

2020 Annual Report

January 13, 2021

To the Governor and Legislature:

On behalf of the board and staff of the Minnesota Public Facilities Authority, I am pleased to provide you with our fiscal year (FY) 2020 Annual Report as required by Minnesota Statues, Section 446A.09.

The Public Facilities Authority (PFA) is a multi-agency authority that provides financing and technical assistance to local governments for infrastructure projects that support a thriving state economy and a clean, healthy environment. The PFA board consists of the Commissioners of the Pollution Control Agency and the Departments of Health, Agriculture, Transportation, Management and Budget, and Employment and Economic Development, with the DEED Commissioner serving as PFA Chair.

In FY 2020 the PFA funded 54 water infrastructure projects totaling \$236 million for local governments throughout Minnesota. Low interest loans totaled \$167 million, with below-market interest rates that will save communities and their residents an estimated \$30.1 million in interest costs. The PFA awarded an additional \$68 million in grants.

Since inception in 1987, the PFA has made 1,127 loans totaling over \$4.4 billion, primarily for water infrastructure improvements. During that time the PFA has also awarded 726 grants for \$790 million to provide additional assistance to help local governments address affordability needs and specific water quality protection and restoration goals.

The PFA's independently audited Financial Report for FY 2020 is included with this Annual Report. The PFA remains in excellent financial health. PFA revenue bonds under all three major revolving loan funds have AAA ratings.

We look forward to continuing the PFA's mission of providing affordable financing to help meet the State's infrastructure needs. If there are any questions about the PFA or this report please contact me.

Sincerely,

Jeff Freeman, Executive Director Minnesota Public Facilities Authority

Minnesota Public Facilities Authority

2020 Annual Report to the Governor and Legislature

Note (as required by Minnesota Statutes, section 3.197): Preparation of this report required an estimated 21 hours of staff time for an approximate cost of \$1,483.

Introduction

The Minnesota Public Facilities Authority (PFA) is a multi-agency authority that provides financing and technical assistance to local governments for infrastructure projects that support a thriving state economy and a clean, healthy environment. The PFA board consists of the Commissioners of the Pollution Control Agency (MPCA) and the Departments of Health (MDH), Transportation (MnDOT), Agriculture (MDA), Minnesota Management and Budget (MMB), and Employment and Economic Development (DEED). The DEED Commissioner serves as the PFA Chair.

PFA priorities are to:

- Manage revolving loan fund assets (currently \$2.17 billion) to ensure a stable source of infrastructure financing in perpetuity.
- Provide infrastructure financing programs to support water quality, public health, and other priorities identified by PFA member agencies.
- Help local governments maintain and improve their water infrastructure systems while keeping costs affordable for their residents.

The PFA manages three revolving loan funds that have received federal capitalization grants and state match appropriations, and for which the PFA has authority to issue up to \$2 billion in revenue bonds to raise additional capital to make loans. In addition, PFA manages several other grant and loan programs, funded primarily by state appropriations. All major programs of the PFA are administered in conjunction with member agencies. The MPCA, MDH, and MnDOT are responsible for establishing project priorities, technical review and regulatory compliance for projects on their respective priority lists that are being considered for financing by the PFA.

The PFA Executive Director is responsible for carrying out the PFA's responsibilities, including compliance with state and federal regulations related to program administration and debt issuance. PFA staff advise communities on financing requirements and options, review the creditworthiness of applicants, determine that full project financing is in place and that necessary dedicated revenues are established, disburse loan and grant funds as eligible costs are incurred, and collect loan repayments.

The PFA receives no general fund appropriations. Funding for the PFA's revolving loan funds comes from federal capitalization grants, state match funds appropriated from state bond proceeds, revolving fund revenues, and proceeds of PFA's AAA-rated revenue bonds (backed solely by the assets and revenues of the revolving loan funds). Funding for PFA grant programs comes from appropriations of state bond proceeds and Clean Water Legacy Funds. Administrative costs for the PFA (11.5 FTEs), MPCA (12.0 FTE's), and MDH (4.65 FTEs) are paid from service fees.

FY 2020 Program Activity

As described below, in fiscal year (FY) 2020 (July 1, 2019 to June 30, 2020) the PFA funded 54 infrastructure projects totaling \$236 million for local governments throughout the state. To finance these projects the PFA awarded 41 low interest loans totaling \$167 million and 35 grants totaling \$68 million. A summary of FY 2020 project awards by program is shown on page 7. Exhibit A on pages 12-16 provides a detailed list of project awards.

Clean Water Revolving Fund

The Clean Water Revolving Fund (CWRF, MS 446A.07) is supported by annual federal capitalization grants and state matching funds, combined with loan repayments and PFA revenue bond proceeds to provide a permanent source of low cost capital to help local governments finance wastewater and storm water infrastructure projects. The CWRF primarily provides low interest loans, but is also authorized under federal and state law to provide a small portion of federal funds in the form of principal forgiveness grants based on state affordability criteria and for energy conservation and other green infrastructure projects.

FY 2020 CWRF funding activity is shown below.

| | Number | Amount | Avg Rate | Int. Savings |
|-----------------------------------|--------|---------------|----------|--------------|
| CWRF loans | 22 | \$139,873,490 | 1.21% | \$8,866,900 |
| CWRF principal forgiveness grants | 3 | \$4,666,693 | | |

In addition to financing for point source (municipal wastewater and stormwater) projects, the PFA has allocated \$90.6 million in CWRF funds to capitalize nonpoint source revolving loan programs: the Agriculture Best Management Practices (AgBMP) loan program administered by the Minnesota Department of Agriculture (MDA) and the Clean Water Partnership (CWP) loan program Minnesota Pollution Control Agency (MPCA). In FY 2020, these programs used CWRF funds to make 75 zero-interest loans totaling \$21.8 million to finance a total of 943 individual projects by private landowners and local governments to reduce nonpoint source pollution. (AgBMP: 61 loans for \$12.6 million to construct 306 practices; CWP: 14 loans for \$9.2 million to construct 637 practices).

Since the beginning of the program in 1990 the PFA has made 591 CWRF loans for wastewater and stormwater projects totaling \$3.2 billion and has made 53 principal forgiveness grants totaling \$78.9 million based on affordability, energy conservation and other criteria. Nonpoint source loan programs began in 1996, using in \$90.6 million in CWRF funds to capitalize nonpoint source loan programs that have made a total of 1,848 loans totaling \$312 million to finance 20,797 individual projects.

Drinking Water Revolving Fund

The DWRF (MS 446A.081) is supported by annual federal capitalization grants and state matching funds, combined with loan repayments and PFA revenue bond proceeds to provide a

permanent source of low cost capital to help local governments finance drinking water infrastructure projects. The DWRF primarily provides low interest loans, but is also authorized under federal and state law to provide a small portion of federal funds in the form of principal forgiveness grants based on state affordability criteria.

FY 2020 DWRF funding activity is shown below.

| | Number | Amount | Avg Rate | Int. Savings |
|-----------------------------------|--------|--------------|----------|--------------|
| DWRF loans | 19 | \$27,460,532 | 1.04% | \$2,148,700 |
| DWRF principal forgiveness grants | 4 | \$3,561,961 | | |

In addition to project financing, federal law also allows states to use a portion of federal capitalization grants for drinking water set-aside activities. In FY 2020 the PFA provided \$2,609,280 in DWRF funds to the MDH for wellhead protection, technical assistance to small systems, and other drinking water protection activities.

Since the beginning of the program in 1999 the PFA has made 467 DWRF loans totaling \$963 million and 116 principal forgiveness grants totaling \$77.1 million based on affordability and other criteria.

Water Infrastructure Funding Program

The WIF program (MS 446A.072) provides supplemental grants based on affordability criteria to assist municipalities with projects needed to address high priority environmental and public health needs. WIF funds are appropriated from state bond proceeds. The WIF program provides grants up to \$5 million to municipalities to supplement low-interest loans from the PFA's Clean Water and Drinking Water Revolving Funds or to match grant and loan funding from the U.S. Department of Agriculture (USDA) Rural Development. Based on a community's system costs per household and median household income, WIF grants are awarded for up to 80% of project costs or up to 65% of the grant need determined by USDA Rural Development.

FY 2020 WIF funding activity is shown below.

| | <u>Number</u> | Amount |
|-------------------------------|---------------|-------------|
| WIF – wastewater projects | | |
| WIF grants with PFA loans | 5 | \$7,334,994 |
| WIF grants to match USDA-RD | 3 | \$3,332,920 |
| WIF – drinking water projects | | |
| WIF grants with PFA loans | 2 | \$1,993,358 |
| WIF grants to match USDA-RD | 3 | \$3,778,000 |

Point Source Implementation Grant Program

The PSIG program (MS 446A.073) provides grants up to \$7 million for 80% of eligible costs to help municipalities construct wastewater treatment and storm water projects when the MPCA determines that higher levels of treatment are necessary to improve water quality by reducing discharge of certain pollutants. PSIG funds are appropriated from the Clean Water Legacy Fund and state bond proceeds. Eligible PSIG projects include those project costs necessary to meet Total Maximum Daily Load (TMDL) wasteload requirements and water quality based effluent limit requirements, including phosphorus, chlorides, mercury, and other pollutants.

FY 2020 PSIG grant funding activity is shown below.

| | <u>Number</u> | Amount |
|-------------------|---------------|--------------|
| PSIG grant awards | 9 | \$34,109,983 |

Small Community Wastewater Treatment Program

The Small Community Wastewater Treatment Program (MS 446A.075) provides loans and grants to help very small unsewered communities address environmental and public health problems from non-complying septic systems. Small Community program funds are appropriated from the Clean Water Legacy Fund. The program provides technical assistance grants to help communities evaluate wastewater treatment alternatives, and construction financing through low interest loans and grants to replace individual systems with community subsurface treatment systems. Loan repayments revolve back to help support new projects.

FY 2020 Small Community program funding activity is shown below.

| | <u>Number</u> | Amount |
|-----------------------------|---------------|----------|
| Technical Assistance grants | 1 | \$60,000 |
| Construction Projects | | |
| Small Community loans | - | - |
| Small Community grants | - | - |

<u>Transportation Revolving Loan Fund</u>

The TRLF (MS 446A.085) is a revolving fund established in 1997 that combines a one-time infusion of federal funds, prior state appropriations, and PFA revenue bond proceeds to create an alternative source of financing for certain transportation projects selected by the Department of Transportation. Net loan repayments revolve back to the fund for new loans.

In FY 2020 the PFA did not award any Transportation Revolving Loan Fund (TRLF) loans. Since 1999 PFA has made 34 loans totaling \$175 million for state and local government transportation projects.

Credit Enhancement Program

In addition to its direct financing programs, the PFA administers the Credit Enhancement Program (MS 446A.086) in conjunction with MMB to reduce borrowing costs for local governments that issue their general obligation bonds for eligible construction projects in the private market. The program provides a limited state guarantee of the local government's bond payments, thereby helping issuers achieve higher bond ratings and lower interest costs. Eligible projects include county law enforcement facilities, social and human services buildings, and solid waste facilities, and city wastewater, drinking water, and stormwater facilities. The total amount of debt outstanding cannot exceed \$1 billion.

In FY 2020, the PFA approved 25 local bond issues for inclusion in the Credit Enhancement Program for \$70.2 million. Since the beginning of the program in 2008, the PFA has enrolled 383 local government bonds in the program totaling over \$1.27 billion, with \$763 million currently outstanding.

Summary of FY 2020 Contract Awards

The table below summarizes FY 2020 PFA contract awards by program.

MN Public Facilities Authority Contract Awards by Program during FY 2020

| | | | | | | Estimated Interest |
|------------------------------------|-------|------------|-------------|-------------|-----------|--------------------|
| | Count | \$ Awarded | \$ Awarded | Total | Average | Savings from PFA |
| Program | * | as Grant | as Loan | Funding | Loan Rate | Loans ** |
| Clean Water Revolving Fund *** | 26 | 4,666,693 | 139,873,490 | 144,540,182 | 1.210% | 8,866,900 |
| Drinking Water Revolving Fund *** | 23 | 3,561,961 | 27,460,532 | 31,022,493 | 1.038% | 2,148,700 |
| Transportation Revolving Loan Fund | - | | - | - | | - |
| Water Infrastructure Fund | 13 | 16,439,272 | | 16,439,272 | | |
| Point Source Implementation Grants | 9 | 34,109,983 | | 34,109,983 | | |
| Small Community WWT Program | | | | | | |
| Construction | - | | | - | | - |
| Technical Assistance | 1 | 60,000 | | 60,000 | | |
| Special Appropriations | 6 | 9,402,181 | | 9,402,181 | | |
| | 78 | 68,240,090 | 167,334,022 | 235,574,111 | | 11,015,600 |

^{*} Each loan and grant award is counted separately. A project may receive more than one award (72 projects).

^{**} Reflects estimated interest savings to be realized by PFA borrowers compared to market-rate financing.

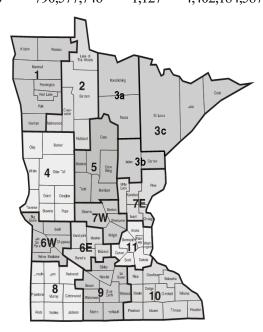

^{***} Federal appropriations for the Clean Water and Drinking Water Revolving Funds require a portion of the federal funds to be provided as principal forgiveness grants based on affordability and other criteria.

Loan and Grant History

The table below shows total loan and grant awards by the PFA from inception in FY 1990 through FY 2020.

MN Public Facilities Authority Project Awards from Inception in 1990 thru June 30, 2020, by RDC Region

| | Grants Ma | de by Region | Loans Ma | ade by Region | |
|--------|-----------|--------------|----------|---------------|-------------|

| Totals | 726 | 790,577,746 | 1,127 | 4,402,184,587 | 951,613,100 |

Bonding Activity

The PFA sells revenue bonds to leverage state and federal monies in its revolving loan funds. The bonds are not backed by the State; they are secured and repaid entirely from revolving fund assets and revenues. PFA revenue bonds issued for its clean water and drinking water revolving funds (State Revolving Fund bonds) are rated AAA by all three rating agencies. The PFA has statutory authority to issue up to \$2 billion in outstanding bonds. As of June 30, 2020 the PFA has \$592 million in outstanding bonds. Bonds are sold on a cash flow basis to cover project disbursements. The PFA did not issue new revenue bonds in FY 2020.

The tax-exempt bonds issued by the PFA are subject to Internal Revenue Service regulations governing use of funds and handling of bond proceeds. These include limits on the amount of investment income that may be earned and requirements for excess earnings to be rebated at certain points in time to the IRS. This arbitrage rebate liability is calculated annually and reported in the PFA's audited annual Financial Reports. During FY 2020, \$22,130 was paid to the IRS as rebate. The PFA's estimated arbitrage rebate liability as of June 30, 2020 is \$2,731 which is payable during FY 2021.

Water Infrastructure Needs and Funding Process

Minnesota has significant long-term municipal water infrastructure needs that will require ongoing support. Based on recent needs surveys conducted by MPCA, MDH and the U.S. Environmental Protection Agency, estimated wastewater infrastructure needs for Minnesota cities over the next 20 years are \$4.3 billion and estimated drinking water infrastructure needs exceed \$7 billion over the same period.

Water infrastructure needs include replacing aging treatment plants and underground pipes, upgrading treatment plants to meet new requirements, and expanding systems in some areas to accommodate growth. Every city in the state has current water infrastructure needs or will face these needs in the future.

The PFA and its member agencies have developed a coordinated funding framework and application process to manage state and federal water infrastructure funding. Projects are ranked by the PCA and MDH according to public health and water quality criteria. The process makes low interest loans available to cities of all sizes throughout the state for high priority projects. Grants are targeted to projects based on objective affordability criteria and water quality impacts. The goal is to make the funding process more consistent and predictable for cities as they plan for their future capital improvement needs.

As municipalities identify specific construction projects for which they plan to seek state funding assistance within five years, they submit requests to the MPCA and MDH to have their projects ranked on the state's project priority lists. The MPCA 2021 project priority list for clean water (wastewater and storm water) infrastructure identifies 231 projects totaling \$1.5

Minnesota Public Facilities Authority 2020 Annual Report

billion for construction over the next five years. The MDH 2021 project priority list for drinking water infrastructure lists 453 projects totaling \$959 million over the same time frame.

When municipalities on the project priority lists schedule their projects for construction in the coming year, they request placement on the PFA's annual CWRF and DWRF Intended Use Plans (IUPs). The IUPs identify projects that are eligible to apply for CWRF and DWRF loans. For 2021 the PFA received a total of 111 project requests totaling \$558 million for the CWRF IUP, compared to the CWRF average annual lending capacity of \$110 million per year. A total of 155 project requests totaling \$381 million were received for the DWRF IUP, compared to the DWRF average annual lending capacity of \$44 million per year.

The large number of annual IUP loan requests demonstrate that cities want to implement these important projects. While the PFA does not have capacity to fund all requests, it regularly uses reserves and bonding authority to approve larger IUPs in order to give as many projects as possible the opportunity to use low interest PFA loans to proceed with construction. However many cities, especially smaller communities, are still not able to proceed without grants to offset some of the debt. PFA uses its grant programs and works closely with funding partners, especially USDA Rural Development, to address water infrastructure needs throughout the State.

Maintaining and improving Minnesota's water infrastructure is critical to protecting public health and the environment and to the economic vitality of our communities. Recent years have seen legislative changes to PFA grant programs and increased appropriations from state general obligation bonds that have significantly increased the number of projects funded and the level of assistance for many projects. Continued strong and stable funding support will allow more cities to proceed with construction, and encourage others to make the necessary investments to take on these essential, and in many cases, long-delayed projects.

City of Otsego Construction of the Biosolids Processing Building

During the state fiscal year ended June 30, 2020, the Minnesota Public Facilities Authority executed fifty six grant and loan contracts for approximately \$236 million. One of the projects funded is pictured on the cover page:

The City of Otsego, in Wright County, received \$17,273,277 to rehabilitate the existing wastewater treatment plant and to construct a building to expand biosolids processing. Minnesota Public Facilities Authority financing included a \$17.2 million low-interest loan and a \$73 thousand principal forgiveness grant from the Clean Water State Revolving Fund.

Independent Auditor's Report

Minnesota Public Facilities Authority

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and each major fund of Minnesota Public Facilities Authority (the Authority), a component unit of the State of Minnesota, as of and for the years ended June 30, 2020 and 2019, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and each major fund of the Authority as of June 30, 2020 and 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

THE POWER OF BEING UNDERSTOOD AUDIT | TAX | CONSULTING

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the schedule of selected pension information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Minnesota Public Facilities Authority

Management's Discussion and Analysis of Financial Condition and Results of Operations (unaudited)

This section of the Minnesota Public Facilities Authority's (the Authority) annual financial report presents a discussion and analysis of the financial condition as of and financial activities for the fiscal years ended June 30, 2020 and 2019. Please read it in conjunction with the financial statements and notes following this section.

Introduction and Discussion of the Authority's Operations:

The Authority was created in 1987 by the State of Minnesota under Minnesota Statutes, Chapter 446A. The Authority provides grants and low interest loans to Minnesota municipalities to finance infrastructure for clean water, drinking water, and transportation projects. Federal grants and state appropriations received by the Authority may be used directly or leveraged with proceeds of the Authority's revenue bonds.

The Authority has issued tax-exempt revenue bonds the proceeds of which are deposited into multiple bond funds. Except for certain cross-collateralization provisions between the Clean Water and Drinking Water Bond Funds, revenues and assets of each bond fund are separately pledged to the holders of that fund's bonds for debt service payments. Assets and revenues of the Authority outside of the bond funds are not pledged, and are used for grant and loan programs and general administration.

Financial Statement Presentation:

The basic financial statements following Management's Discussion and Analysis consist of those required for a special purpose governmental entity engaged in business-type activities:

- Statement of Net Position This is presented in the format of assets (financial and capital resources) plus deferred outflows of resources, less liabilities, less deferred inflows of resources equals net position. The portion of net position that is reported as restricted has constraints on its use due to bond resolutions and or enabling legislation.
- Statement of Revenues, Expenses, and Changes in Fund Net Position This statement presents the accrual basis operations and the resulting change in fund net position of the Authority for the fiscal year.
- Statement of Cash Flows This statement presents useful information regarding the sufficiency of cash flows to meet debt service requirements, because it includes cash flows such as principal received on loans and principal paid on bonds.

Statements for the fiscal year ended June 30, 2020 are followed by statements for the fiscal year ended June 30, 2019 to allow comparison of the Authority's financial position and results of operations for the current and prior fiscal years.

These statements are prepared on the accrual basis (revenues are recognized when earned and expenses are recognized when incurred) and present information on the Authority's overall financial position and results of operations. Assets and revenues of the separate funds contained within these statements are generally restricted as to use and the reader should not assume they might be used in any aggregate manner.

The Authority defines activities under each of its separate bond resolutions as major funds for financial reporting purposes, with all other accounts and activities outside of these bond resolutions reported in the Other Fund. A summary of the major funds reported by the Authority follows. A more detailed description of each is presented later in the section headed Analysis of Individual Funds' Balances and Transactions for Bond Funds.

- Clean Water Bond Fund (CWBF): In conjunction with the Minnesota Pollution Control Agency (MPCA), the Authority provides loans from the fund to municipalities for wastewater treatment projects certified by the MPCA.
- Drinking Water Bond Fund (DWBF): In conjunction with the Minnesota Department of Health (MDH), the Authority provides loans for public drinking water facilities.
- Transportation Bond Fund (TBF): Four separate closed resolutions have been created to make loans in cooperation with the Minnesota Department of Transportation: (1) TBF Series 1999A, (2) TBF Series 2001, (3) TBF Series 2006A, and (4) TBF Series 2008A. During the fiscal year ended June 30, 2011, two series of refunding revenue bonds were issued to refund the outstanding Series 1999A and Series 2001 bonds, TBF Series 2010-T1, and TBF Series 2010-T1, respectively. All outstanding 2010-T1 bonds were redeemed on March 1, 2020.
- Other Fund: All of the Authority's nonrevenue bond activity and accounts are aggregated in the Other Fund.

Within each of the bond funds, the Authority uses bond proceeds, federal capitalization grants, and state matching funds to make loans, pay for the costs of issuing debt, and to fund debt service reserve accounts when used. Federal capitalization grants and state matching grants within these funds are recognized as capital contributions. Net loan repayments and investment earnings provide the necessary cash flow to pay the required debt service on the bonds.

The operations in the Other Fund consist of grant and loan programs funded through federal grants and state appropriations, recognized in these accounts primarily as operating revenue, and administrative costs paid by the fee portion of loan repayments, application fees, interest earnings, and/or by federal grant funds.

Condensed Financial Information:

The following page presents condensed financial statement information as of and for the fiscal years ended June 30, 2020, 2019, and 2018.

| Totals | \$ 150,139,084 | \$ 147,660,008 | \$ 89,043,475 | |
| Bonds Payable, par: Issued | \$ - | \$ - | \$ - | |
| Defeased | | | | |
| Redeemed | (134,590,000) | (84,840,000) | (79,740,000) | |
| Net change | \$(134,590,000) | \$ (84,840,000) | \$ (79,740,000) | |
| Loans Receivable: Disbursed | \$ 145,657,859 | \$ 131,922,975 | \$111,071,431 | |
| Principal repaid | (163,407,232) | (150,881,047) | (142,323,032) | |
| Net change | \$ (17,749,372) | \$ (18,958,072) | \$ (31,251,601) | |

During the fiscal years ended June 30, 2020, 2019, and 2018, net position changed by: \$82.3, \$84.7, and \$32.8 million, respectively.

The weighted average interest rate on outstanding loan balances at June 30, 2020, 2019, and 2018 was 1.72%, 1.80%, and 1.88%, respectively.

The weighted average investment earnings rate (earnings ÷ average daily cash and investments balance) during fiscal years 2020, 2019, and 2018 was 1.90%, 2.24%, and 1.47%.

Loan and grant approvals during fiscal years 2020, 2019, and 2018 were \$236 million (56 contracts), \$275 million (74 contracts), and \$196 million (52 contracts).

Discussion of Long-term Debt Activity, Credit Ratings, and Debt Limitations:

The Authority's outstanding debt limit is \$2,000,000,000. The Authority bonds do not constitute a debt of the State of Minnesota or any agency or political subdivision thereof (other than the Authority). The principal amount of bonds outstanding at June 30, 2020 was \$592,015,000.

During fiscal years 2012 through 2015, the Authority issued no bonds. During fiscal year 2016, the Authority issued State Revolving Fund Revenue Bonds Series 2016A (Clean Water and Drinking Water) of \$247,425,000 and State Revolving Fund Revenue Refunding Bonds Series 2016B (Clean Water and Drinking Water) of \$106,905,000. During fiscal years 2017 through 2020, the Authority issued no bonds. On March 1, 2020, the Authority called, at par and with \$48,400,000 cash on hand, the 5.000% coupon 2010A Clean Water bonds maturing March 1, 2025, 2026, and 2027. The present value of future interest savings in the Clean Water Bond Fund are estimated by the Authority to be over \$11 million.

The Clean Water and Drinking Water bonds are rated triple A by Standard and Poor's (AAA), Moody's (Aaa), and Fitch Ratings (AAA). The transportation bonds were rated: Series 2010-T1: Moody's (Aaa); and Series 2010-T2: Standard and Poor's (AAA).

Analysis of Individual Funds' Balances and Transactions for Bond Funds:

This section will provide general information on each bond fund, followed by presentation and analysis of more detailed financial information.

Clean Water Bond Fund (CWBF): This pooled bond fund is a part of the Authority's Clean Water State Revolving Fund, operated under the federal Clean Water program, CFDA #66.458. Initiated in 1989, twenty six series of bonds have been issued for \$2.63 billion par, which includes \$1.02 billion for refunding prior issues. Federal capitalization grant awards and state match appropriations through June 30, 2020 were approximately \$944 million, net of non-pledged set-asides and principal forgiveness. The Authority has over the years transferred out approximately \$91 million from the CWBF for related but non-pledged programs known as nonpoint source programs. During fiscal year 2019 transfers out for these programs was \$1 million. During 2020 and 2018 the Authority made no transfers out for these programs. Prior to removing assets from the CWBF, the Authority must meet conditions defined in the fund's bond resolutions. The CWBF has made 591 loan commitments to 301 borrowers for approximately \$3.24 billion. The largest borrower, at approximately \$551.5 million in outstanding loans as of June 30, 2020, is the Metropolitan Council.

Drinking Water Bond Fund (DWBF): This pooled bond fund is a part of the Authority's Drinking Water State Revolving Fund, operated under the federal Safe Drinking Water program, CFDA #66.468. Initiated in 1998, nine series of bonds have been issued for \$438.5 million, which includes \$62.9 million for refunding prior issues. Federal capitalization grant awards and state match appropriations through June 30, 2020 were approximately \$353 million, net of non-pledged set-asides and principal forgiveness. The fund has made 467 loan commitments to 280 borrowers for approximately \$963 million. The largest borrower, at approximately \$89.7 million in outstanding loans as of June 30, 2020, is the City of Minneapolis.

Transportation Bond Fund (TBF): This fund consists of two closed, stand-alone bond issuances with separate pledged assets and revenues for both:

- The series 1999A bonds of \$17.08 million par were issued in March 1999. The Authority transferred \$4.1 million in cash into the fund at issuance, from its non-pledged accounts. One loan for \$21.025 million was made to the Metropolitan Council. In November 2010, bonds outstanding were redeemed with proceeds of the Revenue Refunding Bonds Series 2010-T1.
- The series 2001 bonds of \$20.45 million par were issued in December 2001. The Authority transferred \$16.77 million in cash and loans into the fund. Nine loan commitments totaling \$34.78 million form the loan pool pledged to these bonds, and a \$1.9 million debt service reserve account was also created from the assets transferred in. In November 2010, bonds outstanding were redeemed with proceeds of the Revenue Refunding Bonds Series 2010-T2.

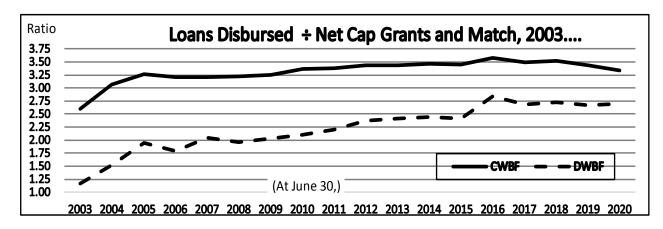

Criteria used in evaluating the financial results and conditions of the bond funds include:

- The efficient use of contributed capital to accomplish the goal of making below market rate loans to program participants (CWBF and DWBF).
- The ability to generate cash flows sufficient to make debt service payments (all bond funds).

Analysis of the efficient use of federal capitalization grants and state match:

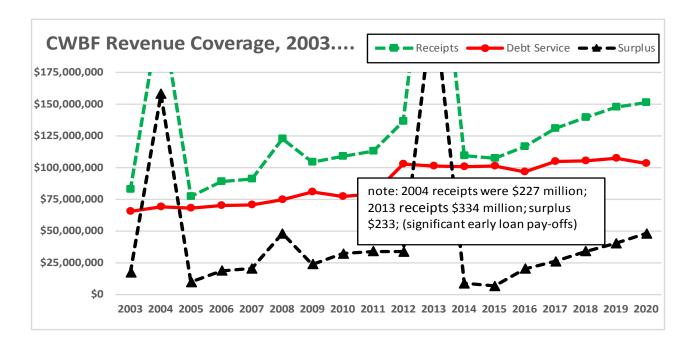

Comparing loans disbursement to the net amount of federal capitalization grants and state match recognized in the CWBF and DWBF gives a measure of the effective use of the capital contributions. Timing may affect the ratios at any point in time, but over time this ratio should grow as the programs grow in size and loan repayments become a larger portion of the available sources for new loans. This ratio may be levelling off due to historically low interest rate levels; with such low rates, the revolving funds become more dependent on continuing capitalization. The following chart displays the ratio at June 30th since 2003.

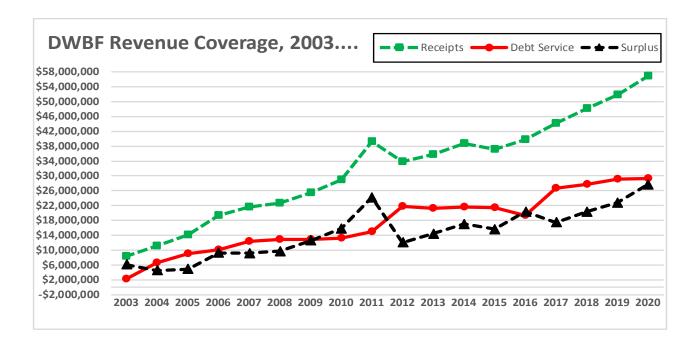

Clean Water and Drinking Water Bond Fund Programs Leveraging of Federal Capitalization Grants and State Match

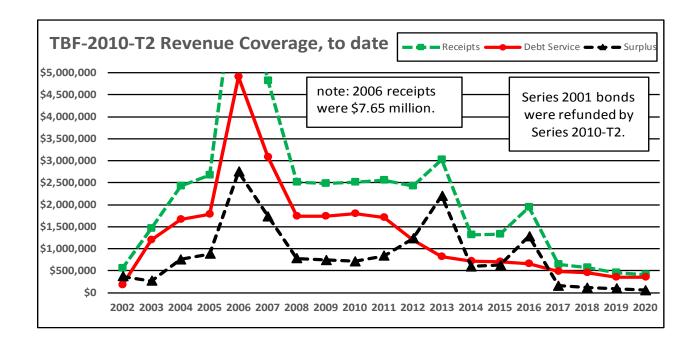

Analysis of historical cash flow sufficiency to make debt service payments:

The following charts show each bond fund's cash flow history in meeting debt service payments. Annual bond fund receipts, scheduled debt service, and net surplus are charted. Note that each chart uses a different scale; the amount of receipts and debt service varies considerably between the different funds.

Financial ratios: The following table presents financial ratios regarding financial position and ability to generate cash flows sufficient to pay debt service requirements.

| | | Clean Water Bond Fund | Drinking Water Bond Fund | TBF Series 2010-T2 | | | |
|---------------------------|-------------------|--------------------------|-----------------------------|-----------------------|--|--|--|
| Current ratios: | June 30, 2020 | 4.02 | 12.00 | 1.95 | | | |

| operating income ratio: | operating revenue | es ÷ operating e | xpenses | | | | |

note: debt service is net of early calls.

debt service coverage ratio:

(loan repayments + investment interest) ÷ (bond debt service)

Analysis of Individual Funds' Balances and Transactions for Non-Bond Funds:

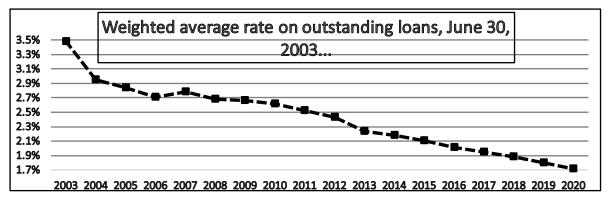

The Other Fund includes grant and loan programs not funded with Authority bond proceeds, and the administrative costs for the Authority including costs of the Department of Employment and Economic Development (DEED), the MPCA, and the MDH. These administrative costs are funded from application fees and the fee portion of loan repayments.

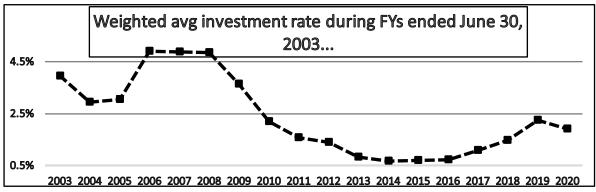

State Appropriations – Legislative appropriations to the Authority are recognized as operating revenue as related expenditure obligations are incurred. See Note 7 for a list of appropriations made to the Authority during the three most recent legislative sessions.

Discussion of Facts and Conditions Expected to Have a Significant Impact on Financial Position and or Results of Operations:

Between fiscal years 2004 and 2013, the Authority received early pay-offs on loans for several hundred million dollars. These repayments were used to make new loans, but projected net receipts for the bond funds (in particular the CWBF) were reduced from fiscal year 2005 through fiscal year 2022 because the new loans had lower rates than the paid-off loans.

The average rate on outstanding loans, and the average rate earned on investments, has dropped substantially. The lower loan rates are advantageous to the borrowers that get them, but everything else being equal, they reduce future lending capacity. The following two charts show the changes by fiscal year since 2003 in the weighted average interest rates on outstanding loans at the end of each fiscal year, and on the investment earnings during each fiscal year, which has recovered some.

The Authority adopts an annual Intended Use Plan (IUP) for the Clean Water program and for the Drinking Water program. The IUPs identify which projects may be considered for funding during the fiscal year, based on priority lists established by the MPCA for Clean Water projects and by the MDH for Drinking Water projects. The Authority reviews the long term funding capacity of the Clean Water Bond Fund and the Drinking Water Bond Fund when determining the level of funding for the annual IUPs. Needs for drinking water and wastewater system improvements continue to be substantial. Meeting current loan demand while preserving long term lending capacity for high priority projects throughout the State will be a continuing challenge.

On September 1 2016, the Authority advanced \$77,150,000 from the CWBF to the DWBF to call and redeem a like par amount of 2004A and 2005A DWBF bonds, without having to issue refunding bonds. The bond calls result in a reduction to future DWBF bond interest payments of nearly \$15 million. The Authority has since made, and intends to continue making, DWBF repayment of the advance with interest, using a portion of each bond-year-end surplus. The scheduled principal payback matches the original maturity schedule of the called bonds. The interest rate charged has and will equal, for each month, the monthly rate reported by Minnesota Management and Budget on the state's collective cash pool know as Invested Treasurer's Cash. The Authority views the net effect of this transaction as a cost effective reduction to DWBF debt service while making the CWBF whole.

Effects of the Coronavirus (COVID-19) Pandemic on Authority Operations:

Since mid-March 2020, Authority staff are working remotely. Processes and use of technology have been adapted to accommodate. Staff have contacted all borrowers for evaluation of potential impact to utility system fees. There has been no indication of impacts that are expected to affect borrowers' ability to pay scheduled debt service.

Requests for Information

This financial report is designed to provide a general overview of the Minnesota Public Facilities Authority's finances. Questions concerning any of the information provided in this report should be addressed to:

1. Summary of Significant Accounting Policies

The financial statements of the Authority have been prepared in conformity with accounting principles generally accepted in the United States as applied to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standards setting body for establishing governmental accounting and financial reporting principles. Descriptions of the significant accounting policies follow:

Reporting Entity — The Authority was created in 1987 by the State of Minnesota under Minnesota Statutes, Chapter 446A (the Act). Under the Act, the members of the Authority are the Commissioners of the Departments of Employment and Economic Development (DEED), Management and Budget (MMB), Agriculture (MDA), Transportation, and the MPCA. The DEED Commissioner serves as chair and chief executive officer of the Authority. These members serve as a result of their respective positions as commissioners, and their terms as members of the Authority coincide with their terms as commissioners. Pursuant to state law, commissioners may delegate and have delegated their duties as a member of the Authority in the event that the commissioner is unable to attend a meeting of the Authority.

DEED provides administrative support services to the Authority. The MPCA and the MDH also provide staff to administer, in cooperation with the Authority, certain programs of the Authority.

GASB Codification Section 2100 states that a primary government that appoints a voting majority of the organization's governing body, and either (1) is able to impose its will on the organization or (2) has the potential to receive specific financial burdens imposed on it by the organization, is financially accountable to that organization. Based on this criterion, the Authority is considered a discretely presented component unit of the State of Minnesota and is included in its basic financial statements.

The Authority is authorized to issue bonds. These bonds do not constitute a debt of the State of Minnesota or any agency or political subdivision thereof (other than the Authority).

Basis of Accounting — The Authority is a special-purpose government engaged in business-type activities. The Authority has determined that all of its funds shall be classified as enterprise funds and are therefore accounted for on the proprietary fund-type basis. All assets, deferred outflows of resources, and liabilities (whether current or noncurrent) associated with their activity are included on their statements of net position. Proprietary fund measurement is focused upon determination of net income, financial position, and cash flows. The Authority's proprietary funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. Proprietary funds are accounted for using the accrual basis of accounting. Revenues are recognized when earned, and expenses are recognized when incurred.

Fund Accounting — As a governmental entity the Authority organizes its accounts on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund net position, revenues, and expenses, as appropriate. Government resources are allocated and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. All of the Authority's funds are classified as proprietary funds. The Authority reports the following major proprietary funds:

- Clean Water Bond Fund (CWBF) The Authority receives federal capitalization grants under Title
 VI of the Federal Clean Water Act, and state matching grants. These funds are leveraged with
 proceeds from the Authority's pooled Clean Water revenue bonds to provide below-market-rate
 loans to municipalities and eligible political subdivisions to facilitate the construction of
 wastewater treatment facilities. Before the Authority can approve any particular loan, the MCPA
 must certify the applicant's project based on technical and environmental reviews.
- Drinking Water Bond Fund (DWBF) The Authority receives federal capitalization grants under Section 1452 of the Safe Drinking Water Act and state matching grants. These funds are leveraged with proceeds from the Authority's pooled Drinking Water revenue bonds to provide below-market-rate loans to municipalities to finance costs of drinking water system infrastructure. Before the Authority can approve any particular loan, the MDH must certify the applicants' projects based on technical and environmental reviews.
- Transportation Bond Fund (TBF) This program was initiated with a federal grant from the U.S.
 Department of Transportation to the Minnesota Department of Transportation (MnDOT) and
 state matching grants. The Authority administers the TBF, which provides loans to municipalities
 and eligible political subdivisions for construction of highways, bridges, and streets, and for
 purchasing transit capital. MnDOT must certify applicants' projects based on MnDOT's design
 standards. Four closed, stand-alone series of revenue bonds were issued to support the activities
 of the fund.
- Other Fund In addition to the pledged bond funds, the Authority manages various legislative appropriations for similar purposes. Two of the programs included in the Other Fund are the Wastewater Infrastructure Funding Program (WIF), and Point Source Implementation Grants Program (PSIG). The Authority receives appropriations from the Minnesota Legislature to fund these programs. WIF Supplemental Assistance grants are given to eligible municipalities with high-cost wastewater projects, in conjunction with a loan from the CWBF or financing from the U.S. Department of Agriculture's Rural Development Office. Eligible WIF projects must be on the MPCA's or MDH's Project Priority List (PPL). PSIG grants are used for infrastructure construction projects needed to meet more stringent permit requirements to address specific water quality goals, for projects on the MPCA's PPL. The Other Fund also includes the accounts and activities related to management of the Clean Water Bond Fund, Drinking Water Bond Fund, and Transportation Bond Fund.

Federal Grants and State Appropriations - The Authority receives federal capitalization grants from the Environmental Protection Agency. This money is used primarily for funding of loans and has also been used as security on bonds, and a portion may be expended for administrative and other set-aside costs. The Authority also receives state appropriations as match to the federal grants and for other Authority loan and grant programs. These federal and state monies are recognized in the financial statements when the associated expenditure obligations have met the eligibility requirement. When used to capitalize the revolving loan funds they are recorded as capital contributions; when used for administrative costs or grants they are recorded as operating revenue.

Cash Equivalents - The Authority considers all investments with an original maturity when purchased of three months or less to be cash equivalents.

Loans Receivable - Loans receivable are carried at their unpaid principal balances, net of any allowances for loan losses. The allowances for loan losses are established based on management's evaluation of the loan portfolio. Generally, the Authority does not provide an allowance for loan losses as the loans are secured by the borrowers' general taxing and levy authority and revenue pledges.

Investments - The Authority reports investments at fair value in the statement of net position with changes in the fair value of investments reported in the statement of revenues, expenses, and changes in fund net position. Fair value of investments was determined based on quoted market prices as of the reporting date. The Authority believes it has the ability and intent to hold all investments to maturity to recover the full carrying value of its investment portfolio and does not expect to realize any gain or loss from the market value adjustments as shown in the various funds.

Bond Discounts, Premiums, and Issuance Costs - Bond discounts and premiums are amortized using the effective interest method over the term of the bond series. Bond issuance costs are expensed in the period incurred.

Income Taxes - The Authority is a discretely presented component unit of the State of Minnesota and is exempt from federal and state income taxes.

Restrictions on Net Position – The use of assets held within each separate bond fund is restricted by the terms and conditions of that fund's bond resolutions. All net position of the Authority, including that not restricted by bond resolutions, is limited in use by state and federal laws under which the funds were appropriated and / or grant conditions imposed by the federal funding agency, except for net position in the Authority's administrative accounts which is reported as unrestricted because it is used for general operating activities.

Defining Operating Revenues and Expenses and Operating Cash Flows - The Authority issues revenue bonds to leverage the capital contributions it receives from federal capitalization grants and state matching grants. These funds are then used to make below-market-rate loans to municipalities and to pay for certain costs of issuance. Investment interest and loan repayments generate the cash flow required to make bond debt service payments. Interest from loans and investments are included as part of operating revenues and interest expense on bonds is included in operating expenses.

Deferred Inflows and Deferred Outflows - The Authority records deferred outflows of resources related to the consumption of net position that is applicable to a future reporting period and records deferred inflows of resources for acquisition of net position that is applicable to a future reporting period. The Authority's deferred charge on debt refunding results from the difference in the carrying amount of the refunded debt and its reacquisition price. The deferred inflows and outflows of pension resources are amounts used under applicable accounting guidance in developing the annual pension expense. They arise with differences between expected and actual experience, investment differences, changes of assumptions and changes in proportions. The portion of these amounts not included in pension expense should be included in the deferred inflows or outflows of resources.

Use of Estimates - The presentation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. Deposits and Investments

Deposits – In accordance with state statutes, the Authority's cash deposits are held in the state treasury and managed by the State Board of Investment (SBI) in a state pool. The Department of Management and Budget (MMB) is responsible for ensuring balances are insured or collateralized in accordance with statutes. Further information regarding the state pool can be found in MMB's Comprehensive Annual Financial Reports for the state of Minnesota, and in SBI's financial reports. At June 30, 2020 and 2019, \$360,201,880 and \$351,899,543, respectively, of cash deposits were interest-bearing and \$6,669,839 and \$9,648,445, respectively, were non-interest-bearing.

Investments - The Authority's investment policy requires it to follow Minnesota state statutes and bond resolutions. Investments are composed primarily of notes of the U.S. Government and its agencies, guaranteed investment contracts, and municipal securities. Information regarding the Authority's investments is provided below to give an indication of the risk level assumed at year-end.

Interest Rate Risk - The Authority does not have a formal investment policy that limits maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Custodial Credit Risk – For an investment, the custodial credit risk is that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, the Authority will not be able to recover the value of its investments that are in the possession of another party. The Authority requires for all securities purchased that the securities are at all times insured, registered in the Authority's name or in the possession of the Authority.

Credit Risk - Excluding U.S. Government-backed securities, the Authority's investments at June 30, 2020 and 2019 carried the following ratings by these nationally recognized statistical rating organizations:

| Investment Type | Standard & Poors | Moody's | | |
|----------------------------------|------------------|------------------|--|--|
| State & Municipal Bonds | AAA or not rated | Aaa, Aa1 and Aa3 | | |
| Corporate Bonds (n/a at 6/30/20) | AAA | Aaa | | |

Concentration of Credit Risk: For the investments held by the Authority at June 30, 2020 and 2019, state law and Authority investment policy places no limits on the amount that may be invested in any one issuer. Excluding U.S. Government-backed securities, more than 5% of the Authority's investments are in the following issuers:

| | June 30, 20 | 20 | June 30, 2019 | | | |
|--------------------|--------------|-------|---------------|------|--|--|
| Investment Issuer | Fair Value | % | Fair Value | % | | |
| Minneapolis MN | \$ 4,531,779 | 50.3% | \$ 4,541,829 | 7.5% | | |
| Little Elm TX ISD | 1,572,020 | 17.5% | | | | |
| Olmstead County MN | 917,665 | 10.2% | | | | |
| Brown County WI | 898,275 | 10.0% | | | | |
| Ames IA | 601,218 | 6.7% | | | | |
| Microsoft bond | | | \$ 4,989,300 | 8.2% | | |

Fair Value Hierarchy: The following table summarizes the Authority's investments within the fair value hierarchy, as of June 30, 2020 and 2019:

| Type June 30, 2020 Level 1 | Level 2 | Level 3 | <u> </u> |
|---|-------------------------|---------|-------------------------|

3. Loans Receivable

The Authority lends funds to political subdivisions within the state of Minnesota, through bond purchase and project loan agreements. All of the loans pledged to bond-holders are secured by the borrowers' general taxing and levy authority and revenue pledges, except DWBF loans to the City of Saint Paul which are secured by revenue pledges only.

Loans receivable balances by Fund:

At June 30, 2020 and 2019 the Authority had outstanding loans receivable consisting of:

| | | Final | Outstanding Principal, June 30 | | | | |
|--------------------------|--------------------|----------|--------------------------------|------------------|--|--|--|
| Fund | Loan rates from-to | Maturity | 2020 | 2019 | | | |
| Clean Water Bond Fund | 1.000% - 3.870% | 08/20/49 | \$ 1,232,871,896 | \$ 1,251,363,785 | | | |
| Drinking Water Bond Fund | 1.000% - 4.160% | 08/20/49 | 505,972,054 | 501,127,848 | | | |
| Transportation Bond Fund | 2.710% - 3.590% | 08/20/30 | 3,492,000 | 4,167,000 | | | |
| Other Fund | 0.000% - 3.645% | 08/20/42 | 43,331,771 | 46,758,461 | | | |
| Total par value | | | \$ 1,785,667,721 | \$1,803,417,093 | | | |

The supplemental Schedule of Individual Loans Receivable by Fund lists outstanding loans by fund.

Borrower concentration in the open-pool bond funds (CWBF and DWBF):

The Clean Water Bond Fund and the Drinking Water Bond Fund both have large loan portfolios with many borrowers. These loans are a significant portion of the assets securing outstanding bonds, and provide a significant portion of the revenues pledged to the payment of debt service on the bonds.

The following tables show the borrowers whose loan balances make up more than 4% of the outstanding loan balances of, respectively: the Clean Water Bond Fund, the Drinking Water Bond Fund, and the combined loan portfolios of both funds.

| | June 30, 20 | 020 | June 30, 20 | June 30, 2019 | |
|---------------------------|-----------------|-------|------------------|---------------|--|

| Minneapolis | 89,660,847 | 5.2% | 90,236,836 | 5.2% | |
| All other CW+DW borrowers | 1,097,689,393 | 63.1% | 1,090,728,657 | 62.2% | |
| Total CWBF & DWBF loans | \$1,738,843,950 | | \$ 1,752,491,632 | | |

Projected loan repayments:

The following table shows projected repayments on outstanding loans. The projections include only fully executed loans existing at June 30, 2020. The Authority anticipates that subsequent to June 30, 2020, a significant amount of new loans will be made from existing resources; these loans will add to future repayment streams but are not included in the following projections.

| Fiscal Year(s) | | Clean Wate | r B | ond Fund | D | rinking Wat | ter Bond Fund | | |
|------------------------------|----|------------------|---------------|---------------|----------|-------------|---------------|-------------|--|
| end. June 30, | | Interest | Principal | | Interest | | Principal | | |

Bond Proceeds – The net bond proceeds have been used to fund loans to State of Minnesota municipalities for projects relating to wastewater treatment facilities, drinking water systems, and transportation. See Advanced and Current Refunding of Debt below for information on use of proceeds for refundings.

Collateral - The bonds are secured by bond program assets and revenues as defined in the applicable bond resolutions.

Bonding Authority - The Authority bonds do not constitute a debt of the State of Minnesota or any agency or political subdivision thereof (other than the Authority). The Authority's outstanding debt limit is \$2,000,000,000. The principal amount of bonds outstanding at June 30, 2020 was \$592,015,000.

Advanced and Current Refunding of Debt - The Authority has issued bonds the partial proceeds of which were used to defease or call certain prior debt issuances. In each case of defeasance, the Authority established an irrevocable escrow fund pursuant to an escrow agreement between the Authority and an escrow agent. The escrow funds are pledged solely to the repayment of principal, premium, and interest on the refunded bonds. Under the agreements, the refunded bonds will be called for redemption at each series' applicable optional redemption dates. As these bonds have, in effect, been redeemed under the defeasance, they are no longer outstanding under the Authority's applicable bond resolutions and therefore, they are not entitled to the pledge of the applicable resolution. Accordingly, these bonds and the related escrow funds are not reflected in these basic financial statements of the Authority.

Amounts deferred on refunding is reflected in the statement of net position as a deferred outflow of resources and is charged to operations using the effective interest method.

At June 30, 2020 there are no bonds defeased and not yet redeemed.

(The remainder of this page has been left blank intentionally.)

Schedule of Maturities - As of June 30, 2020 debt service on outstanding bonds is payable as follows:

| Fiscal Year(s) | | Clean Water Bond Fund | | | Drinking Wat | er I | Bond Fund | |
|---|------------|-----------------------|--------------------|----------------------|----------------|---|----------------|--|
| end. June 30, | | Interest | | Principal | | Interest | | Principal |

| Plus remain | 60,304,904 | | | | |
| Net bonds p | \$ 786,909,904 | | | | |

5. Arbitrage Rebate Payments

The bonds issued by the Authority are subject to a variety of Internal Revenue Service regulations that limit the amount of investment income that may be earned on certain funds to an amount not greater than the amount earned had the funds been invested at the yield on the related bonds. Excess earnings must be rebated annually, or every five years, depending on the date and type of bond issue. During fiscal years 2020 and 2019 the Authority paid \$22,130 and \$-0-, respectively. At June 30, 2020 and 2019, the arbitrage rebate liability totaled \$2,731 and \$23,301, respectively.

6. Restricted Net Position

Restricted Net Position at the end of the current and prior fiscal year consisted of the following:

At June 30, 2020, Restricted Net Position consisted of the following:

| Restricted for | Clean Water | Drinking Water | Tra | nsportation | | Other | Т | otal Business- |
|--|-----------------|-----------------------|-----|-------------|----|------------|----|----------------|
| the purpose of | Bond Fund | Bond Fund | | Bond Fund | | Fund | | type activity |
| Wastewater and Stormwater Infrastructure | \$1,020,258,354 | | | | \$ | 20,553,396 | \$ | 1,040,811,750 |
| Drinking Water Infrastructure | | \$ 401,006,631 | | | | | \$ | 401,006,631 |
| Transportation Infrastructure | | | \$ | 3,550,506 | \$ | 69,748,355 | \$ | 73,298,861 |
| | \$1,020,258,354 | \$ 401,006,631 | \$ | 3,550,506 | \$ | 90,301,751 | \$ | 1,515,117,242 |
| | | | | | _ | | | |

At June 30, 2019, Restricted Net Position consisted of the following:

| Restricted for the purpose of | Clean Water Bond Fund | Drinking Water Bond Fund | Transportation Bond Fund | Other Fund | Total Business- type activity |
|--|--------------------------|-----------------------------|--------------------------|---------------|----------------------------------|
| Wastewater and Stormwater Infrastructure | \$ 958,394,130 | | | \$ 20,604,958 | \$ 978,999,088 |
| Drinking Water Infrastructure | | \$ 381,596,591 | | | \$ 381,596,591 |
| Transportation Infrastructure | | | \$ 3,566,662 | \$ 68,484,468 | \$ 72,051,130 |
| | \$ 958,394,130 | \$ 381,596,591 | \$ 3,566,662 | \$ 89,089,426 | \$ 1,432,646,809 |

7. Related-Party Transactions

Administrative Services – DEED, MPCA, and MDH provide administrative staff and services to Authority programs. During fiscal 2020 and 2019, Authority expenses were approximately \$2.42 million and \$2.39 million, respectively, for these services.

Transfers - The Authority holds a loan receivable in the Other Fund whose repayments of approximately \$59 thousand each year are transferred to the CWBF. Pledged revenues exceeding debt service in the TBF Funds are transferred to the Other Fund. In fiscal years 2020 and 2019, these TBF transfers were approximately \$145 thousand and \$343 thousand, respectively. During fiscal year 2019, \$1 million was transferred out of the CWBF to the Other Fund, and from there granted out to the MDA for its nonpoint source loan program, *Best Management Practices*.

State Appropriations - Legislative appropriations to the Authority are recognized as operating revenue or capital contributions as related expenditure obligations are incurred. During the most recent legislative sessions the following appropriations were made to the Authority:

| | | (1) | (2) | (3) | (4) |
|---|----------|-------------|------------|------------|------------|
| Program appropriations: | | | | | |
| State Match to the Clean Water SRF | 446A.07 | 15,000,000 | | 14,000,000 | 6,000,000 |
| State Match to the Drinking Water SRF | 446A.081 | 10,000,000 | | | |
| Water Infrastructure Funding Program: | 446A.072 | | | | |
| Clean Water Project Priority List | | 33,296,000 | | | 14,652,000 |
| Drinking Water Project Priority List | | 22,198,000 | | 25,000,000 | |
| Point Source Implementation Grants | 446A.073 | 44,553,000 | 18,000,000 | | 38,348,000 |
| Small Community WW Treatment | 446A.075 | | 250,000 | | |
| Appropriations for grants to specific recipients-projects: (see appropriation laws cited below for details) | | | | | |
| 12 projects | | | | 25,350,000 | |
| 31 projects | | 144,063,000 | | | |
| total appropriations to the Auth | ority | 269,110,000 | 18,250,000 | 64,350,000 | 59,000,000 |

- (3) Laws of Minnesota 2018, chapter 214, article 1, section 22 Source: general obligation bond proceeds.
- (4) Laws of Minnesota 2018, chapter 214, article 6, section 4

 Source: special appropriation bond proceeds, but these appropriations were replaced with general obligation bond proceeds per 2019 chapter 2.

8. *Commitments*

At June 30, 2020 the Authority had committed approximately \$153.1 million for the origination or disbursement of future loans, and \$62.8 million for grants.

9. Interfund Advance

During fiscal year 2016, the Authority advanced \$77,150,000 from the CWBF to the DWBF to call and redeem a like par amount of certain outstanding 2004A and 2005A DW bonds, without having to issue refunding bonds. The bond calls reduced future DWBF bond interest payments by nearly \$15 million. The Authority has since made, and intends to continue making, DWBF repayment of the advance with interest, using a portion of each bond-year-end surplus. The scheduled principal payback matches the original maturity schedule of the called bonds. The following schedule shows the actual to-date and the planned principal payback, which matches the original maturity schedule of the called bonds:

| Fiscal | Principal |
|--------|--------------|
| Year | Amount |
| 2017 | \$ 2,200,000 |
| 2018 | 11,195,000 |
| 2019 | 12,250,000 |
| 2020 | 11,730,000 |
| 2021 | 9,775,000 |
| 2022 | 9,670,000 |
| 2023 | 9,125,000 |
| 2024 | 8,720,000 |
| 2025 | 2,485,000 |
| total | \$77,150,000 |

10. Pending Accounting Standards

GASB Statement 87:

In June 2017, the GASB issued Statement No. 87 *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

Leases should be recognized and measured using the facts and circumstances that exist at the beginning of the period of implementation (or, if applied to earlier periods, the beginning of the earliest period restated). However, lessors should not restate the assets underlying their existing sales-type or direct financing leases. Any residual assets for those leases become the carrying values of the underlying assets. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. Earlier application is encouraged.

In January 2020, the GASB issued Statement 92, *Omnibus 2020*. The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. This Statement address a variety of topics and includes specific provisions about the following:

- The effective date of Statement No. 87, *Leases*, and implementation Guide No. 2019-3, for interim financial reports.
- Reporting of intra-entity transfers of assets between a primary government employer and a component unit defined benefit pension plan or defined benefit other postemployment benefit (OPEB) plan.
- The applicability of Statements No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68, as amended, and No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, as amended, to reporting assets accumulated for postemployment benefits.
- The applicability of certain requirements of Statement No. 84, *Fiduciary Activities*, to postemployment benefit arrangements.
- Measurement of liabilities (and assets, if any) related to asset retirement obligations (AROs) in a government acquisition.
- Reporting by public entity risk pools for amounts that are recoverable from reinsurers or excess insurers.
- Reference to nonrecurring fair value measurements of assets or liabilities in authoritative literature.
- Terminology used to refer to derivative instruments.

The requirements of this Statement are effective as follows:

- The requirements related to the effective date of Statement 87 and Implementation Guide 2019-3, reinsurance recoveries, and terminology used to refer to derivative instruments are effective upon issuance.
- The requirements related to intra-entity transfers of assets and those related to the applicability of Statements 73 and 74 are effective for fiscal years beginning after June 15, 2021.

- The requirements related to application of Statement 84 to postemployment benefit arrangements and those related to nonrecurring fair value measurements of assets or liabilities are effective for reporting periods beginning after June 15, 2021.
- The requirements related to the measurement of liabilities (and assets, if any) associated with AROs in a government acquisition are effective for government acquisitions occurring in reporting periods beginning after June 15, 2021.

Earlier application is encouraged and is permitted by topic.

11. Defined Benefit Pension Plan

The Authority contributes to the Minnesota State Retirement System (MSRS), a multiple-employer public employee retirement system, which provides pension benefits for all permanent employees.

The State Employees Retirement Fund ("SERF") is administered by the MSRS, and is established and administered in accordance with Minnesota Statutes, Chapters 352 and 356. SERF includes the General Employees Retirement Plan ("General Plan"), a multiple-employer, cost-sharing defined benefit plan, and three single-employer defined benefit plans: the Military Affairs Plan, the Transportation Pilots Plan, and the Fire Marshals Plan. Only certain employees of the Department of Military Affairs, the Department of Transportation, and the State Fire Marshal's Division are eligible to be members of those plans, but all state of Minnesota employees who are not members of another plan are covered by the General Plan.

MSRS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained at www.msrs.state.mn.us/financial-information; by writing to MSRS at 60 Empire Drive, #300, St. Paul, Minnesota, 55103; or by calling (651) 296-2761 or 1-800-657-5757.

Benefits Provided

MSRS provides retirement, disability, and death benefits through the SERF. Benefit provisions are established by state statute and can only be modified by the state legislature. Benefits are based on a member's age, years of credit, and the highest average salary for any sixty successive months of allowable service at termination of service. Benefit increases or decreases are provided to benefit recipients each January, and are related to the funded ratio of the plan. Annuitants receive benefit increases of 2.0 percent each year through December 31, 2018, 1% January 1, 2019 – December 31, 2023, and 1.5% January 1, 2024 and thereafter. For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches Normal Retirement Age (not applicable to Rule of 90 retirees, disability benefit recipients, or survivors). A benefit recipient who has been receiving a benefit for at least 12 full months as of the June 30 of the calendar year immediately before the adjustment will receive a full increase. Members receiving benefits for at least one month but less than 12 full months as of the June 30 of the calendar year immediately before the adjustment will receive a pro rata increase.

Prior to 2002, members who retired under the laws in effect before July 1, 1973, received an additional lump sum payment each year. In 1989, this lump sum payment was the greater of \$25 times each full year of Allowable Service or \$400 per full year of service less any Social Security benefits received or annuity from a Minnesota public employee pension plan. In each following year, the lump sum payment was increased by the same percentage increase that was applied to regular annuities paid from the Minnesota Post Retirement Investment Fund. Effective January 1, 2002, the annual lump sum payment was divided by 12 and paid as a monthly life annuity in the annuity form elected.

Contributions

Minnesota Statutes Chapter 352 sets the rates for employer and employee contributions. Eligible General Plan members contribute 6.00 percent and participating employers are required to contribute 6.25 percent of their annual covered salary in fiscal year 2020. The Authority's contribution to the General Plan for the fiscal year ending June 30, 2020 was \$144,556. These contributions were equal to the contractually required contributions for each year as set by state statute.

Actuarial Assumptions

The Authority's net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation
 Active Member Payroll Growth
 3.25 percent per year

Investment Rate of Return 7.50 percent

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors and disabilitants were based on RP-2014 generational mortality table projected with mortality improvement Scale MP-2015 for males or females, as appropriate, with adjustments to match fund experience. Benefit increases for retirees are assumed to be 2.0 percent every January 1st.

Actuarial assumptions used in the June 30, 2019, valuation were based on the results of an actuarial experience study dated June 27, 2019.

The long-term expected rate of return on pension plan investments is 7.5 percent. The rate assumption was selected as the result of a review of inflation and investment return assumptions dated June 27, 2019 and a recent liability study. The review combined the asset class target allocations and long-term rate of return expectations from the State Board of Investment (SBI).

The SBI, which manages the investments of MSRS, prepares an analysis of the reasonableness of the long-term expected rate of return on a regular basis using a building-block method. Best-estimates of

expected future real rates of return are developed for each major asset class. These asset class estimates and target allocations are combined to produce a geometric, expected long-term rate of return as summarized in the following table:

| | | SBI's Long-Term Expected |
|----------------------|------------|--------------------------|
| | Target | Real Rate of Return |
| Asset Class | Allocation | (Geometric Mean) |
| Domestic Stocks | 36% | 5.10% |
| International Stocks | 17% | 5.30% |
| Bonds | 25% | 5.90% |
| Alternative Assets | 20% | 0.75% |
| Cash | 2% | 0.00% |

Changes in Actuarial Assumptions

The Combined Service Annuity (CSA) loads were 1.20% for active member liability and 40% for vested and non-vested deferred member liability. The revised CSA loads are now 9.99% for active member liability, 4.00% for vested deferred member liability, and 5.00% for non-vested deferred member liability. The Single Discount Rate was changed from 4.17% per annum to 5.42% per annum.

Single Discount Rate

A Single Discount Rate of 7.50% was used to measure the total pension liability. This Single Discount Rate was based on an expected rate of return on pension plan investments of 7.50%. The projection of cash flows used to determine this Single Discount Rate assumed that employees and employer contributions will be made at the current statutory contribution rates. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. As a result, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Net Pension Liability

At June 30, 2020, the Authority reported a liability of \$890,000 for its proportionate share of MSRS' net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Authority's proportion of the net pension liability was based on the Authority's contributions received by MSRS during the measurement period July 1, 2018 through June 30, 2019, relative to the total employer contributions received from all of MSRS's participating employers. At June 30, 2019, the Authority's proportionate share of the entire plan was 0.06326 percent. At June 30, 2018, the Authority's proportionate share of the entire plan was 0.05916 percent.

Pension Liability Sensitivity

The following presents the Authority's proportionate share of the net pension liability, calculated using the discount rate disclosed above, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current discount rate:

| | 1% Decrease in | Current | 1% Increase in |
|-------------------------------|----------------|---------------|----------------|
| | Discount Rate | Discount Rate | Discount Rate |
| | 6.5% | 7.5% | 8.5% |
| Authority proportionate share | | | |
| of the net pension liability | \$2,072,865 | \$890,000 | \$(91,953) |

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the MSRS Comprehensive Annual Financial Report, available on the MSRS website:

(www.msrs.state.mn.us/financial-information).

Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the period ended June 30, 2020, the Authority recognized pension expense (income) of \$205,000. At June 30, 2020, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | Deferred Outflows | Deferred Inflows |
|---|----------------------|---------------------|
| | of Resources | of Resources |
| Differences between expected and actual experience | \$ 27,000 | \$ 3,000 |
| Changes of assumptions | 1,254,000 | 2,788,000 |
| Net difference between projected and actual earnings on investments | | 217,000 |
| Changes in proportion and differences between actual contributions and proportionate share of contributions | 28,000 | |
| Contributions paid to MSRS subsequent to the measurement date | 129,000 | |
| | \$1,438,000 | \$3,008,000 |
| | | |

Amounts reported as deferred outflows of resources related to pensions resulting from Authority contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

| Year ending | Pension Expense |
|-------------|-----------------|
| June 30 | amount |
| 2021 | \$55,000 |
| 2022 | (1,202,000) |
| 2023 | (559,000) |
| 2024 | 7,000 |

12. *COVID-19 Implications*

On January 30, 2020, the World Health Organization declared the coronavirus outbreak (COVID-19) a "Public Health Emergency of International Concern" and on March 10, 2020, declared COVID-19 a pandemic. Although the Authority's services and programs have not been reduced or suspended due to the pandemic as of the date of this report, the operations of the Authority could be impacted by the regional and global outbreak of COVID-19. Any quarantines, labor shortages or other disruptions to the Authority's operations may impact the Authority's revenues, ability to provide its services, and operating results. The extent to which the COVID-19 pandemic impacts the Authority's future financial statements will depend on future developments, which are highly uncertain and cannot be predicted, including new information that may emerge concerning the severity of the COVID-19 and actions taken to contain COVID-19 or its impact, among others.

Independent Auditor's Report on the Supplementary Information

Minnesota Public Facilities Authority

We have audited the financial statements of Minnesota Public Facilities Authority, a component unit of the State of Minnesota, as of and for the year ended June 30, 2020, and have issued our report thereon, which contains unmodified opinions on those financial statements. Our audits were conducted for the purpose of forming opinions on the financial statements as a whole. The supplementary information is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements, or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects in relation to the financial statements as a whole.
