I. EXPLANATION OF AMENDMENT #1

The State Fiscal Year (SFY) [2021 Annual Intended Use Plan](#) (IUP) included conditions under which the Department of Public Health (DPH) may amend the annual IUP to include additional projects received after the development of the annual IUP. The amendment process is intended to allow public water systems to submit projects unanticipated at the time of the Call for Projects, for eligibility review at any time. The amendment process also allows for the incorporation of these projects into the current annual IUP in a timely manner in order to maintain funding eligibility, as they may proceed prior to development of the next annual IUP. Section IV.C of the SFY 2021 IUP stated that: “Eligibility Applications received after the initial drafting of the IUP will be accepted and reviewed for eligibility. Following publication of the finalized annual IUP, the Comprehensive Project List may be amended periodically to include new projects for which Eligibility Applications were received after the deadline. Any amendments to the Comprehensive Project List will be posted on the DPH DWS website for a 30-day comment period before being finalized and incorporated as an amendment into the annual IUP.”

This amendment to the SFY 2021 annual IUP adds the following projects to the Comprehensive Project List, based on Eligibility Applications that were received after the annual IUP was published for public comment.

Project #	PWSID	Public Water System	Town of PWS	Project Name
SFY 21-45	CT0429031	Town of East Hampton Village Center	East Hampton	Municipal Water System
SFY 21-46	CT0930011	Regional Water Authority	New Haven	West River WTP Improvements Projects
SFY 21-47	CT0070021	Berlin Water Control Commission	Berlin	Transmission Main Replacement-Berlin Turnpike

This amendment also withdraws the following project, as it was replaced by the new Regional Water Authority project noted above. No other changes have been made to the IUP.

Project #	PWSID	Public Water System	Town of PWS	Project Name
SFY 20-30	CT0930011	Regional Water Authority	New Haven	West River WTP Dissolved Air Flotation

As explained below, these projects will be maintained on the comprehensive list. As stated in Section IV.C. of the SFY 2021 annual IUP, if a project on the comprehensive list subsequently becomes ready to proceed, it will be considered for funding according to the bypass procedure explained in Section IV.J. or if sufficient funding is available.

This amendment was posted on the DPH website for at least 30 days for public review and comment period. No comments were received and this amendment is considered final.

II. ATTACHMENTS

- A. Amended SFY 2021 Comprehensive Project List – Alphabetical Order (Attachment C to the annual SFY 2021 IUP)
- B. Amended SFY 2021 Comprehensive Project List –By Points (Attachment D to the annual SFY 2021 IUP)
