Disadvantaged Community (DAC)

A Disadvantaged Community PWS is defined as any PWS that serves a community and can demonstrate that its year-round residential water consumers have a median household income of \$58,924 per year or less or when the ratio of average annual water bill to median household income is 0.8 or greater. DWSRF Disadvantaged Community PWS Assistance will only be allowed where the disadvantaged water consumers will directly benefit from the assistance.
