## INTRODUCTION

June 2019

This Final State Fiscal Year 2020 Kansas Water Pollution Control Revolving Fund (KWPCRF) Project Priority List is based upon the Final Fiscal Year 2020 Kansas Water Pollution Control Project Priority System dated June 5, 2019. The Priority List is prepared consistent with the April 29, 1988, guidance from EPA and the October 1996 Clean Water State Revolving Fund Funding Framework prepared by EPA. The American Recovery and Reinvestment Act of 2009 (ARRA) provided substantial additional funds to the KWPCRF, with substantial additional conditions and requirements, which prompted development of a unique priority system for those funds to encourage "green design" for projects. The ARRA funding was a one-time-only funding program, and the additional requirements do not carry over to the ongoing program. However, the FFY 2010 Federal Appropriations Act also included several new requirements for the KWPCRF, which have been extended thru to the FFY 2019 funding. EPA has not yet provided guidance for the FFY 2019 funding which extends to the FFY 2020 funding.

The Water Quality Act of 1987 (WQA of 1987) became law on February 4, 1987. These amendments call for several minor changes and the phase-out of the construction grants program; however, the main thrust of the amendments was establishment of Title VI - State Water Pollution Control Revolving Funds (SRF's). K.S.A. 65-3321 through 65-3329 authorizes establishment of the Kansas Water Pollution Control Revolving Fund (KWPCRF), for which KDHE has accepted Title VI capitalization grants, and allows KDHE to administer this new low interest loan fund for construction of water pollution control projects.

The WQA of 1987 requires that for a specific project to be eligible to receive a loan of Clean Water Act SRF (KWPCRF) monies, the project must be identified on the Priority List. Projects are "targeted" or "chosen" for KWPCRF loans by being placed in the Intended Use Plan (IUP).

Kansas has now applied for the FFY '19 capitalization grant for the Kansas Clean Water SRF. Reauthorization of the Clean Water Act was passed by Congress in the Water Resources Reform and Development Act (WRRDA), and this Final SFY 2020 Priority List and the Final SFY 2020 Intended Use Plan are based on the actual FFY 2020 Capitalization Grant allotment of \$14,342,000, and the required 20% state match funding has been previously provided. KDHE, in conjunction with the Kansas Development Finance Authority (KDFA), conducts ongoing financial analysis of the capacity to "leverage" additional monies for the KWPCRF Program, i.e. borrowing more than the basic required 20% State Match to the EPA Capitalization Grant. In the future if needed.

A project must be included in the IUP to actually receive a KWPCRF loan. KDHE will continue to utilize the Priority Ranking System and Priority List to aid in identifying the projects with the greatest need and readiness to proceed with a project. Therefore, projects will be considered in order of priority from the list for inclusion on the IUP, and subsequent receipt of a low interest KWPCRF loan.

The priority system is designed to give the highest weight to projects affecting stream quality, particularly streams identified for drinking water supplies, swimming and wading, and recognized fisheries. The impact of this approach is evident as the highest ranked projects are treatment plant upgrades to comply with Surface Water Quality Standards, streams impaired by pollutants as listed on the Kansas 303d List, and TMDL waste load allocations. New information is utilized in developing accurate, up to date rankings. Available information is utilized in ranking projects and adding additional potential projects to the List.

The priority system ranking criteria for "Discharge to High Quality Watersheds" was to provide priority points for projects which result from Total Maximum Daily Load (TMDL) studies. As these studies are completed and waste load allocations are finalized any project for pollution abatement identified as necessary to satisfy a TMDL to restore or protect stream segment water quality conditions will be provided additional priority points. The EPA Funding Framework is the reference to allow and prioritize Non-point Source Pollution Control projects.

Projects correcting basement flooding, overflows and bypasses also receive a higher rank. Infiltration/inflow correction and/or sewage overflow correction projects are loan eligible. Innovative or alternative projects, lagoons and regional systems are awarded a higher rank to encourage their use. This is in conformance with the State Water Quality Management Plan. Enforcement actions are not considered in developing priority rankings. A public health hazard declaration is an overriding factor in assigning priority points.

The WQA of 1987 required EPA develop sludge management program regulations and these regulations of criteria are now complete. Treatment facilities have been added to the list which, based on presently available information, may require upgrading to comply with technical criteria regulations for disposal of municipal sanitary sewage sludge published in 40 CFR Part 503 dated February 19, 1993.

Collection system projects are ranked based on information available within the Bureau's files and known to Bureau staff.

The priority system and priority list were revised in FFY 1996 to allow funding for Non-Point Source Pollution Control Management Plan Implementation projects. The Master Financing Indenture has been developed which allows funding to Non-Point Source pollution control projects, and funding to "non-traditional" applicants in the daily course of business. KDHE has now developing legislation to allow the linked-deposit" method of investing to provide financing to resolve non-point sources of pollution.

Clean Water SRF projects can receive a loan for 100% of project costs, but project costs are, of course, limited to administration, engineering, and construction costs of the water pollution control project. The Kansas Water Pollution Control Revolving Fund presently does not allow the cost of land or easements within a Clean Water SRF project.

To receive additional priority points for selection of an I/A alternative or a Green Project Reserve alternative, a majority of the project must be involved with the I/A or GPR concept. For example, a project will not receive extra points only because a sludge hauling vehicle or anaerobic digesters are utilized.

EPA has issued a Draft CSO Control Strategy and is issuing enforcement actions requiring improvement to combined sewer systems, and so KDHE prioritizes CSO Correction and Control projects.

For Clean Water SRF low interest loan projects, all costs of project development (planning, design, financial capability, etc.) are allowable costs of the loan. The estimated loan amounts are reflected in the "Tot. \$" column, as loans would be for the total project cost.

The Clean Water SRF Program includes two State Management set-asides to be established. The 604(b) - State Management/Non-Point Source set-aside is 1% of the State of Kansas allotment of Title VI funds, or a minimum of \$100,000. The STATUS OF FUNDS sheet shows this FFY 2019 EPA federal funding 604(b) reserve.

The 603(d)(7) - SRF Management is the second set-aside and is 4% of the actual capitalization grant received by KDHE for the Clean Water SRF. KDHE is tracking use of Administrative monies, and established a fee to generate future administrative monies to use after the 603(d)(7) grant monies are depleted. Please note the funds from this set-aside can be used for Clean Water SRF management only, and if less than the total set-aside amount is actually used, the balance remains in the fund. EPA has now finalized a new Policy regarding these Service Fees, and Appendix H of the Intended Use Plan presents information on this subject. The WRRDA legislation has now also offered alternative methods of establishing administrative finding set-aside amounts.

K.S.A. 65-3324 requires a set-aside for Small Communities (5,000 or Less population) also be established which ensures at least 10% of the total dollar amount of loans each year be made available for projects of municipalities having a population of 5,000 or less. If these set-aside monies are not utilized by small communities, the unused amount is then available for projects of other municipalities. All communities with 5,000 or less population are identified on the list with one \* next to the project name. We encourage communities of 5,000 or less to develop projects and utilize this funding source.

**APPENDIX A**  
**PRIORITY LIST KEY**

APP NAME.....Applicant name, City, Sewer District, etc.

PD.....Project Description

01 Treatment Plant *	11 Treatment Plant, Extraneous Flow Facilities and/or Bypass Containment	19 Standby Power
02 Pump Station **		20 Pump Station Monitoring System
03 Interceptor		21 Water Quality Limited Stream Protection
04 Collectors		22 Laboratory/Administrative/Maintenance Facilities
05 Treatment Plant & Collectors		23 Major Sewer Rehabilitation
06 Treatment Plant, Collectors, Interceptors		24 Combined Sewer Overflow Correction/Control
07 Treatment Plant & Interceptor		25 Treatment Plant and Sludge Processing Facilities
08 Treatment Plant & Pump Station		26 Water Quality Protection - Storm Sewers and Non-Point Source Projects
09 Treatment Plant, Pump Station Interceptor		
10 Treatment Plant, Pump Station, Interceptor, Collectors		
	17 I/I Correction	
	18 Sludge Processing Facilities	

\* Includes modification to existing treatment plant.

\*\* Includes force main and/or may include modification to existing pump station.

PROJECT #.....Assigned Project Identification Number

PRATE.....Project Rating Number, based on State Priority Ranking System. Determines project position on list.

NPDES.....NPDES Permit Number for the Plant Receiving the Wastewater in Question.

CO.....County Code Number

001 Allen	029 Cloud	057 Ford	085 Jackson	113 McPherson	141 Osborne	169 Saline	197 Wabaunsee

SD..... KANSAS DEPARTMENT OF HEALTH & ENVIRONMENT DISTRICT OFFICE

1 - Southwest.....	Dodge City	4 - Northeast.....	Lawrence
2 - South Central.....	Wichita	5 - North Central.....	Salina
3 - Southeast.....	Chanute	6 - Northwest.....	Hays

CD..... CONGRESSIONAL DISTRICT NUMBER

01 - 1ST DISTRICT	03 - 3RD DISTRICT
02 - 2ND DISTRICT	04 - 4TH DISTRICT

RB..... MAJOR RIVER BASIN DESIGNATION

KS - KANSAS	MC - MARAIS DES CYGNES	LR - LOWER REPUBLICAN	LA - LITTLE ARKANSAS
MO - MISSOURI	VE - VERDIGRIS	SO - SOLOMON	AR - LOWER ARKANSAS
BB - BIG BLUE	NE - NEOSHO	SA - SALINE	UA - UPPER ARKANSAS
SH - SMOKY HILL	WA - WALNUT	UR - UPPER REPUBLICAN	CI - CIMARRON

ER..... ENFORCEABLE REQUIREMENT TO BE SATISFIED BY PROJECT.

- A - Project will result in compliance with issued permit.
- B - Permit not issued but project would satisfy permit conditions.
- C - Permit not applicable but project necessary to meet BP WTT.
- D - Project does not meet enforceable requirements of the act.

The second position of ER is used to further describe the project. The two following alphabetic characters are included for this purpose.

Y - The project in its entirety satisfies the enforceable requirements of the Act for the condition stated in the preceding character position.

P - Portions of the project do not satisfy the enforceable requirements of the condition stated in the preceding character position.

NEEDS #..... Needs Survey Identification Number

TOTAL COST..... Total Project Cost, which also represents the KWPCRF estimated loan amount.

I -	Secondary Treatment (Including Sludge Handling Improvements)	IV B -	New Interceptor Sewers
II -	Higher than Secondary Treatment	V -	Combined Sewer Overflow Correction/Control
III A -	Correction of Infiltration/Inflow	VI -	Stormwater Management
III B -	Sewer Rehabilitation	VI A -	Conveyance Infrastructure
IV A -	New Collector Sewers	VI B -	Treatment Systems

STATUS OF FUNDS

June 5, 2019

I. Funds Available:

State Revolving Fund

Prior Cap Grant Funds Remaining for New Loans	\$	0
2019 SRF Capitalization Grant (Est.) with Adm. - 603(d)(7)	\$	14,342,000
2019 State Match (Act.)	\$	3,500,000

2019 Required Principal Forgiveness Amount (Est.)

Minimum Appr. - (10%)	\$	1,434,200
WRRDA Add'l - 30%	\$	4,302,600

II. Reserves:

State Revolving Fund

2019 State Management [603(d)(7)]	573,680
2019 State Water Quality Management [604(b)]	
	143,420

III. Funds in Process -

Future 2018 Lev. Bonds	\$ as needed
2019 State Match Bonds (Act.)	\$ 3,500,000

IV. Non-Point Source Pollution Control - 10% of the total 2019 Cap. Grant, or \$1,750,000, is set aside to fund new NPS projects.

NOTE: Of the estimated FFY 2019 Cap. Grant and State Match, \$1,434,200 will be made available to small communities, i.e., population of 5,000 or less.
