by \$1 - \$2.5 million per year over the next 20 years. The DWRF set-asides would not be affected and the remainder of the allocation would be

deposited into the revolving fund. Given the low level of remaining grant funds in the DWRF, a transfer of grant funds out of the DWRF is unlikely in FY 2015.

This transfer of capitalization grant funds will be deposited in the appropriate program and will be available for loans. With the statutory language approved by the Colorado State General Assembly in 2002, any transfers can be made from one account to the other with all of the appropriate approvals.

### Cross-Collateralization Activities

Beginning in the calendar year commencing on January 1, 1999, the WPCRF, along with the DWRF, cross-collateralized or pledged monies on deposits in one fund to act as additional security for bonds secured by moneys on deposits in the other fund. This mechanism was utilized for both programs in 1999 and, as a result, the bond ratings for both programs were upgraded to AAA by all three bond-rating agencies. This upgrade translates to lower interest rates and thereby more savings to the borrowers of both programs.

### Operator Certification

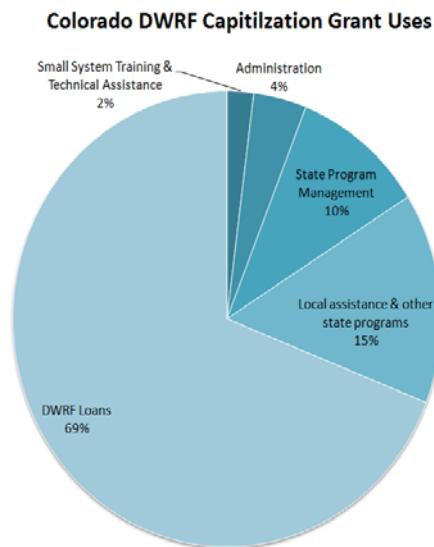

The 1996 Amendments to the Federal Safe Drinking Water Act required that states develop certification programs for operators of water treatment plants and distribution systems. House Bill 00-1431 adopted by the Colorado General Assembly revised the existing Colorado operators certification program, in part to meet the new federal requirements. In accordance with revised state statute, the division and the Water and Wastewater Facility Operators Certification Board have developed a program to implement the federal requirements. The EPA has approved the program.

## DWRF Set Aside Activities

---

Colorado may set aside 31 percent of the capitalization grant for non-project or set-aside activities to fund activities necessary to accomplish the requirements of the SDWA. Work plans are developed and submitted to EPA describing the activities to be accomplished with the fund. The authority provides the 20 percent state match to receive the federal capitalization grant. Since FFY02 grant, the 20 percent match for the set-aside portion came from the loan administrative fee account.

The FFY14 capitalization grant amount was \$15,394,000. A description of each set-aside and the funding earmarked from the FFY14 capitalization grant for each activity are described below. It is the responsibility of the division to determine the amount of funds necessary under each set-aside and to meet the obligations of the SDWA. The financial status of the set-asides is summarized in **Appendix D: DWRF Set-aside Activity**. The administration of the 2015 set-aside funds are listed below and is based on actual 2014 set-aside amounts, even though it is anticipated that the FFY15 capitalization grant will be lower than the FFY14.

FFY 15 Colorado Set Aside Request Summary		
Administration and Technical Assistance	4%	\$615,760.00
Small System Training and Technical Assistance (SSTTA)	2%	\$307,880.00
State Program Management	10%	\$1,539,400.00
Local Assistance and Other State Programs	15%	\$2,309,100.00
*Capacity Development	10%	\$1,539,400.00
*Wellhead Protection	5%	\$769,700.00
Total		\$4,772,140.00

\*included in Local Assistance and Other State Program percentage

#### **Administration and Technical Assistance Set-Aside (4%),**

#### **FFY15 Requested Estimated Amount \$615,760**

Provides on-going administration for the DWRF and provides technical assistance to public water systems established by the EPA approved technical assistance work plan. Colorado intends to take the full set-aside.

#### *Use of funds and expected accomplishments*

To cover administrative and technical assistance expenses related to projects and activities authorized under the SDWA, including the provision of technical assistance to public water systems as identified in the EPA approved work plan.

#### **Small System Training and Technical Assistance (SSTTA) (2%),**

#### **FFY15 Requested Estimated Amount \$307,880**

Provides on-going training and technical assistance to small systems established in the tri-annual EPA approved work plan focusing on the capacity development strategy. Colorado intends to take the full set-aside.

#### *Use of Funds and Expected Accomplishments*

Provide technical assistance and training programs for not-for-profit systems. A portion of the technical assistance provided will be concurrent with sanitary surveys conducted at small water systems.

#### **State Program Management (10%),**

#### **FFY15 Requested Estimated Amount \$1,539,400**

Administers the State Public Water System Supervision (PWSS) Program established in the EPA approved state program management work plan for state fiscal years 2014-2016.

The act requires this set-aside be matched one-for-one with available state expenditures. The dollar-for-dollar federal match requirement will be met by utilizing drinking water program general funds, drinking water operator certification fees, drinking water related expenditures from the state laboratory, and 1993 Drinking Water Grant matching funds from the division. The laboratory contribution includes analyses of drinking water samples. According to SDWA, state program match funds that were expended in 1993 can be used to provide up to 50 percent of the set-aside match. Current year state funds in excess of the minimum required for the PWSS Program grant included in the department's performance partnership grant may also be used.

Colorado's match allows the division to take the full set aside and the division intends to take the full amount.

***Use of funds and expected accomplishments***

A portion of this set-aside will be used to fund staff to accomplish SDWA program requirements including:

- Data management system upgrades and maintenance;
- Improved system communication resulting in compliance progress and attainment;
- Effective program oversight, compliance assurance, enforcement, rule adoption, regulatory development, public water system assistance and capacity development;
- Staffing for engineering, compliance assurance, compliance assistance, rule management, data management, enforcement, administration, sampling, SWAP support, sanitary surveys, program management, contract oversight, early rule implementation, training and technical assistance and for implementing a capacity development strategy; and
- Computer acquisition and employee expenses including furniture, vehicles, operational costs and indirect costs.

**Local Assistance and Other State Programs (15%),**

**FFY15 Requested Estimated Amount \$2,309,100**

Provides assistance to five activities: capacity development programs, Wellhead Protection Program (WHP), source water protection activities (SWAP), SWAP land acquisition, and SWAP implementation. Colorado intends to take the full set-aside or 15% from the capitalization grant; however, no more than 10% may be allocated for a single activity. See the requested estimated amounts and targets below.

**Capacity Development (10%),**

**FFY14 Requested Estimated Amount \$1,539,400**

Assists new and existing systems to achieve and maintain technical, managerial and financial capacity as well as support SWAP activities.

***Use of funds and expected accomplishments***

- In support of the capacity development strategic goal to implement the Safe Drinking Water Program's 2015 Public Water System Training Strategy, the Safe Drinking Water Program has retained a contractor to assist in developing the administrative framework for the 2015 strategy. The framework will define the processes, guidelines and expected outcomes for training activities supported by the Safe Drinking Water Program. The framework is intended to assist in the decision making process regarding the allocation of funds and resources for public water system training services in the future. Additionally, the framework for the 2015 training strategy will likely

generate additional contractor-provided training services to support strategy implementation. These activities will be captured under this framework;

- Maintain advanced operator training through the Colorado Drinking Water Excellence program for surface water systems of Colorado to ensure plants are operating at peak capabilities to ensure continuously safe drinking water;
- Continued improvements to the CDPHE drinking water website, to include access to new information and operator training;
- The use of cross-program compliance teams to identify and provide technical assistance to selected water systems that are in violation of regulations, including those with or soon to have an enforcement targeting tool (ETT) score greater than 11 and/or those with other compliance issues. This effort will utilize division staff and contractors with the goal of both resolving the violation and ensuring the water system has technical, managerial, and financial capacity (TMF);
- Development and delivery of training to address root causes of public water system failures;
- Improved sanitary surveys and oversight for non-community groundwater systems;
- Continued implementation of a coaching program to bring one-on-one training and technical assistance to small water systems with high priority deficiencies;
- Implementation of the source water assessment phase and protection planning assistance for surface water systems; and
- Staffing related to the above activities, including grant and contract management when activities are performed by a third-party.
- Source water delineates and assesses source water areas for surface and ground water systems. SWAP assessment reports were completed in December 2004.

**Wellhead Protection Program (5%),**

**FFY14 Requested Estimated Amount \$769,700**

This is to delineate and assess source water areas for ground water systems, produce new WHP/SWAP assessment reports as necessary, and support development and implementation of local ground water protection plans.

***Use of funds and expected accomplishments***

- Completion of new and/or revised ground water source water delineations;
- Enhanced ground water susceptibility assessments to improve compliance;
- Improved ground water protection plans to minimize source contamination;
- Enhanced WHP/SWAP data management;
- Enhanced community information and education;
- Improved data compilation and reporting;
- Financial and technical assistance to facilitate groundwater protection plans;
- Coordinate and perform community and non-community groundwater sanitary surveys;
- Compilation and reporting of the national source water protection measures to EPA.

## **Public Review and Comment**

On September 8, 2014, the WQCC published this information and held an Administrative Action Hearing on October 14, 2014, at which time the state's 2015 IUP, including the 2015 DWRF project eligibility list and project priority / fundable list, was approved. Each year, the IUP will be amended to include additional DWRF projects and other appropriate changes. The division will continually seek public review and comment for the proposed list of eligible projects and IUP brought before the WQCC for annual approval. During the annual project eligibility list survey process, the division contacted governmental agencies and private-not-for-profit agencies to identify potential projects for the 2016 DWRF IUP.

## Attachment I: Colorado DWRF Priority Scoring Model

Drinking Water Quality & Public Health	Points
Project addresses a documented waterborne disease outbreak associated with the system within the last 24 months	35
Project corrects or prevent violations of MCLs (primary standards) <sup>i</sup>	30
• Nitrate, nitrite, TCR	25
• Total trihalomethanes, total haloacetic acids	20
• Arsenic, selenium	15
• Other regulated contaminants	15
Project corrects or prevents exceedances of MCLs for radionuclides	35
Project corrects inadequate treatment techniques that are unable to satisfy the requirements for	
• Surface water	20
• GWUDI	
• Groundwater	
Project corrects exceedances of secondary drinking water standards	10
System has inadequate supply* to meet all current domestic water supply demands.	25
*System must provide records of water usage to substantiate supply is inadequate	
Project will correct or prevent:	
• Inadequate distribution due to system deterioration (e.g., experiencing multiple line breakages)	20
• Inadequate distribution due to chronic low pressure	15
• Inadequate storage	10
• Demand exceeding design capacity	5
Project incorporates Fluoridation	10
Affordability	Points
Median Household Income (MHI) of service area <sup>ii</sup>	
• <50% of State MHI	45
• Between 51% and 60% of State MHI	35
• Between 61% and 80% of State MHI	25
• Between 81% and 100% of State MHI	15
• >100% of State MHI	0

Affordability (continued)	Points
User Fees (proposed annual average residential fees/area MHI):	
• Rates are >2.0% of service area's MHI	45
• Rates are between 1.5% and 2% of the service area's MHI	35
• Rates are between 1% and 1.49% of the service area's MHI	25
• Rates are between 0.5% and 0.99% of the service area's MHI	15
• Rates are <0.5% of the service area's MHI	0

Indebtedness\* =  $\frac{\text{existing debt} + \text{proposed debt}}{\text{Total ERT}**}$   
MHI

- >5% of area MHI
- Between 2% and 5% of area MHI
- <2 % of area MHI

\*Indebtedness is based on the amount of water debt only

\*\*Total Equivalent Residential Taps (ERT)= Commercial ERT + Residential ERT

Population served criteria:

- <1,000
- Between 1,000 and 4,999
- Between 5,000 and 10,000
- >10,000

CPDWR Compliance	Points
Project addresses an enforcement action by a regulatory agency and the facility is currently in violation of CPDWRs.	30
Project addresses a facility's voluntary efforts to resolve a possible violation and will mitigate the issuance of a consent order, notice of violation or other enforcement action.	20
Project is designed to maintain CPDWR compliance or to meet new requirements	15
System is currently meeting all CPDWRs	10

Source Protection and Conservation	Points
Project addresses vulnerability to potential pollution by conditions identified in an approved source water protection area assessment:	
• Point source discharge within a delineated area	15 (for one or more)
• Area impacted by agricultural chemical use or run-off	
• Area subject to oil/gas/mineral operations	
• Unprotected watershed area	
Project establishes a protective zone to address potential pollution as a result of wildfires in burn scar areas	10

Source Protection and Conservation (continued)	Points
Utility rate structure currently in place:	
• Increasing block rates	15
• Seasonal rates	10
• Uniform	0
Project will implement water metering, leak detection and/or other water conservation and efficiency infrastructure applications at a minimum of 20% of total project costs	10
Sustainability*	Points
Project seeks to:	
• Correct compliance issues, water quality problems, and/or water supply problems through physical consolidation and regionalization of water systems	10
• Correct and/or improve security of the water system	10
• Incorporate beneficial uses of water treatment plant sludge and/or alternative concentrate management options in an approved Beneficial Use Plan <sup>iii</sup>	10
Project promotes sustainable utilities and/or communities through a utility management plan that:	
• Secures a replacement fund for the rehabilitation and replacement of aging and deteriorating infrastructure as needed	5
• Provides sufficient revenues to meet O&M and capital needs	5
• Demonstrates that the facility has maintained licensed/certified operators, adequate staffing to properly operate and maintain the facility and will continue to do so	5
• Incorporates a fix-it-first planning methodology	5
Readiness to Proceed	Points
Project has secured one or more of the following:	
• Basis of design report Submitted (for treatment)	
• Radionuclide project has secured approval for residual handling if required	
• Radionuclide project has secured approval for impoundment if required	10 (for one or more)
• Water conservation plan has been approved if required	
• Plans and specification submitted	
• Plans and specification approved	
Project has received prior DWSRF loan and/or P&D Grant Funding in the past 24 months	10
Project has funding secured by multiple assistance providers	5

---

<sup>i</sup> This accommodates repeat violations and provides indicators for both chronic and acute health hazards.

<sup>ii</sup> Current MHI for Colorado is \$57,685 pursuant to 2011 Census Data. Percent of MHI will be calculated using the most current MHI data that is available. For special districts, census block MHI data will be used if available; otherwise county MHI data will be used.

<sup>iii</sup> The Hazardous Materials and Waste Management Division is the agency responsible for implementing the *Regulations Pertaining to the Beneficial Use of Water Treatment Sludge and Fees Applicable to the Beneficial Use of Sludges* pursuant to 5 CCR 1003-7.

## Attachment II: Application of Additional Subsidization

Additional Subsidization	
Water Quality & Public Health + Affordability Score = Additional subsidization points	Percent of Project Costs as Principal Forgiveness*
>175 points	80% principal forgiveness
125-175 points	60% principal forgiveness
100-124 points	40% principal forgiveness
<100 points	25% principal forgiveness

\*No one project may receive more than 50 percent of the total amount of funds that have been set aside for additional subsidization for each fiscal year. For example, if Colorado has set aside \$2 million for FY14 to be provided as additional subsidization, no project may receive more than \$1 million in principal forgiveness.

## Attachment III: Colorado DWRF Planning & Design Grant Model

Affordability	Points
Median Household Income (MHI) of service area	
• <40% of State MHI	20
• Between 40% and 59% of State MHI	15
• Between 60% and 80% of State MHI	10
Population served criteria:	
• <500 population	20
• 500 to 1,000 population	15
• 1,001 to 5,000 population	10
User fees (proposed annual residential fees/area MHI):	
• Rates are > 1.5% of the service area's MHI	20
• Rates are between 1% and 1.5% of the service area's MHI	15
• Rates are between 0.5% and 0.99% of the service area's MHI	10
Drinking Water Quality & Public Health	Points
Project will correct or prevent MCL violations (primary standards)	25
Project corrects inadequate treatment techniques that are unable to satisfy the requirements for	
• Surface water	20 (for one or more)
• GWUDI	
• Groundwater	
Project will correct or prevent:	
• Inadequate distribution due to system deterioration (e.g., experiencing multiple line breakages)	
• Inadequate distribution due to chronic low pressure	15 (for one or more)
• Inadequate storage	
• Demand exceeding design capacity	

In the event that two or more projects are tied, the highest affordability score will be used to break the tie. Should a tie between projects remain after sorting by the affordability, the drinking water quality and public health section will be used and the tied projects will be ranked from highest to lowest for each respective category in that section. If the tie cannot be broken through the above process, the final tie breaker will be the highest percentage of match to the total planning and/or design cost.

**Attachment IV: Calculation of DWRF Loan Capacity for 2015  
as of June 30, 2014**

Capitalization grants for loans through 2014	\$	221,125,765
Obligated for loans through 6/30/14	\$	215,903,960
Remainder	\$	5,221,805
Estimated 2015 Capitalization Grant	\$	15,394,000
less: set asides	\$	4,772,140
<b>Total 2015 Grant</b>	<b>\$</b>	<b>10,621,860</b>
less: 2014 Grant fund used remainder 2014 (for direct loans)	\$	2,186,855
less: Grant funds for expected 2014 additional subsidy	\$	4,618,200
less: Grant funds for expected 2015 additional subsidy	\$	4,618,200
plus: Transfer from WPCRF in 2014		-
<b>Total grant funds available</b>	<b>\$</b>	<b>4,420,410</b>
Re-loan funds as of 06/30/14	\$	6,529,435
plus: De-allocation on 9/1/14	\$	11,002,960
plus: De-allocation on 9/1/15	\$	12,683,673
less: Re-loan funds used for direct loans remainder of 2014	\$	1,584,467
<b>Total re-loan funds available</b>	<b>\$</b>	<b>28,631,601</b>
<b>Loan capacity for 2015 (includes 9/1/15 de-allocation)</b>		
Additional subsidy	\$	9,236,400
Leveraged loans from grant funds X 1.40	\$	6,188,574
<b>Total</b>	<b>\$</b>	<b>44,056,575</b>

## Attachment V: Cash Draw Proportionality Percentages

LL-Leverage Loan / DL-Direct Loan

Project	Loan Execution Date	Total Loan	Federal Share	Actual State Match Ratio *	Adjusted State Match Ratio**	State Share	Additional Subsidization
Colorado Springs, City of (DL)	04/29/10	\$ 8,600,000	\$ 7,316,229	17.55%	30.86%	\$ 1,283,771	\$ -

<b>Total</b>		<b>\$ 98,631,471</b>	<b>\$ 68,096,461</b>			<b>\$ 15,566,669</b>	<b>\$ 16,088,902</b>

\* Actual state match drawn ratio prior to implementation of correct proportionality (for loans executed prior to January 1, 2014 -- loans executed after January 1, 2014, were allocated and draw the correct ratio).

\*\* Beginning March 4, 2014 and going forward, state match ratio drawn on all loan project requisitions.

In the DWRF, the 20% state match required for set-aside grant draws is incorporated and obligated in the loan program. Loans are funded with and all draws are paid at a proportionality rate which includes the set-aside state match requirement. The program uses a "rolling" proportionality rate which is recalculated each time there is a change in available grant funds (awards, reductions, set-asides conversions to the loan program, etc.). Loans executed after the new calculation use the new proportionality. All loans use the proportionality rate they were funded at execution through the term of the loan.

In January, 2014, the Authority implemented new procedures to meet the EPA proportionality requirement for project/loan grant draws.

The remaining undrawn loan amounts of all loans funded with 100% grant funds prior to January 1, 2014 were adjusted to meet the proportionality requirement beginning in March, 2014 and will draw at the correct federal/state match ratio until complete.

For all grant funded loans executed January 1 through May 20, 2014 (before the 2014 federal capitalized grant award), the proportionality for each draw is 76.41% grant and 23.58% state match.

For all grant funded loans executed after May 20, 2014, the proportionality for each draw is 78.45% grant and 21.55% state match. This ratio will be used for new loans going forward until there is a change in grant funds availability, such as a new grant award. At that point, the proportionality rate will be recalculated and new grant funded loans executed after that time will use the new proportionality rate.

## Attachment VI: Net Funds Available for Transfer

*All dollar figures are in millions.*

Year	Transaction	Banked Transfer Ceiling	Transferred from WPCRF - DWRF	Transferred from DWRF-WPCRF	WPCRF Funds Available for Transfer	DWRF Funds Available for Transfer
1997	CG Award	\$5.6	-----	-----	\$5.6*	\$5.6*

SUMMARY OF DW SRF LOANS MADE BY TYPE OF LOAN						
Loan Type	Number of Loans Financed	Total Amount of Financing Assistance-Loans		Total DW SRF Funds Obligated (*)	Total State Match Funds Obligated (**)	Reloan Funds Obligated to Loan (***)
DIRECT LOANS (DC)	64	\$ 48,135,538		\$ 23,533,884	\$ 4,564,404	\$ 20,037,249
DIRECT LOANS (DL)	61	\$ 59,790,288		\$ 18,946,509	\$ 10,693,631	\$ 30,150,147
LEVERAGED LOANS (LL)	39	\$ 361,277,545		\$ 141,132,687	\$ 33,917,933	\$ 22,755,336
ARRA (DC)	7	\$ 8,619,354		\$ 8,619,354	\$ -	\$ -
ARRA (DL)	17	\$ 23,671,526		\$ 23,671,526	\$ -	\$ -
TOTAL FOR PROGRAM	188	\$ 501,494,250		\$ 215,903,960	\$ 49,175,969	\$ 72,942,732

Comments / Notes:

(A) Loan funded with 100% Federal grant funds. 20% State match deposited directly to Drinking Water SRF Reloan Account when loan funded.

(B) Loan funded entirely with State Match Reloan (this is the state match that was deposited directly to Drinking Water SRF Reloan Account when 100% grant funded loan is executed. -see comment A)

(C) Loans with split funding from Direct Deposited State Match and Other Sources on Deposit in DW SRF Reloan

(D) Loan was 100% federal grant funded at closing but balance of undrawn funds was converted to proportionality beginning March, 2014.

DRINKING WATER REVOLVING FUND (DWRF) LOAN PROGRAM  
2015 INTENDED USE PLAN  
APPENDIX C - LOAN SUMMARY REPORT AS OF JUNE 30, 2014

**Type of Loan:**

ARDC = American Recovery & Reinvestment Act (ARRA) Disadvantaged Community Direct Loan - Funded from ARRA funds; state match not required.

ARDL = American Recovery & Reinvestment Act (ARRA) Direct Loan - Funded from ARRA funds; state match not required.

DC = Disadvantaged Community Loans

DL = Direct Loan - Funded from available sources: (1) Authority state funds, (2) Grant Funds or (3) Drinking Water SRF Reloan funds.

LL = Leveraged Loan - Funded from bond proceeds

PPF = Borrower received 100% principal forgiveness when loan executed.

PPF = Borrower received partial principal forgiveness when loan executed.

gr = Borrower project qualified as having "green" component, as defined by the EPA; loan financed at a reduced or zero interest rate.

**Explanation of DW SRF Loan Funding and/or Subsidization Sources**

(\*) DW SRF Funds = Drinking Water State Revolving Fund - Received from EPA Capitalization Grant Awards

(\*\*) State Match Funds = (Required 20% match for Each Dollar Received From EPA Grants from State Funds) - Provided Mainly from Authority Funds

(\*\*\*) Reloan Monies = Recycled DW SRF funds - No State Match Required

**Borrower Abbreviations Clarification:**

MD = Metropolitan District

W&SD = Water and Sanitation District

WD = Water District

PID = Public Improvement District

WA = Water Authority

WSS&SSD = Water, Sanitation, Sewer & Storm Drainage District

sd = Sub-district

WC = Water Commission

WW = Water Works

\* Cash Basis

- (a) Major other sources include: Transfers from State Funded Direct Loan Program's Administrative Fee Account and from the Drinking Water Funding Account to cover administrative costs incurred at the beginning of the SRF program and advanced admin fee received at the closing of the issuance of the 2004AR refunding bonds to cover the cost of current and future administration of refunding bond issues. Beginning in 2014, this line item also includes investment income from certain preconstruction accounts.
- (b) Beginning in 2008, certain DWRF grant administrative costs incurred by the Authority are being paid from funds transferred from the WPCRF administrative fee account. Amounts for 2015 are included assuming the transfers for this purpose are approved.
- (c) Other Program Grants include payments made to recipients of: (1) Planning & design grants, (2) Flood Assistance grants (beginning in 2014).
- (d) Beginning in September 2011, administrative fee account funds are being used to pay bond debt service due to a shortage in investment interest income subsequent to the early termination of the associated repurchase agreement.
