Introduction to the Drinking Water Revolving Fund

Colorado's Drinking Water Revolving Fund (DWRF) provides financial assistance to government agencies and private nonprofit public water systems for the construction of water projects intended to improve public and environmental health, aid compliance with the federal Safe Drinking Water Act and invest in Colorado's water infrastructure.

State legislation (SB 95-083) established the Drinking Water Revolving Fund as an enduring and viable fund. The legislation stated that the fund shall be maintained and available in perpetuity to provide financial assistance as authorized and limited by the federal Safe Drinking Water Act.

STATE REVOLVING FUND PARTNERSHIP

The State Revolving Fund (SRF) program is administered by three partner agencies. Colorado statute directs the Colorado Department of Public Health and Environment, Water Quality Control Division; the Colorado Water Resources and Power Development Authority and the Colorado Department of Local Affairs, Division of Local Government (DLG) to jointly operate the program. These agencies administer the program with common goals approved and supported by the Water Quality Control Commission and the authority board of directors.

Agency responsibilities				
 Division Primacy agency. Program administration. Technical review and advisory role. Manages fund set-asides. Federal reporting. 	 Authority Financial structure. Manages budgets and investments. Disburses funds. Federal reporting. Provides state match. Loan portfolio monitoring. 	 DLG Conducts financial capacity assessments. Financial and managerial assistance to systems. Coordinates funding collaboration. Program outreach. 		

Mission

- Provide low cost, affordable financing to Colorado's drinking water systems by capitalizing on all available funds to address the state's priority drinking water public health, water quality and infrastructure needs.
- Actively target and allocate affordable resources to projects and initiatives that result in significant public health and environmental benefits, while maintaining a perpetual, self-sustaining revolving loan fund program.
- Manage the fund in a manner that provides benefits for current and future generations.

The agencies also partner with the Colorado Water Conservation Board, USDA Rural Development, Colorado Rural Water Association and the Rural Community Assistance Corporation to collaborate financing when appropriate.

INTENDED USE PLAN (IUP)

The EPA capitalization grant agreement requires the preparation of an Intended Use Plan (often referred to as an IUP). The plan is the agencies' framework to utilize funds, finance drinking water infrastructure and support related program activities during the 2018 calendar year.

Short-term Goals

Short-term goals for the fund in 2018 include:

- Provide outreach, technical and financial assistance to public water systems that pose a risk to
 public health due to exceedances of drinking water health-based standards or other substandard
 infrastructure conditions.
 - Efforts will be focused on those systems that represent acute public health risks and those that exceed the health-based standards for uranium, radium and other radionuclides (CDPHE Drinking Water Winnable Battle*).
- Address drinking water system health issues including lead, the unregulated contaminant monitoring rule and nitrates.
 - The division will market and encourage drinking water systems to participate in the Drinking Water Excellence program by offering grants and/or other incentives to systems that meet the various levels of the program, i.e. participant, bronze, silver and gold.
- The division will oversee work on a statewide assessment for early implementation of future rules
- The division will oversee a study that evaluates water quality issues impacting public water systems on a regional level (e.g., high nitrates on the eastern plains).
- The agencies will review the effectiveness of the recently implemented scoring model revisions (Attachment I) and use of additional subsidy.
- The Division of Local Government will evaluate the effectiveness of the Disadvantaged Communities Program that utilizes multiple metrics to better define disadvantage status and meet federal program requirements.

Long-term Goals

Colorado's long-term goals are established to: protect public health, ensure the integrity and sustainability of the program, and provide support for the division's strategic plan goals. Additional long-term goals include:

- The SRF Committee will evaluate the current funding coordination structure and identify ways to strengthen ongoing efforts.
- The Division of Local Government will conduct trainings to build financial and managerial capacity (capability) of public water and wastewater systems across the state.
- To solicit projects into the program, the division, authority and DLG will host training events and outreach activities throughout the year to provide consulting engineers and communities with information about the funding process, fund availability and program requirements.
- The agencies will provide affordable financial assistance for eligible applicants while maintaining
 a perpetual revolving loan program. The program is sustained through re-loan funds,
 administrative fees, EPA annual appropriations (through capitalization grants to the state each
 year) and interest earnings.
- The authority will leverage funds to maximize the amount of available funding for projected loans identified in the Intended Use Plans (IUPs).

^{*} Colorado's 10 Winnable Battles are public health and environmental priorities that have documented, effective solutions. Clean water - Protect all designated uses for water bodies and drinking water by attaining water quality standards and restoring impaired water quality to attainable standards.

Project Eligibility

Priority projects address risks to public health, disadvantaged communities and compliance with the Safe Drinking Water Act. Examples of eligible and ineligible projects are listed below*.

ELIGIBLE PROJECT EXAMPLES

- Addresses present and future Safe Drinking Water Act requirements.
- Replaces aging infrastructure.
- Restructure and consolidate water supplies to rectify contamination issues or to assist systems unable to maintain and ensure Safe Drinking Water Act compliance for financial or managerial reasons.
- Purchase a portion of another system's capacity to cost effectively rectify a Safe Drinking Water Act compliance issue.
- Planning including required environmental assessment reports, design and construction costs associated with eligible projects.
- Land acquisition.**
 - o Land must be integral to the project.
 - o Acquisition must be from a willing seller.

INELIGIBLE PROJECT EXAMPLES

- Dams or rehabilitation of dams.
- Water rights, except water rights owned by a system purchased to consolidate for capacity development.
- Reservoirs, except finished water reservoirs that are used for treatment processes which are located on the same property as treatment facility.
- Drinking water monitoring costs.
- Operation and maintenance costs.
- Projects primarily for fire protection.
- Projects for systems that lack adequate technical, managerial and financial capability, unless assistance will ensure compliance.
- Projects for systems in significant noncompliance under the Safe Drinking Water Act, unless funding will ensure compliance.
- Projects primarily intended to serve future growth.

^{*}Water utilities distributing or supplying 2,000 acre feet, or more, of water per year must have an approved and updated water conservation plan as defined by Section 37-60-126, CRS (Approval is from the Colorado Water Conservation Board).

^{**}The cost of complying with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (the Uniform Act) is an eligible cost.

Project Lists

Appendix A: Drinking Water Revolving Fund 2018 Project Eligibility List. This is an inventory of projects with a completed eligibility survey from 2017. The eligibility survey is released annually to potential borrowers to capture 20-year capital improvement needs. Appendix A includes the name of the public water system, a description of the project, population, the estimated cost of the project, and the type of project as described in the fund rules. Borrowers can add projects to Appendix A by completing an eligibility survey in June of each year.

Appendix B: Drinking Water Revolving Fund 2018 Project Priority/Fundable List. This is an inventory of projects eligible to receive, or that have recently received, a loan. This list includes an estimated project cost or approved loan amount, project description, preliminary disadvantaged community status and associated loan term and interest rate and green infrastructure categories. Projects listed in this appendix have a projected construction start date within 12-18 months and have been assigned a preliminary ranking score; however, this score is subject to change based on additional information from potential applicants and further prioritization. An up to date copy of Appendix B is maintained on the division's website.

Criteria, Methods and Evaluation for Distribution

This section describes the application process, including:

- The prioritization criteria and authority board action.
- How policies apply to the allocation of loan proceeds.
- The proposed federal fiscal year (2018 federal bill requirements, such as Green Project Reserve, additional subsidy, Davis-Bacon and related acts, American iron and steel requirements, and project signage).

Loan applications are accepted seven times a year. They are funded based on the capacity of the fund. If there are more project loan requests than funding, loan applications are scored based on the ranking system found in Attachment I: Drinking Water Revolving Fund Priority Scoring Model.

APPLICATION, PRIORITIZATION AND APPROVAL

Applicants should coordinate with their <u>assigned division project manager</u> to determine the appropriate application deadline to ensure board action and loan execution in a timely manner. The table below lists loan application deadlines, type of loan, and the authority board meeting where the application is presented for approval.

Application Deadlines	Loan Type	Authority Board Meetings
January 15	Direct loan *Leveraged loan (spring bond issue)	March
February 15	Direct loan	April
April 15	Direct loan	June
June 15	Direct loan *Leveraged loan (fall bond issue)	August
August 15	Direct Ioan	October
October 15	Direct loan	December
November 15	Direct Ioan	January

All loans are subject to available funds and prioritization if needed. *Leveraged loans are generally funded twice a year (spring and fall); however, leveraged loan applications may be submitted at any authority board meeting. January 15 is the last application date to submit for spring bond issue funding and June 15 is the last application date for fall bond issue funding.

<u>Attachment I: Drinking Water Revolving Fund Priority Scoring Model</u> is used to prioritize applications if funding requests exceed available funds. Loan applicants that do not receive funding due to their rank may be considered at the next applicable loan application date at the applicant's request.

All loan approvals are valid for 18 months from the approval date. Prioritized and approved loans that do not execute their loan within 18 months are reprioritized upon the next application deadline, as necessary.

ALLOCATION OF LOAN PROCEEDS

The State Revolving Fund Program policies are set by the commission and the authority board. The authority board and State Revolving Fund committee dictate use of loan proceeds. Proceeds from loans, EPA capitalization grants, and administration fees are used to benefit communities through planning grants, design/engineering grants and disadvantaged community loans.

CAPITALIZATION GRANT

For federal fiscal year 2018 and consistent with the 2017 appropriations language, the following requirements apply to each state receiving Drinking Water Revolving Fund capitalization grants:

- Green Project Reserve.
- Additional subsidy.
- Davis-Bacon and related acts.
- American iron and steel requirements.
- Debarment, suspension and other responsibility matters.
- Prohibition against participation of listed violating facilities.
- Disadvantaged Business Enterprise Program.
- Williams-Steiger Occupational Safety and Health Act.
- Archeological discoveries.
- Environmental assessment compliance with the National Environmental Policy Act.
- Signage.

Green Project Reserve

Historically, the capitalization grant agreement required the program to direct a portion of the capitalization grant towards projects that address green infrastructure, water efficiency, energy efficiency or other environmentally innovative activities. If the 2018 appropriation grant or guidance requires a Green Project Reserve set-aside, the below incentive will be offered.

Projects that implement eligible green components equal to, or greater than, 20 percent of the total project cost will receive the entire loan amount at a reduced loan interest rate of zero percent, for up to a maximum of \$3 million. Leveraged loan projects over \$3 million total cost are only eligible for the reduced interest rate on the first \$3 million. This incentive will only be offered until Colorado's Green Project Reserve requirement has been met unless otherwise determined by the authority board. All green project reserve terms are subject to action by the authority board and are not guaranteed.

In the event that the 2018 appropriation guidance does not require additional Green Project Reserve set-asides, the incentive will only be available for any remaining unobligated Green Project Reserve funds, unless otherwise determined by the authority board.

Additional Subsidy

In 2017, the Drinking Water Revolving Fund capitalization grant appropriation required 20 percent, but no more than 50 percent, of funds be used by the state to provide additional subsidy to eligible

recipients in the form of principal forgiveness, negative interest loans, grants or a combination of these.

A portion of the Colorado's additional subsidy is issued as grants to government agencies in a disadvantaged community for the design and engineering phase. This provides an opportunity to assist with more design/engineering costs to those communities who otherwise could not afford the project and positions projects to move more quickly into the construction phase. Annually, the authority board determines the additional subsidy amount based on the capitalization grant conditions, guidance from the EPA along with program needs. Currently, only government agencies in a disadvantaged community are eligible for additional subsidy funds.

Any remaining additional subsidy funds from 2017 will be distributed to disadvantaged communities in the coming year on a first-come, first-served basis. If there are more applications than available subsidy, then the subsidy will be evenly split between projects. No one project can receive more than 50 percent of the total amount of funds set aside for additional subsidization for that fiscal year.

For calendar year 2018, additional subsidy funds not allocated to design/engineering grants by year end will be allocated to disadvantaged communities who have executed a loan in 2018 and have been prioritized based on the prioritization table shown in Attachment II: Application of Additional Subsidization. If after prioritization there are remaining additional subsidy funds, funds will be evenly split between any remaining disadvantaged community projects. Additional subsidy will be issued as principal forgiveness.

If there are remaining additional subsidy funds in 2019, the funds will be issued to disadvantaged communities on a first-come, first-served basis, per the 2019 Intended Use Plan. Disadvantaged communities with leveraged loans will be eligible for design and engineering grants but not eligible for any remaining additional subsidy.

Davis-Bacon and Related Acts

The requirements of Section 1450(e) of the Safe Drinking Water Act (42 U.S.C. 300j-9(e)) regarding prevailing wage rates apply to the construction of treatment works carried out in whole or in part with assistance made available by a state revolving loan fund as authorized by Section 1452 of the Safe Drinking Water Act (42 U.S.C. 300j (12)).

American Iron and Steel

On January 17, 2014, Congress passed the American iron and steel requirement as part of the EPA Consolidated Appropriations Act for iron and steel products used in program projects for construction, alteration, maintenance or repair. All projects are subject to these requirements.

The statute permits EPA to issue waivers for a case or category of cases where EPA finds that (1) applying these requirements would be inconsistent with the public interest; (2) iron and steel products are not produced in the U.S. in sufficient and reasonably available quantities and of a satisfactory quality; or (3) inclusion of iron and steel products produced in the U.S. will increase the cost of the overall project by more than 25 percent. States are allowed, on behalf of the borrower, to apply for waivers of the American iron and steel requirements directly to EPA headquarters. The program refers to compliance guidance issued by the EPA which can be found at their website.

The above requirements are subject to further interpretation by the EPA and are implemented consistently with any formal guidance issued by the agency.

Debarment, Suspension and Other Responsibility Related Matters

Recipients of EPA financial assistance agreements must not be presently debarred, suspended, proposed for debarment, declared ineligible or voluntarily excluded from covered transactions by any federal department or agency. The borrower must also ensure that any consultants, prime contractors, subcontractors, vendors, suppliers and manufacturers meet the requirements and are not excluded from covered transactions by any federal agency (as identified through the System for Award Management).

Prohibition Against Participation of Listed Violating Facilities

Recipients of EPA financial assistance agreements and prime contractor(s) must ensure that no portion of the work required by the contract will be performed in a facility listed on the EPA list of violating facilities on the date when the contract is awarded. Work must comply with the Clean Air Act and Clean Water Act and also comply with state clean air and clean water standards at the facilities where the contract will be performed.

Disadvantaged Business Enterprise Program

The goal of the Disadvantaged Business Enterprise program is to ensure nondiscrimination in the award of contracts. Recipients of EPA financial assistance agreements are required to seek, and encouraged to utilize small, minority and/or women-owned businesses for project procurement needs on equivalency designated projects.

Williams-Steiger Occupational Safety and Health Act

Recipients of EPA financial assistance agreements are required to ensure that all contractors working on project construction are subject to the provisions of the Williams-Steiger Occupational Safety and Health Act of 1970.

Archeological Discoveries

Recipients of EPA financial assistance agreements are required to ensure that archeological discoveries are protected through appropriate procedures.

Environmental Assessment - Compliance with the National Environmental Policy Act

All proposed actions funded by the program must undergo an environmental review process to assess compliance with the National Environmental Policy Act and state environmental review process. The state, borrower, engineer, contractor and subcontractors have a duty to: cooperate fully with federal and local governments and all other concerned public and private organizations, to use all practical means and measures including financial and technical assistance, and to create and maintain conditions under which man and nature can exist in productive harmony, and promote the general welfare of the public.

Signage

The EPA capitalization grant requires equivalency projects to comply with the program signage guidance to enhance public awareness of EPA assistance agreements nationwide.

The above requirements are subject to further interpretation by the EPA and are implemented consistently with any formal guidance issued by the agency.

Miscellaneous

A proposed payment schedule using federal fiscal year 2018 funds is included in the application for the capitalization grant. The payment schedule identifies the anticipated amount of EPA automated clearinghouse withdrawal from the capitalization grant and state dollars to be deposited into the fund.

The Colorado program will provide the necessary assurance and certifications as part of the capitalization grant agreement and operating agreement between Colorado and EPA.

In accordance with federal statutes, states are authorized to provide loans at or below market interest rates, including interest free loans, at terms not to exceed the lesser of the following: 20 (30 years for disadvantaged communities) plus construction or the projected useful life (as determined by the state) of the project to be financed with proceeds of the loan. The authority board determines the interest rate and loan terms on or before December 31 each year for the following calendar year.

Capitalization Grants and Re-loan Funds

Executed loans are funded with any available sources, grant or re-loan. Loans will not be designated solely grant or re-loan funded, rather, whichever funds are available and needed at the time of the draws.

DISADVANTAGED COMMUNITIES (DAC) LOANS

Disadvantaged communities are defined by having a population of 10,000 or less and by meeting certain primary and secondary factors. Government agencies determined to be disadvantaged are eligible for a reduced interest rate, up to a 30-year loan term, planning grants and design and engineering grants, and/or additional subsidy if available. Private non-profits determined to be disadvantaged are eligible for a reduced interest rate and planning grants, but not design and engineering grants. Communities are evaluated during the pre-qualification phase and again at the time of loan application using three scenarios to test primary factors and, if necessary, secondary factors. The primary and secondary factors are described in detail below.

Primary and Secondary Factors - Disadvantaged Community

Primary Factors	Benchmark
P1 Community Median Household Income (MHI)	Less than or equal to 80 percent of the state MHI.
P 2 Community Median Home Value (MHV)	Less than 100 percent of the state MHV.
P3 County 24-Month Unemployment Rate OR County 10-Year Change in Jobs	Unemployment rate greater than state rate plus one percent or loss in total jobs over 10 year period.
Secondary Factors	Benchmark
S1 County Median Household Income (MHI)	Less than or equal to 80 percent of the state MHI.
S2 10-Year Change in Population	Community has lost population over a ten year period.
S3 Assessed Value/Household	Community's total assessed value is less than the median Colorado municipality.
S4 Current & Projected System Debt per Tap to MHV	Current and projected system debt per tap to MHV is greater than that of the median Colorado municipality.
S5 System Full-Cost per Tap to MHI	Full cost is greater than median Colorado municipality
OR Required Revenue per Tap to MHI	or required revenue is greater than median Colorado municipality.
For details on factor data sources and definitions, see Colorac	o SRF DAC Data Glossary.

Eligibility Scenarios - Disadvantaged Community

Scenario	Primary Factors	Results	Secondary Factors	Results
1 (P1) MHI and	(P2) MHV or (P3) Unemployment/Jobs	DAC eligible	Unnecessary	
2 (P1) MHI Only	Neither (P2) MHV or (P3) Unemployment/Jobs	Test secondary	Meet at least two of five	DAC eligible
3 (P1) Unreliable MHI but	Both (P2) MHV <u>and</u> (P3) Unemployment/Jobs	Test secondary	Meet at least two of five	DAC eligible

For communities where the factor data used does not represent recent, significant economic distress, or a scenario is marginally disqualifying, a business case may be presented to the authority board for an eligibility determination.

Disadvantaged communities are classified as either Category 1 or Category 2. If a community meets any one of the three scenarios above, the community is a Category 1. If, at the time of loan application review, a community's Current and Projected System Debt to Median Home Value (MHV) and Required Revenue per Tap to Median Household Income (MHI) are greater than the median municipality, the applicant will be recommended to be a Category 2. The table below illustrates the loan terms and interest rate for each respective category.

Categories - Disadvantaged Community

DAC	Qualify	Loan Amount	Loan Terms
Category 1	Meet one of the 3 scenarios	Up to \$3 million per project	Loan terms up to 30 years*. Interest rate is established at 50 percent of the direct loan rate**.
Category 2	Meet one of the 3 scenarios and both Proposed System Debt to MHV and Required Revenue per Tap to MHI exceed the median municipality.	Up to \$3 million per project	Loan terms up to 30 years*. Interest rate is established at zero percent**.

^{*} Not to exceed the project's design life.

Note: Loan requests exceeding the direct loan limit of \$3 million will not be eligible for a disadvantaged community loan unless approved by the authority board.

Business Case - Disadvantaged Community

In the event that a community's primary or secondary factor data does not represent recent, significant economic distress, or a scenario is marginally disqualifying, a business case may be presented to the authority board for an eligibility determination. The business case should be coordinated with the authority, division, and DLG project team and be quantitatively based on the factors the community has determined as not reflective of the community's current socio-economic or projected fiscal condition.

^{**} The authority board determines interest rates on or before December 31 each year for the upcoming calendar year.

Eligibility Period - Disadvantaged Community

An eligibility determination is valid for a period of 18 months. Status will be re-determined if the applicant does not submit a complete loan application within 18 months.

All projects are evaluated at the time of the loan application to determine if they meet the criteria for a Category 1 or Category 2 disadvantaged community status. Prequalified applicants retain (or can improve their status) as long as they submit a complete loan application within 18 months.

If an applicant submits for supplemental funding and the division deems the project a necessary continuation of the originally proposed project, the entity will continue to qualify as a disadvantaged community and receive the same interest rate and terms received on the original loan.

Planning Grants - Disadvantaged Community

The intent of the planning grant is to assist applicants with the costs of complying with program requirements such as: project needs assessment, environmental assessments, energy audits, and the legal and accounting fees that may be associated with the formation of a government entity. Planning grants are only intended to assist disadvantaged communities that expect to come through the program. One planning grant in the amount of up to \$10,000 may be awarded per disadvantaged community, per project. Entities that meet the disadvantaged community criteria and have the project on the current year Intended Use Plan, Appendix A Project Eligibility List or will be added to the subsequent year's project eligibility list, are eligible for planning grants. Planning grant requests are included as part of the pre-qualification process and require a pre-application meeting. Currently, both government agencies and private nonprofits are eligible for Drinking Water Revolving Fund planning grants.

Planning grant invoices are paid at no more than an 80:20 ratio to meet the 20 percent match requirement. Planning grant terms are no longer than one year unless otherwise approved by the authority board or its executive director.

Design/Engineering Grants - Disadvantaged Community

Additional subsidy for federal fiscal year 2018 will be used to fund design/engineering activities for disadvantaged communities. A project, as approved in the project needs assessment, may be eligible for up to \$300,000 design/engineering grant. The amount of grant is determined by actual engineering fees relative to total project costs. Entities that meet the disadvantaged community criteria with the project on the current year Drinking Water Revolving Fund Intended Use Plan (Appendix A - Project Eligibility List), are eligible for design/engineering grants. The applicant must submit a project needs assessment and an environmental determination checklist to initiate grant eligibility. Private nonprofits are not eligible for design/engineering grants.

Design/engineering grant invoices are paid at an 80:20 ratio to meet 20 percent match requirement. The 20 percent match requirement may be reimbursed upon execution of the project Drinking Water Revolving Fund Ioan. Design/engineering grants are only intended to assist entities that expect to come through the program for Ioan funding.

SPECIAL PROJECTS

The division and authority work together to support the following projects and activities:

- Online project management and project tracking system for program funded projects.
- If required by state law, the division may utilize administrative fees to provide grants and/or training to eligible entities for water loss audits.

EMERGENCY PROCEDURES

The commission may amend Appendix A: DWRF 2018 Project Eligibility List and Appendix B: DWRF 2018 Project Priority/Fundable List at any time throughout the year to include projects that are determined to be emergency projects needed to prevent or address threats to public health. In cases where the commission determines amendments will result in substantial changes to Appendix A: DWRF 2018 Project Eligibility List or Appendix B: DWRF 2018 Project Priority/Fundable List, public notice and an opportunity for comment on the proposed inclusions will be provided.

SMALL SYSTEMS FUNDING GOAL

To the extent there are a sufficient number of eligible projects, the state will use at least 15 percent of monies credited to the fund account on an annual basis to provide loan assistance to systems serving 10,000 persons or less. It is anticipated that up to 15 small systems, with populations less than 10,000, will be funded from January 1, 2018 through December 31, 2018, for a total of up to \$20 million in loans. To further the small system-funding goal in 2018, planning grants are available to assist small public water systems. Design/engineering grants are also be available to assist small governmental public water systems.

Financial Status

A federally capitalized Drinking Water Revolving Fund was authorized by the 1996 Amendments to Safe Drinking Water Act and established in Colorado with the receipt of the first capitalization grant in September 1997. The state is required to match the total amount of the federal grant with a 20 percent contribution of state funds.

The program provides low interest, low cost of issuance direct loans to small public water systems. Direct loans are designed for smaller projects at or under \$3 million unless otherwise approved by the authority board. The direct loan sources are capitalization grant funds and re-loan funds.

Leveraged loans are designed primarily for investment grade borrowers with projects over \$3 million. This type of loan is used as security for bonds that are sold to increase the fund's loan capacity. The loan source comes from capitalization grant funds, state match funds and bond proceeds. In 2015, the program started issuing leveraged loans using a cash flow fund concept, to further enhance the leveraging capabilities and liquidity of the fund. The leveraged loan structure may use the cash flow or reserve fund model in the future based on the authority board's decisions and current economic conditions. From July 1, 2016 thru June 30, 2017, the leveraged loan interest rate was 70 percent of the market rate including the administrative fee of up to 1.25 percent. The market rate of bonds is determined on the day of sale as the all-in bond yield or all costs considered of the AAA rated drinking water revenue bonds sold by the authority. The authority board determines the interest rate for direct loans, the interest rate subsidy for leveraged loans, and length of term for both direct and leveraged loans and length of term for direct loans and leveraged loans by the end of each calendar year, for the following year.

Administrative fee income is deposited into an account separate from the fund and is used for the agencies staffing and operations expenses. Administrative fee income will continue to partially fund planning grants in 2018. Administrative fee income, as available, is used to reimburse the authority for state match funds deposited to the fund. The program reserves the right to accrue up to 1.25 percent administrative fee on all loans if it is determined that additional funds are needed to cover administrative costs and/or repay the state match provided by the authority. Up to \$1 million of Water Pollution Control Revolving Fund administrative fees collected from loans may be transferred to the Drinking Water Revolving Fund to pay for administrative costs of the Drinking Water Revolving Fund.

Administrative fees received from Drinking Water Revolving Fund loans for 2018 are estimated at \$3,820,000. These funds are used for direct program costs including legal and accounting fees, trustee fees and other consultant fees, in addition to labor and overhead allocations of the authority, division and DLG. Total costs for administration of the fund are estimated at \$1,925,000 and exclude any state match repayment. A portion of the state match may be paid from Drinking Water Revolving Fund set-aside grant monies. Appendix F: DWRF Administrative Fee Account consists of a table showing the administrative fee account activity since inception.

Each year, the eligibility list needs are compared against the loan capacity of the fund. Current needs exceed \$6 billion. Continued leveraging assists more communities on the project eligibility list (Appendix A: DWRF 2018 Project Eligibility List) to achieve compliance with the Safe Drinking Water Act. To date, the leveraged loan rates have been in the range of 1.86 percent to 4.60 percent. Although no interest income on the grant funds and state match funds accrue to the fund from leveraged loans, the perpetual nature of the fund remains in place. For more detail, please see Attachment III: Calculation of DWRF Loan Capacity for 2018.

Through June 30, 2017, the state received a total of \$334,519,600* in federal capitalization grants (includes the \$6,666,667 transfer back to the Water Pollution Control Revolving Fund in 2003). Of this amount, \$82,961,385 was set-aside for non-loan activities. The state expects to receive, but is unable to anticipate, the amount and funding levels of the federal fiscal year 2018 capitalization grant. For appendices and table purposes, the 2017 amounts were assumed for 2018 and may (or may not) be accurate.

Appendix B: DWRF 2018 Project Priority / Fundable List documents nine additional projects that completed a preliminary eligibility assessment through August 2017. The nine projects identified eligible project costs of \$9,534,000. Based on the 2017 eligibility survey responses, 59 new projects were added to Appendix B in the amount of \$894,676,579 and 59 projects were removed due to project completion or at the request of the entity.

*The 2017 DWRF Capitalization Grant was awarded on August 7, 2017. These numbers include the 2017 DWRF Capitalization Grant.

PROPORTIONALITY

The State of Colorado meets the Drinking Water State Revolving Fund proportionality regulations by assigning project funding, from repayments and/or interest earnings, in an amount equivalent to the Drinking Water State Revolving Fund state match requirement.

TRANSFER ACTIVITIES

As authorized by Congress, Section 302 of the Safe Drinking Water Act authorizes a state to transfer up to 33 percent of the capitalization grant (in a fiscal year) from one revolving fund to the other, i.e from the Drinking Water Revolving Fund to the Water Pollution Control State Revolving Fund and vice versa. In turn, 33 percent of the cumulative capitalization grants for federal fiscal years 1997-2017 (total grants at \$334,519,600) may be reserved from the Drinking Water Revolving Fund and transferred to the Water Pollution Control Revolving Fund and vice versa. For more detail, refer to the table in Attachment V: Net Funds Available for Transfer, which itemizes the amount of net State Revolving Fund program monies available for transfer between the two funds.

In 2018, based on the commission and governor's approvals, a transfer of no more than \$10 million may be transferred to or from the Drinking Water Revolving Fund into or out of the Water Pollution Control Revolving Fund. The exact amount of the transfer, if any, will be determined after the loan demands are determined. If a transfer is pursued, a stakeholder group will be notified of the state's intent to transfer funds. Any transfer of capitalization grant funds will be deposited in the appropriate program and will be available for loans. None of the transferred funds will be used for administrative purposes. With the

statutory language approved by the Colorado State General Assembly in 2002, transfers can be made from one account to the other with appropriate approvals.

Given the low level of remaining grant monies in the fund, a 2018 transfer of grant funds out of the Drinking Water Revolving Fund is unlikely. It is estimated that a transfer of \$5 - \$10 million to or from either fund will reduce the level of that program by \$1 - \$2.5 million per year over the next 20 years. The Drinking Water Revolving Fund set-asides would not be affected and the remainder of the allocation would be deposited into the revolving fund.

CROSS-COLLATERALIZATION ACTIVITIES

Beginning in calendar year 1999, the two revolving funds, pledged monies on deposits in one fund to act as additional security for bonds secured by monies on deposits in the other fund. This mechanism was utilized for both programs in 1999 and, as a result, the bond ratings for both programs were upgraded to AAA by all three bond rating agencies. This upgrade translated to lower interest rates and therefore more savings for the borrowers of both programs. These savings continue today.

OPERATOR CERTIFICATION

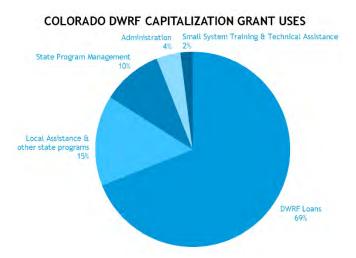

The 1996 amendments to the federal Safe Drinking Water Act required that states develop certification programs for operators of water treatment plants and distribution systems. House Bill 00-1431 adopted by the Colorado General Assembly revised the existing Colorado operators certification program, in part to meet the new federal requirements. In accordance with revised state statute, the division and the Water and Wastewater Facility Operators Certification Board have developed a program to implement federal requirements. The EPA approved the program. You can get more detail on the program here (Facility operator certification).

PRIVATE NONPROFIT PUBLIC WATER SYSTEMS

In May of 2015, Governor Hickenlooper signed Senate Bill 15-121 that amended the authority's statute to allow private, nonprofit public water systems with projects listed on the Drinking Water Revolving Fund eligibility list, to receive financial assistance. The authority board approved the funding parameters and eligibility for private nonprofit public water systems. These systems are considered the same as government agencies, with the exception of design/engineering grants. Private nonprofits are not eligible to receive design/engineering grants. Similar to government agencies, private nonprofit public water systems projects are evaluated on a case by case basis and may require additional covenants and conditions to ensure the success of projects and the perpetuity of the Drinking Water Revolving Fund.

Set-Aside Activities

Colorado may set-aside 31 percent of the capitalization grant for non-project or set-aside activities necessary to accomplish requirements of the Safe Drinking Water Act. Work plans are developed and submitted to EPA describing activities to be accomplished with the fund. The authority provides the 20 percent state match to receive the federal capitalization grant. Since federal fiscal year 2002 grant, the 20 percent match for the set-aside portion comes from the loan administrative fee account. The division provides the additional 1:1 match required for Public Water System Supervision program.

It is the division's responsibility to determine

the amount of funds necessary under each set-aside and to meet the obligations of the Safe Drinking Water Act. The financial status of the set-asides are summarized in Appendix D: DWRF Set-Aside Activity. The administration of the 2017 set-aside funds are listed below.

The federal fiscal year 2017 capitalization grant amount was \$14,344,000. A description of each set-aside and the funding earmarked from the 2017 capitalization grant for each activity is detailed below.

FFY 17 Colorado Set Aside Request Summary			
Administration and Technical Assistance	4%	\$573,760.00	
Small System Training and Technical Assistance (SSTTA)	2%	\$286,880.00	
State Program Management	10%	\$1,434,400.00	
Local Assistance and Other State Programs	15%	\$2,151,600.00	
*Capacity Development	10%	\$1,434,400.00	
*Wellhead Protection	5%	\$717,200.00	
	Total	\$4,446,640.00	

^{*}included in local assistance and other state program percentages.

ADMINISTRATION AND TECHNICAL ASSISTANCE SET-ASIDE (4%)

Federal Fiscal Year 2018 - Requested Amount \$573,760

These monies support on-going administration of the fund and may also support technical assistance to public water systems (established if Colorado opts to submit an EPA approved technical assistance work plan). Whether or not a work plan is approved, Colorado intends to take the full set-aside.

Use of funds and expected accomplishments

Funds are used to cover administrative and technical assistance expenses related to projects and activities authorized under the Safe Drinking Water Act, including the provision of technical assistance to public water systems as identified in the EPA approved work plan.

SMALL SYSTEM TRAINING AND TECHNICAL ASSISTANCE (SSTTA) (2%)

Federal Fiscal Year 2018 - Requested Amount \$286,880

These monies support on-going training and technical assistance to small systems serving less than 10,000 people established in the triennial EPA approved work plan focusing on the capacity development strategy. Colorado intends to take the full set-aside.

Use of funds and expected accomplishments

Funds are used to provide technical assistance and training programs for small systems. A portion of the technical assistance provided may be concurrent with sanitary surveys conducted at small water systems.

STATE PROGRAM MANAGEMENT (10%)

Federal Fiscal Year 2018 - Requested Amount \$1,434,400

This amount covers administration of the state Public Water System Supervision (PWSS) program established in the EPA approved state program management work plan for state fiscal years 2017-2019.

The act requires this set-aside be matched one-for-one with available state expenditures. The dollar-for-dollar match requirement will be met by utilizing drinking water program general funds, drinking water operator certification fees, drinking water related expenditures from the state laboratory, and 1993 drinking water grant matching funds from the division. The laboratory contribution includes analyses of drinking water samples. According to the Safe Drinking Water Act, state program match funds that were expended in 1993 can be used to provide up to 50 percent of the set-aside match. Current year state funds in excess of the minimum required for the Public Water System Supervision program grant included in the EPA performance partnership grant may also be used.

The state match allows the division to take the full set-aside and the division intends to take the full amount.

Use of funds and expected accomplishments

A portion of this set-aside will be used to support staff to accomplish Safe Drinking Water Act program requirements including:

- Data management system upgrades and maintenance.
- Improved system communication resulting in compliance progress and attainment.
- Effective program oversight, compliance assurance, enforcement, rule adoption, regulatory development, public water system assistance and capacity development.
- Staffing for engineering, compliance assurance, compliance assistance, rule management, data management, enforcement, administration, sampling, SWAP support, sanitary surveys, program management, contract oversight, early rule implementation, training and technical assistance and for implementing a capacity development strategy.
- Computer acquisition and employee expenses including furniture, vehicles, operational costs and indirect costs.

LOCAL ASSISTANCE AND OTHER STATE PROGRAMS (15%)

Federal Fiscal Year 2018 - Requested Amount \$2,151,600

This amount provides assistance with five activities: capacity development programs, wellhead protection program, source water protection activities (SWAP), SWAP land acquisition and SWAP implementation. Colorado intends to take the full set-aside, 15 percent from the capitalization grant. However, no more than 10 percent may be allocated for any single activity. See the requested amounts and targets below.

CAPACITY DEVELOPMENT (10%)

Federal Fiscal Year 2018 - Requested Amount \$1,434,400

This request is to assist new and existing systems to achieve and maintain technical, managerial and financial capacity as well as to support SWAP activities.

Use of funds and expected accomplishments

- Implement the Safe Drinking Water Program training strategy.
- Support and maintain source water assessment and protection program (SWAP) which provides
 the public with information about their drinking water and create a way for the community to
 get involved with protecting the quality of their drinking water.
- Provide continued one-on-one water system training and technical assistance.
- Leverage the results of the Safe Drinking Water Program's failure and root cause analysis project report to assess trends in water system compliance and performance. The report provides a valuable baseline for comparing, measuring and evaluating the effectiveness of capacity development program activities in years ahead.
- Utilize system self-reported data and information as well as the list of enforcement actions to
 proactively identify trends that suggest a system might lack technical, managerial or financial
 capacity and prioritize assistance efforts.
- Support and enhance the efforts of the Safe Drinking Water Program to monitor water system
 compliance via water quality laws and regulations to detect non-compliance and respond to
 violations quickly, fairly and consistently to limit the risk of harm to public health and the
 environment.
- Support and enhance the efforts of the Safe Drinking Water Program to conduct sanitary surveys
 of public water systems, review public water system designs for conformance with design
 criteria, prepare and distribute technical assistance materials and track system compliance with
 follow-up requirements.
- Collaborate with division staff to leverage and focus resources on systems with issues that are indicative of a lack of capacity. This may include but is not limited to disinfection, disinfection byproduct and/or radionuclide issues.
- Partner with drinking water technical assistance providers, associations and other non-profit
 organizations to apply resources to assisting systems of concern.
- Support collaboration among all drinking water systems, assist smaller systems in understanding their problems and potential solutions. Use performance based approaches to develop training.

- Support and enhance the efforts of the Safe Drinking Water Program to promote treatment process optimization and provide training and recognition for surface water treatment facilities in Colorado.
- Expand and enhance performance based training based on the EPA area wide optimization program model.
- Expand Safe Drinking Water Program excellence initiatives to source protection, distribution systems and other operations and management areas.
- Expand Safe Drinking Water Program excellence initiatives to ground water systems to enable all systems to strive for excellence.
- Expand Safe Drinking Water Program excellence initiatives to provide opportunities for individual certified operators to pursue excellence.
- Support and provide cross-media cooperation in inspections, enforcement, compliance assistance, and technical assistance coaching where possible; conserve resources where practical.
- Provide technical expertise and assistance to local watershed initiatives, local governments, and community and non-community drinking water systems in obtaining technical and financial assistance to develop, implement and ensure long-term success of source water protection plans.
- Conduct technical, managerial and financial capacity reviews for all new water systems and
 water systems applying for Drinking Water Revolving Fund loans to ensure these systems will
 operate into the future with fewer difficulties, be financially secure and managed with the best
 interests of the water users in mind.
- Enhance communication and collaboration with the Colorado operator certification program to
 ensure that available training services meet operator training needs and professional
 development goals. Identify and overcome barriers associated with cross-program work planning
 and coordination.
- Continue to foster partnerships through Colorado's water/wastewater agency response network and national incident management system initiative to promote security and all-hazards preparedness throughout the state's drinking water community.
- Direct and support local health departments and counties utilizing set-aside funds to conduct field evaluations of non-community groundwater systems.
- Maintain staff support related to the above activities, including grant and contract management when activities are performed by a third-party.

WELLHEAD PROTECTION PROGRAM (WPP) (5%)

Federal Fiscal Year 2018 Requested Amount \$717,200

This is to delineate and assess source water areas for groundwater systems, produce new wellhead protection/source water protection assessment reports as necessary, and support development and implementation of local ground water protection plans.

Use of funds and expected accomplishments

- Completion of new and/or revised ground water source water delineations.
- Enhanced groundwater susceptibility assessments to improve compliance.

- Improved ground water protection plans to minimize source contamination.
- Enhanced wellhead protection/source water assessment and protection data management.
- Enhanced community information and education.
- Improved data compilation and reporting.
- Financial and technical assistance to facilitate groundwater protection plans.
- Coordinate and perform community and non-community groundwater sanitary surveys.
- Compilation and reporting of the national source water protection measures to EPA.

Public Review and Comment

On September 8, 2017, the commission published this Intended Use Plan and held an administrative action hearing on October 10, 2017, at which time the state's 2018 Intended Use Plan, including the 2018 Drinking Water Revolving Fund project eligibility list and project priority/fundable list, was approved. During the annual project eligibility list survey process, the division contacted government agencies and private nonprofit entities to identify potential projects for the 2018 Drinking Water Revolving Fund - Intended Use Plan. Each year, the Intended Use Plan will be amended to include additional Drinking Water Revolving Fund projects and other appropriate changes. The division will continually seek public review and comment for the proposed list of eligible projects and the Intended Use Plan will be brought to the commission for annual approval.

Attachment I: Drinking Water Revolving Fund Priority Scoring Model

Drinking Water Quality and Public Health	Points (245 possible)
Project addresses a documented waterborne disease outbreak associated with the system within the last 24 months.	35
Project corrects or prevent violations of MCLs (primary standards) ¹ .	20
 Nitrate, nitrite, TCR. 	30
 Total trihalomethanes, total haloacetic acids. 	25
Arsenic, selenium.	20
Other regulated contaminants.	15
Project corrects or prevents exceedances of MCLs for radionuclides.	35
Project corrects inadequate treatment techniques that are unable to satisfy the requirements for: • Surface water. • GWUDI. • Groundwater.	20
Project corrects exceedances of secondary drinking water standards.	10
System has inadequate supply* to meet all current domestic water supply demands. *System must provide records of water usage to substantiate supply is inadequate.	25
Project will correct or prevent:	
 Inadequate distribution due to system deterioration (e.g., 	20
experiencing multiple line breakages).	20
 Inadequate distribution due to chronic low pressure. 	15
 Inadequate storage. 	15
Demand exceeding design capacity.	10
	5
Project incorporates fluoridation.	10

Affordability	Points (175 Possible)
Median Household Income (MHI) of service area.	
< <50% of state MHI	35
 Between 51% and 80% of state MHI. 	20
 Between 81% and 100% of state MHI. 	5
>100% of state MHI.	0

Affordability (continued)	Points
User Fees (projected water rate at 110%/tap/MHI):	
• Rates are >1.62%.	35
 Rates are between 1.22% and 1.62%. 	20
 Rates are between 0.89% and 1.22%. 	10
 Rates are between 0.03% and 0.89%. 	5
 Rates are <0.03%. 	0
OR	
User Fees for a combined water & sewer fund (projected combined rates at 110%/tap/MHI)	
Rates are >2.70%	35
 Rates are between 2.04% and 2.70%. 	20
 Rates are between 1.60% and 2.04% 	10
 Rates are between 0.11% and 1.60%. 	5
• Rates are <0.11%	0
Projected water debt per tap compared to MHV	
• Debt is >1.35%.	35
Debt is between 0.43% and 1.35%.	20
Debt is between 0.09% and 0.43%.	10
 Debt is >0.0 and <0.09%. 	5
OR	
Projected water & sewer debt (for combined systems) per tap compared	
to MHV: • Debt is >2.42%.	35
 Debt is >2.42%. Debt s between 1.24% and 2.42%. 	20
 Debt is >0.29% and less than 1.24%. 	5
Population served criteria:	
• <500.).E
 Between 500 and 1,000. 	35 25
 Between 1,000 and 2,000. 	20
 Between 2,000 and 5,000. 	15
 Between 5,000 and 10,000. 	5
• >10,000.	0
	O
Assessed Value/Household	
Assessed Value per household is <\$9,560.	35
 Assessed Value per household is between \$9,561 and \$18,500. 	20
 Assessed Value per household is between \$18,501 and \$35,745. 	10
 Assessed Value per household is greater than \$35,746 	0

CPDWR Compliance	Points (30 possible)
Project addresses an enforcement action by a regulatory agency and the facility is currently in violation of CPDWRs.	30
Project addresses a facility's voluntary efforts to resolve a possible violation and will mitigate the issuance of a consent order, notice of violation or other enforcement action.	20
Project is designed to maintain CPDWR compliance or to meet new requirements.	15
System is currently meeting all CPDWRs.	10
Source Protection and Conservation	Points (25 possible)
Project addresses vulnerability to potential pollution by conditions identified in an approved source water protection area assessment: • Point source discharge within a delineated area. • Area impacted by agricultural chemical use or run-off. • Area subject to oil/gas/mineral operations. • Unprotected watershed area.	15 (for one or more)
Project establishes a protective zone to address potential pollution as a result of wildfires in burn scar areas.	10
Utility rate structure currently in place: Increasing block rates. Seasonal rates. Uniform.	15 10 0
Project will implement water metering, leak detection and/or other water conservation and efficiency infrastructure applications at a minimum of 20% of total project costs.	10

Sustainability*	Points (30 possible)
 Project seeks to: Correct compliance issues, water quality problems, and/or water supply problems through physical consolidation and regionalization of water systems. Correct and/or improve security of the water system. Incorporate beneficial uses of water treatment plant sludge and/or alternative concentrate management options in an approved Beneficial Use Plan². 	10 10 10

Sustainability* Continued	Points
Project promotes sustainable utilities and/or communities through a	
utility management plan that:	
 Secures a replacement fund for the rehabilitation and replacement 	5
of aging and deteriorating infrastructure as needed.	
 Provides sufficient revenues to meet O&M and capital needs. 	5
 Demonstrates that the facility has maintained licensed/certified 	5
operators, adequate staffing to properly operate and maintain the	
facility and will continue to do so.	
 Incorporates a fix-it-first planning methodology. 	5

Readiness to Proceed	Points (20 possible)
Project has secured one or more of the following: • Plans and specification approved.	10
Project has funding secured by multiple assistance providers	10

This accommodates repeat violations and provides indicators for both chronic and acute health hazards.
 The Hazardous Materials and Waste Management Division is the agency responsible for implementing the Regulations Pertaining to the Beneficial Use of Water Treatment Sludge and Fees applicable to the Beneficial Use of Sludges pursuant to 5CCR1003-7.

Attachment II: Application of Additional Subsidization

Additional Su	ubsidization
Additional subsidization points = (Affordability Score + Water Quality & Public Health)	Maximum Percent of Loan Principal as Principal Forgiveness*
≥170 points	80% principal forgiveness
140-170 points	60% principal forgiveness
100-139 points	40% principal forgiveness
<100 points	20% principal forgiveness

^{*}No one project can receive more than 50 percent of total amount of funds that have been set-aside for additional subsidization for that fiscal year. For example, if Colorado has set-aside \$2 million for FY2018 to be provided as additional subsidization, no project can receive more than \$1 million in principal forgiveness. The additional subsidy is on top of planning grants and design/engineering grants.

Attachment III: Estimated Loan Capacity for 2018

ESTIMATED LOAN CAPACIT	Y FOR 2018	
DWRF capitalization grants (to be used for loans)		\$ 251,558,217
DWRF capitalization grant obligated for loans	as of 6/30/2017	\$ 239,610,181
Total capitalization grant funds available to be obligated for new loans	6/30/2017	\$ 11,948,036
Estimated 2018 Capitalization Grant - project funds only		\$ 9,897,360
less: transfer to WPCRF in 2018		-
Total grant funds available to ob	ligate for future loans	\$ 21,845,396
Re-loan funds available for future loans in re-loan account	as of 6/30/2017	\$ 47,812,279
plus: de-allocation of reserves and transfer to re-loan	on 9/1/2017	\$ 13,929,290
plus: de-allocation of reserves and transfer to re-loan	on 9/1/2018	\$ 16,549,182
less: Re-loan funds obligated to loans - approved not executed		-
Total r	e-loan funds available	\$ 78,290,751
Total gr	rant plus re-loan funds	\$ 100,136,146
less: Open pool loans remaining balance	as of 6/30/2017	\$ 20,519,125
less: Open pool loans approved but not executed		\$ 0
	Total funds available	\$ 79,617,022
Leveraged Loans x 1.4		\$ 111,463,830
2018 DWRF Loan	Capacity Estimate	\$ 111,463,830

Attachment IV: Net Funds Available for Transfer

APPENDIX C - LOAN SUMMARY REPORT AS OF JUNE 30, 2017

Explanation of Drinking Water (DW) State Revolving Fund (SRF) Loan Funding and/or Subsidization Sources

- (*) DW SRF Funds = Drinking Water State Revolving Fund Received from EPA capitalization grant awards
- (**) State Match Funds = (Required 20% match for each dollar received from EPA grants from state funds) provided mainly from Authority funds
- (***) Reloan Monies = Recycled DW SRF funds no state match required

Comments / Notes:

- (A) Loan funded with 100% Federal grant funds. 20% State match deposited directly to Drinking Water SRF Reloan Account when loan funded.
- (B) Loan funded entirely with State Match Reloan (this is the state match that was deposited directly to Drinking Water SRF Reloan Account when 100% grant funded loan is executed. -see comment A)
- (C) Loans with split funding from direct deposited state match and other sources on deposit in DW SRF Reloan Account
- (D) Loan was 100% federal grant funded at closing but balance of undrawn funds was converted to proportionality beginning March, 2014.
- (E) Open-source funded loan Payments of project draws may be paid from grant and state match and/or reloan. Total sources of funding will not be know until project is completed. Until then, amounts shown reflect total amount of grant/state match / reloan (excludes bond proceeds) drawn on the project and may not equal total loan amount.

For some grant/state match-obligated funded loans, total funding sources (DW SRF funds and State Match obligated) may change from one report to the next as the proportionality rate changes. Final total SRF funds and State Match fund obligated to the loan will not be known until all draws are completed.

Type of Loan:

- ARDC = American Recovery & Reinvestment Act (ARRA) Disadvantaged Community Direct Loan Funded from ARRA funds; state match not required. Loans qualified for DC loan terms.
- ARDL = American Recovery & Reinvestment Act (ARRA) Direct Loan Funded from ARRA funds; state match not required. All ARRA loans received zero-percent interest terms
- DC = Disadvantaged Community Loans Funded from available sources; (1) State funds, (2) Federal Grant Funds and/or (3) Drinking Water SRF Reloan funds. Loans gualified for DC loan terms.
- DL = Direct Loan Funded from available sources: (1) State funds, (2) Federal Grant Funds and/or (3) Drinking Water SRF Reloan funds.
- LL = Leveraged Loan Funded from bond proceeds and available sources: (1) Federal Grant fund, (2) State funds, and/or (3) Drinking Water SRF Reloan funds.

Additional Information about Loan:

- de = Design and Engineering Loan
- FPF = Borrower received 100% principal forgiveness.
- gr = Borrower project qualified as having "green" component, as defined by the EPA; loan financed at a reduced or zero interest rate.
- PPF = Borrower received partial principal forgiveness.

Borrower Abbreviations Clarification:

DWS = Domestic Water System sd = Sub-district WD = Water District

HA = Housing Authority W&SD = Water and Sanitation District WSS&SD = Water, Sanitation, Sewer & Storm Drainage District

MD = Metropolitan District WA = Water Authority WW = Water Works

PID = Public Improvement District WC = Water Commission

^{*} Cash Basis

- (b) Beginning in 2008, certain DWRF grant administrative costs incurred by the Authority are being paid from funds transferred from the WPCRF administrative fee account.
- (c) Other Program Grants include payments made to recipients of: (1) Planning & Design grants, (2) Flood Assistance grants (2014-2015).
- (d) Other Uses: September, 2011 March, 2015, administrative fee account funds were used to pay bond debt service for a bond issue affected by a shortage in investment interest income resulting from the early termination of the associated repurchase agreement. In September, 2015, DWRF administrative fee funds were used to call the remaining bonds, and as a result, no further administrative fee funds will be needed for this purpose (resulting in a savings of approximately \$0.1 million.)

⁽a) Other sources include: Transfers from State Funded Direct Loan Program's Administrative Fee Account and from the Drinking Water Funding Account to cover administrative costs incurred at the beginning of the SRF program and advanced admin fee received at the closing of the issuance of the 2004AR refunding bonds to cover the cost of current and future administration of refunding bond issues. Beginning in 2014, this line item also includes investment income from certain preconstruction accounts.
