13. Clean Water SRF Source and Distribution of Loan Administration Fees .....	80
14. Missouri Assistance by Summary of Uses.....	81

## **I. Introduction**

Missourians rely on a vast network of wastewater treatment infrastructure to protect public health and keep their waterways clean and safe. Since the program's inception, the Clean Water State Revolving Fund (SRF) has been one of Missouri's primary funding sources for making investments in communities and the future of our state. The Clean Water SRF, managed by the Missouri Department of Natural Resources' Financial Assistance Center (FAC), makes low-interest loans to local communities to help them meet their wastewater needs. The Department is committed to protecting Missouri's water resources that are so important to public health and its economy.

This report details the activities undertaken to reach the goals and objectives set forth in the Intended Use Plan (IUP) developed for 2020. It also describes progress made toward long and short term program goals, the sources (e.g. federal grants) and uses (e.g. loans) of all funds, financial status of the Clean Water SRF, and compliance with federal requirements.

## **II. Executive Summary**

This report addresses operation of the Clean Water SRF program during the reporting period from October 1, 2019 through September 30, 2020, Federal Fiscal Year (FFY) 2020.

The State of Missouri's Clean Water SRF program has received a total of \$44,053,000 in Environmental Protection Agency (EPA) capitalization grants during the reporting period, which is available for use beginning October 1, 2020. Missouri made eight direct loan commitments totaling \$84,691,000 and eight SRF grants totaling \$5,800,446. The state made no leveraged loan commitments.

Since inception, the Water and Wastewater Loan Revolving Fund (Fund 0602) was established to receive loan repayments, which are then used to make new loans. As of September 30, 2020, the Water and Wastewater Loan Revolving Fund had a balance of \$449,810,288. The EPA capitalization grants balance totaled \$45,181,839. Outstanding commitments were \$106,538,411 and Missouri's state match general obligation bond commitments were \$2,208,913. With these taken into consideration, the Clean Water SRF available cash as of September 30, 2020, was \$386,244,803.

The Missouri Clean Water SRF program received a total of \$1,331,977,631 in EPA capitalization grants and amendments through September 30, 2020. The Clean Water SRF program has contributed state match of \$238,652,027, which includes \$98,136,140 of state appropriations, \$15,427,980 of general obligation state match bonds, \$124,632,062 of state match revenue bonds, and \$455,845 of state match administration fees.

The State of Missouri has made 279 leveraged loan commitments totaling \$1,730,092,661; 135 direct loan commitments totaling \$1,256,351,680 (excludes 17 interim direct loans totaling \$118,654,836 that were refinanced as leveraged loans); 34 SRF grants totaling \$40,790,908; 44 American Recovery and Reinvestment Act (ARRA) grants totaling \$56,006,027; and 133 Agriculture loans totaling \$13,330,195 since the inception of the program in 1989.

The Clean Water SRF program has never had a recipient in default on their loan payment. The following table is a summary of Clean Water SRF binding commitments.

<b>Binding Commitment Summary</b>	
Cumulative Binding Commitments	Amount
Leveraged Loans	\$1,730,092,661
Direct Loans (excludes loans paid w/LL)	1,256,351,680
SRF Grants	40,790,908
ARRA Grants	56,006,027
Ag Loans	13,330,195
Cumulative Total	\$3,096,571,471

Exhibit 1 lists all Clean Water SRF capitalization grant awards from program inception through this reporting period. Included in the award amounts are transfers from the Construction Grant Program to the SRF program. The amount of each Construction Grant transfer was in addition to the state's Clean Water SRF allotment. Exhibit 2 lists the schedule of SRF capitalization grant draws and required binding commitments for the Clean Water capitalization grant awards.

### III. 2020 Binding Commitments

The Department entered into eight direct loan commitments totaling \$84,691,000. The Department also entered into eight grant commitments (SRF and SRF Regionalization Incentive grants) totaling \$5,800,446. The following tables list the loan and grant commitments that closed during this reporting period.

<b>Clean Water SRF Direct Loans for FFY 2020</b>			
Recipient	Loan Amount	Closing Date	Project #
Lathrop Phase I	\$3,034,000	12/20/2019	C295821-01
Northeast Public Sewer District	5,000,000	01/30/2020	C295684-05
Weston	3,618,000	01/31/2020	C295814-01
Troy	18,887,000	04/15/2020	C295822-01
Lathrop Phase II	3,161,000	05/27/2020	C295821-02
Rolla	27,240,000	05/28/2020	C295836-01
Gravois Arm Sewer District	1,751,000	06/30/2020	C295826-01L
Metropolitan St. Louis Sewer District	22,000,000	09/16/2020	C295833-02
2020 Total	\$84,691,000		

<b>Clean Water SRF Grant for FFY 2020</b>			
Recipient	Grant Amount	Award Date	Project #
Gravois Arm Sewer District	\$ 1,751,000	06/16/2020	C295826-01G
2020 Total	\$ 1,751,000		

<b>Clean Water SRF Regionalization Incentive Grants for FFY 2020</b>			
<b>Recipient</b>	<b>Grant Amount</b>	<b>Award Date</b>	<b>Project #</b>
East Prairie	\$ 62,500	04/30/2020	C295851-01
Holts Summit	1,017,918	04/30/2020	C295852-01
Linn	607,570	04/30/2020	C295853-01
Moberly	954,208	04/30/2020	C295854-01
Potosi	363,700	04/30/2020	C295855-01
Van Buren	981,050	04/30/2020	C295857-01
Winfield	62,500	04/30/2020	C295856-01
2020 Total	\$ 4,049,446		

#### **IV. Cumulative Binding Commitments**

Exhibit 3 shows a summary of the cumulative leveraged loan commitments, by bond series, since inception of the program and the Metropolitan St. Louis Sewer District (MSD) loan commitments executed as short-term notes. The cumulative leveraged loan binding commitment is \$1,730,092,661.

The cumulative Clean Water SRF binding commitment (leveraged loan, direct loan, and grant commitments) total is \$3,096,571,471. Refer to Exhibit 4 for a complete listing of all binding commitments. Since the inception of the Clean Water SRF program, there are 642 binding commitments. Of the 642 binding commitments entered into, 279 were leveraged loans, 135 were direct loans, 78 were grants and 133 were sub-recipient loan agreements through the Missouri Agricultural and Small Business Development Authority. In addition, 17 interim direct loans, which are not included in the direct loan binding commitment totals, were repaid and replaced with a leveraged loan. To date, loan recipients have repaid 159 leveraged loans and 24 direct loans.

The innovative financing provided through the SRF allows communities to save a considerable percentage of the interest cost of conventional loans. To date, Missouri's Clean Water SRF program has saved communities an estimated \$1,024,924,447 in interest compared to the higher interest rates of conventional financing.

Interest savings in this reporting period were approximately 70 percent. The following table is a summary of the interest savings from loans to communities by fiscal year since the inception of the Clean Water SRF program.

<b>Federal Fiscal Year</b>	<b>Interest Savings</b>	<b>Cumulative Interest Savings</b>
1991-2013		\$765,467,103
2014	\$54,470,559	\$819,937,662
2015	\$43,998,532	\$863,936,194
2016	\$44,424,567	\$908,360,761
2017	\$62,635,174	\$970,995,935
2018	\$ 3,722,492	\$974,718,427
2019	\$27,254,836	\$1,001,973,263
2020	\$22,951,184	\$1,024,924,447

## **V. Objectives and Goals of the Clean Water State Revolving Fund**

Each year the Department evaluates the operations and the financial structures of the SRF program to gauge program effectiveness. This evaluation includes a qualitative assessment of the Department's progress toward meeting long and short term goals established in the FFY 2020 IUP.

### **Long Term Objectives and Goals**

In order to meet the long term objectives of improving the Clean Water SRF's operations and service to its clients, the Department developed the following goals: 1) Assist a broad range of water quality improvement actions that help fulfill the objectives of the Clean Water Act. 2) Provide assistance to projects that will help address affordability and capacity issues for small systems through regionalization or consolidation. 3) Provide assistance to projects which will help address the issues (e.g. harmful algal blooms) caused by excessive nutrient loading of streams, rivers, and lakes that feed into waterways. 4) Provide assistance and support for technically appropriate and financially sustainable projects. 5) Maintain the long-term integrity of the revolving fund by applying prudent financial standards to assistance provided to participants.

### **Short Term Objectives and Goals**

In order to meet the short term objectives of improving the immediate operations and the availability of service to its clients, the Department developed the following goals: 1) Establish a financial incentive to promote regionalization efforts. 2) Promote efficiency efforts both within and outside the agency to expedite the funding of projects. 3) Continue marketing and outreach to increase use of the CWSRF program. 4) Manage projects and work effectively with participants to ensure projects proceed toward a binding commitment in a timely manner. 5) Continue to identify projects that qualify for green project reserve funding, in accordance with federal guidance.

## **VI. Progress Toward Achieving Objectives and Goals of the Clean Water State Revolving Fund**

This section of the annual report describes the progress that has been made in meeting those long and short term objectives and goals for the period from October 1, 2019 to September 30, 2020.

### **Progress Toward Meeting Long Term Program Objectives and Goals**

The objectives were developed to meet the long term (three to five years) goals of improving the Clean Water SRF's operations and service to its clients:

Goal 1: Assist a broad range of water quality improvement actions that help fulfill the objectives of the Clean Water Act.

The Department continues to meet this objective by providing affordable financing for water quality infrastructure improvements. Department project managers market the program to assist each applicant to successfully navigate the SRF process and reach a binding commitment. During the reporting period, 15 projects entered into funding commitments.

Goal 2: Provide assistance to projects that will help address affordability and capacity issues for small systems through regionalization or consolidation.

Department staff promote regionalization and consolidation in a variety of ways. Staff endorse regionalization and consolidation through publications, webinars, and during individual contacts with facility owners. The Department requires that regionalization be one of the alternatives evaluated in SRF funded engineering reports. The Clean Water SRF priority point criteria offer additional points for regionalization projects. And in 2019, the Department began offering the Regionalization Incentive Grant through the Clean Water SRF for municipalities to connect and accept wastewater from a nearby facility.

Goal 3: Provide assistance to projects which will help address the issues (e.g. harmful algal blooms) caused by excessive nutrient loading of streams, rivers, and lakes that feed into waterways.

The Clean Water SRF priority point criteria were updated to offer additional points for projects that include nutrient reduction in watersheds with a lake where numeric nutrient criteria are applicable.

Goal 4: Provide assistance and support for technically appropriate and financially sustainable projects.

The Department coordinates with applicants throughout the project development process to ensure that all appropriate alternatives are evaluated, including regionalization, and that the most cost-effective solution is selected.

Goal 5: Maintain the long-term integrity of the revolving fund by applying prudent financial standards to assistance provided to participants.

The Department utilizes a robust credit evaluation process. All applicants are required to provide a completed due diligence questionnaire (DDQ) that includes a variety of information, including 3-5 years of financial history and a user rate analysis. Department technical and financial staff review all submittals to verify that the applicant has a sound financial capacity and that projected future revenue is sufficient to address both operation and maintenance and debt service.

### **Progress Toward Meeting Short Term Program Objectives and Goals**

The objectives were developed to meet the short term (one to three years) goals of improving the Clean Water SRF's immediate operations and the availability of service to its clients:

Goal 1: Establish a financial incentive to promote regionalization efforts.

The Department announced the first Regionalization Incentive Grant application cycle in October 2019. The grant is available for municipalities to connect and accept wastewater from a nearby facility that is struggling to meet clean water regulations. Each grant provides one hundred percent of the eligible costs.

Goal 2: Promote efficiency efforts both within and outside the agency to expedite the funding of projects.

The Department continues to engage in efforts to evaluate and streamline processes associated with the Clean Water SRF to reduce barriers to improve ease of participation. Policy and procedure changes during FFY 2020 that improved internal efficiency and enhanced customer service included implementation of an expedited planning grant process, transition from paper to electronic documents and financial approval processes and process time studies. Also, after streamlining of internal application review processes, the Department extended the annual Clean Water SRF application deadline that was previously January 15 to March 1.

Goal 3: Continue marketing and outreach to increase use of the CWSRF program.

The Department hosted two webinars on statewide infrastructure needs and funding opportunities for drinking water systems and wastewater treatment during FFY 2020. These workshops were attended by 140 local leaders, planners and elected officials. Attendees were educated on how to plan, pay for and build water infrastructure projects using financial assistance from state and federal agencies.

The Department also marketed the SRF programs with an exhibit at fall 2019 conferences. These events provide one-on-one discussion with operators, city clerks, mayors, engineers, and others on the financial assistance that the FAC can provide for their projects.

The Department offers planning grants to small communities through the Engineering Report Grant program. After the grant-funded engineering report is complete, Department staff discuss funding opportunities and SRF benefits with the system.

Goal 4: Manage projects and work effectively with participants to ensure projects proceed toward a binding commitment in a timely manner.

The Department employs six project managers who are responsible for coordinating closely with Clean Water SRF recipients and professional staff to ensure that projects proceed successfully to completion. This includes assisting with schedule development, monitoring progress, and identifying and resolving issues to ensure projects progress in a timely manner.

Goal 5: Continue to identify projects that qualify for green project reserve funding, in accordance with federal guidance.

The Department continues to identify projects that qualify for this funding and work with the recipients to guide each project to a successful implementation. The tables found under the Green Project Reserve (GPR) section provide details of the projects to date. As of September 30, 2020, the projects identified by the Department have met the GPR requirements for the FFY 2010 through 2017 capitalization grants.

## VII. Details of Activities

### Fund Financial Status

#### 1. Binding Commitments for the 2020 Reporting Period

Refer to Section III of this report for information regarding this reporting period’s binding commitments. Information regarding cumulative binding commitments is located in Section IV of this report.

Exhibit 2 lists the state’s obligation to make binding commitments in an amount equal to 120 percent of each quarterly capitalization grant payment and Exhibit 4 is a complete binding commitment list.

The table below lists seven projects which were initiated during this reporting period.

<b>FFY 2020 Project Construction Start Dates</b>			
<b>Recipient</b>	<b>Project #</b>	<b>Construction Start Date</b>	<b>Loan &amp; Grant Amount</b>
Boone County Regional Sewer District	C295375-26	10/01/2019	\$1,219,000
Carthage	C295809-01	11/27/2019	\$4,501,000
Lathrop Phase I	C295821-01	02/03/2020	\$3,034,000
Weston	C295814-01	02/03/2020	\$3,618,000
Northeast Public Sewer District	C295684-05	02/07/2020	\$5,000,000
Lathrop Phase II	C295821-02	06/01/2020	\$3,161,000
Rolla	C295836-01	06/18/2020	\$27,240,000

#### 2. Source of Funds

Since inception of the program through this reporting period, Missouri has received a total of \$1,331,977,631 in federal Clean Water SRF capitalization grants. Included are transfers from the EPA Construction Grants Program in the amount of \$8,938,132. Refer to Exhibit 1 for a list of the federal grant awards and transfers.

Prior to state fiscal year (SFY) 2005, Missouri secured the necessary 20 percent match requirement through general revenue appropriations or through the sale of Water Pollution Control Bonds authorized under Article III, section 37(e) of the Missouri Constitution. In order for the SRF to contribute toward the debt service of those bonds, the state created a new SRF account (Fund 0300) for the purpose of directly and immediately depositing state match proceeds from Water Pollution Control Bonds. Because the state match proceeds were deposited into this new SRF fund, the state was able to use interest earned from the Water and Wastewater Loan Revolving Fund to pay debt service on those bonds, creating a net savings for the state of Missouri. The amount of earned interest transferred out of the Water and Wastewater Loan Revolving Fund in the 2019 reporting period for the state match bond debt service was \$1,085,907.

During SFY 2005, Missouri began generating state match from the proceeds of Environmental Improvement and Energy Resources Authority (EI ERA) state match bond sales. Bonds are clearly identified as either project bonds or state match bonds.

In addition to the EPA capitalization grant and the state match, Missouri uses its repayment account (Fund 0602) to finance projects. Debt service repayments received during the reporting period totaled \$43,383,273 from reserve loans, \$39,358,391 from master trust transfers, \$719,955 from direct loans, and \$262,599 from the Missouri Agricultural Small Business Development Authority loans. The repayment account also received \$21,460,404 from leveraged bond refunding savings.

### 3. Disbursements

Each individual loan has its own loan account at the master trustee bank. Disbursements from these accounts for direct loan program participants totaled \$92,684,519 for the reporting period. Disbursements to grant recipients were made directly from the Department to each participant rather than going through the master trustee bank.

Disbursements through the master trustee bank to the direct loan participants from the Water and Wastewater Loan Fund (Fund 0649) totaled \$42,285,120, all of which came from federal capitalization grants. Disbursements through the master trustee bank to the direct loan participants from the Water and Wastewater Loan Revolving Fund (Fund 0602) totaled \$50,399,399. Disbursements from Fund 0602 and Fund 0649 for grants totaled \$2,663,776.

### 4. Revenue and Expenses

Fund revenues consisting of interest earnings on loans, investment interest, EPA grant draws, and administration fees totaled \$84,419,472.

Fund expenses, including administrative expenditures and bond interest expense, totaled \$26,632,437.

The program reports an increase in net position of \$57,787,035. This amount includes EPA grant revenue of \$43,898,674. Other program activity resulted in an increase in net assets of \$13,888,361. The unaudited statement of revenues, expenses, and changes in net position are reported in Exhibit 6.

5. Cash Draw Ratio (Proportionality)

Missouri used a cash flow model for the Clean Water SRF program during this reporting period. The federal capitalization grant was not used as security for the state match bonds. During the reporting period, state match funds were drawn prior to using any federal funds from the FFY 2019 capitalization grant. Once state match funds were utilized, the cash draws were 100 percent federal funds. This process followed EPA memorandum, Clarification of Cash Draw Rules for Leveraged SRF Programs (August 26, 2011).

6. Financial Statements

Exhibits 5, 6, 7 and 8 present the unaudited financial statements for the State of Missouri Clean Water SRF. The statements present financial activity for the reporting period. Corresponding footnotes immediately follow in Exhibit 9.

These financial statements account for all Clean Water SRF funds. The SRF accounts are the Water and Wastewater Loan Fund (Fund 0649), the Water and Wastewater Loan Revolving Fund (Fund 0602), the Administration Fee Fund (Fund 0568), the Water Pollution Control Bond and Interest Fund (Fund 0209), and the accounts held at various trustee banks. The statements include notes essential to the presentation.

7. Green Project Reserve (GPR)

Staff continue to discuss the GPR requirements with SRF applicants and consulting engineers to encourage the utilization of GPR components in proposed projects. The costs associated with GPR components are being applied to the oldest capitalization grant first until such time as the GPR requirement for that grant has been satisfied.

<b>Federal Fiscal Year</b>	<b>GPR Allocation</b>	<b>GPR Awarded</b>
2010	\$11,296,600	\$11,296,600
2011	\$ 8,187,200	\$ 8,187,200
2012	\$ 3,917,900	\$ 3,917,900
2013	\$ 3,700,900	\$ 3,700,900
2014	\$ 3,886,800	\$ 3,886,800
2015	\$ 3,866,900	\$ 3,866,900
2016	\$ 3,703,900	\$ 3,703,900
2017	\$ 3,675,400	\$ 3,675,400
2018	\$ 4,449,500	\$ -
2019	\$ 4,404,700	\$ -
2020	\$ 4,405,300	\$ -

The following projects have GPR project components and the associated costs applied towards the FFY 2010 capitalization grant GPR requirement.

Project #	Recipient	Loan Date	Loan/Grant Amount	GPR Amount	Energy Efficiency	Green Infrastructure
C295548-02	Joplin	1/26/11	\$26,000,000	\$5,001,000	\$5,001,000	\$ -
C295637-01	Waynesville	3/21/11	4,750,000	720,000	720,000	-

	Total		\$75,500,000	\$3,675,400	\$3,675,400	\$ -

No projects have been applied toward the FFY 2018, 2019 or 2020 capitalization grants GPR requirement during this reporting period. Last year's Annual Report inadvertently reported the MSD C295023-39 project to the FFY 2018 capitalization grant. Department staff determined that the project was assigned in error because the MSD loan closed prior to the capitalization grant award date. The two projects that were identified as GPR on the 2019 IUP did not close due to project delays. Once these projects close, the GPR requirements for FFY 2018, 2019, and 2020 capitalization grants will be met. With the FFY 2021 IUP, the Department will increase utilization of the Green Project Reserve by offering Water Quality Incentive Grants for green infrastructure.

## 8. Additional Subsidy

The following table lists the additional subsidy requirement for each Clean Water capitalization grant and the progress toward meeting the requirements.

<b>Federal Fiscal Year</b>	<b>Minimum Required</b>	<b>Maximum Allowed</b>	<b>Planned Amount</b>	<b>Awarded</b>
2010	\$8,461,153	\$28,196,314	\$10,608,161	\$10,608,161
2011	3,794,767	12,645,130	12,644,571	7,150,522
2012	3,201,185	4,804,661	3,266,140	3,266,140
2013	1,743,282	2,614,923	2,614,923	2,579,418
2014	2,115,106	3,172,658	3,172,658	3,090,786
2015	-	11,600,700	Up to \$4,000,000	1,799,071
2016	3,703,900	14,815,600	Up to \$5,703,900	5,251,259
2017	3,675,400	14,701,600	5,675,400	5,675,400
2018	4,449,500	17,798,000	6,449,500	198,810
2019	4,404,700	17,618,800	6,404,700	-
2020	4,405,300	17,621,200	8,855,860	-
<b>Total</b>	<b>\$39,954,293</b>	<b>\$145,589,586</b>	<b>\$69,395,813</b>	<b>\$39,619,567</b>

The Department has entered into binding agreements for additional subsidization in amounts that exceed the minimum requirements of the FFY 2010 to 2017 capitalization grants. The following table lists the recipients awarded additional subsidization as of September 30, 2020. All additional subsidization was provided in the form of grants.

Under the FFY 2020 capitalization grant, the Department elected to reserve up to \$8,855,860, to offer as additional subsidization. The FFY 2020 capitalization grant is included in the FFY 2021 Clean Water SRF IUP and as such will be reported on in the FFY 2021 Annual Report.

Recipient	Project Complete as of Sept. 30, 2020?	Amount Awarded	Award Date	Project

## 10. Subaward Reporting

The Department did not award any Clean Water SRF grants or loans that qualify for reporting under 2 CFR 200.331(d) during this reporting period.

### **Operating Agreement Conditions**

All current conditions and assurances agreed to in the Department and EPA's operating agreement are as stipulated in the previous year's annual report.

### **Compliance with Grant Conditions**

The Department continues to comply with all grant conditions. The following sections address specific compliance issues:

- **Lobbying:** Lobbying by grant recipients is restricted by Section 607(A) of P.L. 96-74 and the Anti-Lobbying Act, Section 319 of P.L. 101-121. The Department has not engaged in illegal lobbying and has not used grant funds to support lobbying.
- **Debarment:** The Department complies with the EPA's policy on debarment and suspension under assistance, loan and benefit programs. The Department has not solicited subagreements from debarred or suspended parties and has included notice of this policy in solicitations as required.
- **Disadvantaged Business Enterprises (DBE):** The Department complies with EPA's Guidance for Utilization of Small, Minority and Women's Business Enterprises. It has agreed to negotiate fair share goals. During the reporting period, the Department and all loan and grant recipients have complied with the requirements contained in 40 CFR, Part 33. The Department has submitted reports on disadvantaged business enterprise use as required based on the information received from loan and grant recipients. DBE reports were submitted to the EPA for the 2020 reporting period. The table below summarizes the DBE activity for Missouri's Clean Water SRF program for the reporting period.

<b>Assistance Activity 2020 Reporting Period</b>		
	<b>MBE</b>	<b>WBE</b>
Construction	\$14,646,080	\$10,943,798
Equipment	-	-
Services	-	972
Supplies	-	309,026
Total	\$14,646,080	\$11,253,796
Percent	9.4%	7.2%
Goal	10.0%	5.0%

- **Reporting:** The Department submits an annual report on the state of the Clean Water SRF and environmental benefits. This report fulfills the requirement of the annual report. The Department has entered the environmental benefits for each loan recipient into the Clean Water Benefits Reporting System.

- Use of recycled paper: The Department submits required reports to the EPA on recycled paper. This report is printed on recycled paper.
- Indirect costs: The Department complies with the negotiated indirect cost agreement and charges indirect costs in the year expended.

## **VIII. EPA Recommendations on Performance Evaluation Report/Annual Program Review**

Staff from EPA Region VII conducted a virtual program evaluation of the FFY 2019 Clean Water SRF program June 9 through 11, 2020. The final program evaluation report included the following recommendations and observations:

1. Missouri submitted the 2019 annual report December 31, 2019.
2. Compliments to Sara Pringer for her work to create an SRF-specific cash flow management modeling program during SRF year 2019. She presented the model last summer and provided an update during the 2019 review. The model shows that the Missouri's CWSRF could loan an average of \$191 million per year over the next 5 years.
3. Missouri's SRFs, with a total net position is approaching \$1.7 billion, received unmodified opinions with no findings or recommendations. With the dollar value of Missouri's SRFs and with Missouri SRFs receiving 22% of Region 7's 2020 budget, Region 7 appreciates MDNR's commitment to annual independent audits and using their modeling program to base financial management decisions.
4. MoDNR's project files contained all required documentation and our cash draw transaction testing review found no improper payments.
5. Missouri needs to increase loans in the CWSRF program. The financial sustainability discussion and charts in Section C.7. of this report give recommendations that Missouri needs to increase loans. EPA was pleased to hear Missouri has already closed on over \$60 million in loans and estimated at September 30, 2020 loans and grants would reach \$87 million. EPA looks forward to the loan update and compliments MDNR for their statewide, face-to-face financial workshops and internal process improvement work and encouraged that such steps will increase loan demand.

## **IX. Program Changes**

There are no notable changes to report during this reporting period.

## **X. Proposed Improvements**

The Department's Financial Assistance Center engages in continual marketing efforts intended to communicate the benefits of the Clean Water SRF program. The Department also continues to evaluate the program's administrative procedures to streamline processes and improve customer service.

## **XI. Programs Outside the State Revolving Fund**

No state Water Pollution Control Bonds were issued during the reporting period.

### **Forty Percent Construction Grant Program**

This program can fund up to 40 percent of the eligible project costs and is generally targeted to the more economically disadvantaged and smaller communities. No state funds were available for this program during the reporting period.

### **Rural Sewer Grants**

The Rural Sewer Grant program was established by Missouri voters in 1998 with passage of Article III, Sections 37(g) of the Missouri Constitution. The Constitution authorizes the Board of Fund Commissioners to issue Water Pollution Control Bonds with approval from the General Assembly. Between SFY's 2000 and 2007, General Obligation bond proceeds were generated through budget legislation for the purpose of providing rural water and sewer grants and loans. Proceeds from the last bond sale were fully expended through grants and loans in 2009. The program was inactive due to a lack of funding until 2014, when the Department began funding it with Clean Water SRF administration fees. Eligible project types include providing centralized sewers to unsewered areas or upgrading facilities to meet more stringent requirements for wastewater treatment. During this reporting period, the Department had limited funding available for Rural Sewer Grants.

At the end of the reporting period, the Department has planned for up to \$2.5 million from Administration Fee Fund 0568 for Rural Sewer Grant funding in FFY 2021, which will be the end of the Rural Sewer Grant allocation. No Rural Sewer Grants were made from Administration Fee Fund 0568 prior to the 2015 reporting period. Cumulatively, the Department has awarded 25 Rural Sewer Grants totaling \$7,536,673, funded from Administration Fee Fund 0568. Cumulative disbursements totaled \$6,767,615 with disbursements for this reporting period totaling \$2,280,475.

### **State Direct Loans**

Eligible applicants are small communities that are currently experiencing financial difficulties or that have a small financial need. These applicants would not typically qualify for assistance through the Clean Water or Drinking Water SRF programs. Direct loans available to communities consist of small borrower loans and direct loans. Small borrower loans are limited to \$100,000 and are for drinking water and wastewater projects for communities of less than 1,000 in population. State direct loans may also be funded with repayments of prior direct loan proceeds.

During the reporting period, the Department did not enter into any state direct loans or small borrower loans.

### **Stormwater Grants and Loans**

The Storm Water Grant and Loan program was established by Missouri voters in 1998 with passage of Article III, Section 37(h) of the Missouri Constitution. The Constitution authorizes

the Board of Fund Commissioners to issue stormwater bonds with approval from the General Assembly. Between SFY's 2000 and 2002, \$45,000,000 in stormwater bond proceeds were generated through bond sales authorized by the General Assembly through budget legislation. Proceeds from the last stormwater bond sale were fully expended through grants and loans in 2007. Since that time, the fund has been growing with loan repayments and interest from the loans made with bond proceeds. During this reporting period, the fund balance was over \$9 million, and the Department determined funds were sufficient enough to offer to eligible recipients. Therefore, the Department offered approximately \$9 million to first class counties, entitlement cities and the Metropolitan St. Louis Sewer District for stormwater projects. During the reporting period, the Department awarded 5 Stormwater Grants totaling \$3,519,421, funded from the Stormwater Loan Revolving Fund 0754. Disbursements for this reporting period total \$4,061.

### **Small Community Engineering Assistance Program Grants**

The Small Community Engineering Assistance Program (SCEAP) provides grants to municipalities, counties, public sewer or water districts, political subdivisions or instrumentalities of the state with a population of less than 10,000. The grants provide funding for wastewater engineering costs incurred in preparation of a facility plan or engineering report. Communities may be eligible to receive an 80 percent grant with a 20 percent recipient match, while disadvantaged communities may be eligible to receive a 90 percent grant with a 10 percent recipient match. The maximum grant amount may not exceed \$50,000.

Through the reporting period, the Department budgeted for up to \$7.8 million for SCEAP grants. The funds for this program are budgeted from the Administration Fee Fund 0568. Cumulatively, the Department has awarded 194 SCEAP grants totaling \$7,786,083, funded from Administration Fee Fund 0568. During the reporting period, the Department awarded 25 SCEAP grants totaling \$1,143,584.

Cumulative disbursements totaled \$6,673,335 with disbursements for this reporting period totaling \$851,350.

**Clean Water SRF Capitalization Grant Awards**

FFY	Grant ID	Transfers	Allotment (less 604b)	Award Amount	Cumulative

## **XII. Management’s Discussion and Analysis**

The following is the discussion and analysis of the financial activities for the Missouri Department of Natural Resources’ Clean Water State Revolving Fund (SRF) Program for the year ended September 30, 2020. Readers are encouraged to consider the information presented here in conjunction with additional information that is furnished in the Notes to the Financial Statements.

### **Financial Highlights**

The assets and deferred outflows of resources of the program exceeded liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$1,493,416,247 (net position). Net position consists of federal capitalization grant contributions of \$1,286,383,792, state match contributions of \$100,736,278, and net income of \$106,296,177 since the inception of the program. The net position of the program is all restricted. The program’s enabling legislation and related regulations require that all money in the fund may be used only for purposes of the program.

Total assets decreased by \$15,960,491 from \$1,882,336,287 on September 30, 2019, to \$1,866,375,796 on September 30, 2020. The enterprise funds’ assets decreased \$15,282,415 and the agency fund assets decreased \$678,076. Explanations for these changes are detailed in the Financial Analysis section.

Total liabilities decreased \$76,847,001. The majority of the decrease was from a reduction in bonds payable. Bonds payable decreased \$75,999,997 because the program has changed from primarily a leveraged loan program to a direct loan program and a refunding bond was issued during this reporting period.

During this reporting period, the program’s total net position increased \$57,787,035. Of this amount, \$43,898,674 is capital contributions from the Environmental Protection Agency and \$13,888,361 is the current period’s income.

### **Overview of the Financial Statements**

The discussion and analysis are intended to serve as an introduction to the Department’s Clean Water SRF program’s basic financial statements. The program’s basic financial statements are comprised of two components: 1) proprietary and fiduciary fund financial statements; and 2) notes to the financial statements.

The proprietary and fiduciary fund financial statements include a statement of net position; a statement of revenues, expenses and changes in net position; a statement of cash flows; and a statement of fiduciary net position.

- The statement of net position presents the assets, deferred outflows of resources, liabilities, deferred inflows of resources and net position of the program. Assets consist of cash and cash

equivalents, administration fees receivable, federal capitalization grant funds receivable, interest receivable from loans and investments, and loans receivable. Deferred outflows of resources consist of the deferred charge on refunding and the deferred outflows for pension and other post-employment benefits (OPEB). Liabilities include accounts payable, bonds payable, net pension, net OPEB, and bond interest payable. Deferred inflows of resources consist of the deferred inflows for pension and OPEB. Net position includes the federal capitalization grant contributions, the state match contributions, and the excess earnings of the program's operations since inception.

- The statement of revenues, expenses and changes in net position presents information showing how the program's net position changed during the reporting period. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows.
- The statement of cash flows is provided to identify the sources and the uses of cash during the reporting period and to demonstrate that the program has sufficient cash to meet its obligations.
- The statement of fiduciary net position provides information about the program's agency fund. The agency fund consists of the assets and liabilities related to the loan funds that are held at trustee banks on behalf of the loan participants.

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the fund financial statements.

## Financial Analysis

1. The following section displays the current and prior year financial statements of the loan fund and describes some of the major reasons for the changes.

### Loan Fund Net Position

	2020	2019	Percent Change
Current assets	\$ 612,173,026	\$ 574,629,346	7%
Non-current assets	1,215,152,756	1,266,340,380	-4%
Total assets	1,827,325,782	1,840,969,726	-1%
Deferred outflows	11,283,469	14,198,049	-21%
Total assets and deferred outflows	1,838,609,251	1,855,167,775	-1%
Current liabilities	68,870,907	73,657,776	-6%
Non-current liabilities	309,273,043	381,138,634	-19%
Total liabilities	378,143,950	454,796,410	-17%
Deferred inflows	17,292	40,737	-58%
Total liabilities and deferred inflows	378,161,242	454,837,147	-17%
Net position	\$ 1,460,448,009	\$ 1,400,330,628	4%

The loan fund net position increased \$60,117,381 from the previous year. The major reasons for the increase:

- Loans receivable decreased by \$55,364,339.
- Cash and cash equivalents increased by \$42,953,734.
- Bonds payable decreased by \$75,999,997.

### Changes in Loan Fund Net Position

	2020	2019	Percent Change
Operating revenues	\$ 28,016,847	\$ 30,781,265	-9%
Operating expenses	4,521,051	2,403,032	88%
Operating income	23,495,796	28,378,233	-17%
Non-operating revenues (expenses)	36,621,585	33,368,019	10%
Increase in net position	60,117,381	61,746,252	-3%
Net position, beginning of year	1,400,330,628	1,338,584,376	5%
Net position, end of year	\$ 1,460,448,009	\$ 1,400,330,628	4%

Operating expenses of the loan fund increased 88 percent. An increase in salaries and benefits and an increase in disbursements to grant recipients were the contributing factors for the increase in the amount of \$2,118,019.

### Loan Fund Cash Flows

	2020	2019	Percent Change
Cash flows from operating activities	\$ 79,813,806	\$ 120,098,283	-34%
Cash flows from non-capital financing activities	(43,926,357)	(18,370,249)	139%
Cash flows from investing activities	7,066,285	7,516,425	-6%
Increase in cash and cash equivalents	42,953,734	109,244,459	-61%
Cash and cash equivalents, beginning of year	417,578,526	308,334,067	35%
Cash and cash equivalents, end of year	\$ 460,532,260	\$ 417,578,526	10%

A number of factors caused a change in the loan fund cash flow amounts between the 2019 and the 2020 reporting period. The main contributing factors were a decrease in operating activities and an increase in noncapital financing activities:

- Grant disbursements increased \$1,668,761.
- Loan disbursements increased \$32,412,819.
- Repayments received on loans decreased \$2,883,521.
- New refunding bond issued in the amount of \$69,771,571.
- Bond principal retired increased \$74,844,500.

2. The following section displays the current and prior year financial statements of the administration fee fund and describes some of the major reasons for the changes.

#### Administration Fee Fund Net Position

	2020	2019	Percent Change
Current assets	\$ 35,963,090	\$ 37,587,694	-4%
Capital assets	15,400	29,267	-47%
Total assets	35,978,490	37,616,961	-4%
Deferred outflows	372,145	620,527	-40%
Total assets and deferred outflows	36,350,635	38,237,488	-5%
Current liabilities	556,522	693,751	-20%
Non-current liabilities	2,741,600	2,120,836	29%
Total liabilities	3,298,122	2,814,587	17%
Deferred inflows	84,275	124,317	-32%
Total liabilities and deferred inflows	3,382,397	2,938,904	15%
Net position	\$ 32,968,238	\$ 35,298,584	-7%

Net position of the administration fee fund decreased \$2,330,346. The net position change reflects an overall cash balance decrease resulting from fund expenditures exceeding income.

#### Changes in Administration Fee Fund Net Position

	2020	2019	Percent Change
Operating revenues	\$ 5,656,155	\$ 6,024,405	-6%
Operating expenses	8,371,971	6,517,287	28%
Operating loss	(2,715,816)	(492,882)	451%
Non-operating revenues (expenses)	385,470	674,273	-43%
Increase (Decrease) in net position	(2,330,346)	181,391	-1385%
Net position, beginning of year	35,298,587	35,116,256	1%
Prior period adjustment	(3)	937	-100%
Net position, end of year	\$ 32,968,238	\$ 35,298,584	-7%

Operating expenses increased \$1,854,684, and operating revenues decreased \$368,250. Operating expenses increased in part because of more grant disbursements to recipients.

### Administration Fee Fund Cash Flows

	<b>2020</b>	<b>2019</b>	<b>Percent Change</b>
Cash flows from operating activities	\$ (1,837,318)	\$ (624,313)	194%
Cash flows from capital and related financing activities	-	(7,967)	-100%
Cash flows from investing activities	433,699	710,526	-39%
Increase (Decrease) in cash and cash equivalents	(1,403,619)	78,246	-1894%
Cash and cash equivalents, beginning of year	35,472,418	35,394,172	0%
Cash and cash equivalents, end of year	<u>\$ 34,068,799</u>	<u>\$ 35,472,418</u>	-4%

Grant disbursements increased by \$1,634,172, administration fees received decreased by \$326,585, payments to employees decreased by \$410,028, and other administrative payments decreased by \$371,510 in this reporting period. Overall, administration fees received were less than expenses resulting in cash and cash equivalents decreasing by \$1,403,619 in this reporting period.

- The following section displays the current and prior year assets and liabilities of the agency fund.

### Agency Fund

	<b>2020</b>	<b>2019</b>	<b>Percent Change</b>
Assets	\$ 3,071,524	\$ 3,749,600	-18%
Liabilities	3,071,524	3,749,600	-18%
Net Position	<u>\$ -</u>	<u>\$ -</u>	0%

The agency fund assets and liabilities decreased 18 percent because the program is now funding new loans on a payment-by-payment basis instead of placing 100 percent of the loan funds at a trustee bank at the time of the loan closing. The remaining agency funds consist of the applicant's unspent loan funds and debt service reserve funds.

**Note 1: Summary of Significant Accounting Policies**

**Reporting Entity**

The Department's Clean Water SRF program was established pursuant to Title VI of the Federal Water Quality Act of 1987. The act established the Clean Water SRF program to replace the construction grants program to provide loans at reduced interest rates to finance the construction of publicly-owned water pollution control facilities, nonpoint source pollution control projects, and estuary management plans. The Clean Water SRF program provides low-interest rate loans and grants to finance the eligible costs of qualified projects. The Clean Water SRF program provides a flexible financing source that can be used for a variety of pollution control projects, including nonpoint source pollution control projects, and developing estuary conservation and management plans. Loans typically are repaid within 20 years, and all repayments, including interest and principal, must remain in the SRF loan fund, except for qualifying expenses. Loan terms can also be extended to 30 years, not to exceed the useful life of the project, if the applicant is experiencing a significant financing challenge.

The Clean Water SRF program was capitalized by the U.S. Environmental Protection Agency (EPA) through a series of grants starting in 1988. For most of the grants, states are required to provide an additional 20 percent of the federal capitalization grant as matching funds in order to receive the grant. As of September 30, 2020, Congress had authorized the EPA to award \$1,331,977,631 in capitalization grants to the State of Missouri. The state is required to contribute \$241,170,565 in matching funds.

The program is administered by the Department, the Missouri Environmental Improvement and Energy Resources Authority (EIERA), and the Missouri Clean Water Commission. The EIERA issues bonds or notes to finance qualified projects, and the Department receives the capitalization grants from the EPA. The program is comprised of four funds within the state and an agency fund that holds the construction loan funds. The state funds are:

- Water and Wastewater Loan Fund (Fund 0649) – receives the federal capitalization grant funds and uses those funds to make grants and loans and to pay some of the program's administrative expenses;
- Water and Wastewater Loan Revolving Fund (Fund 0602) – receives loan repayments and uses those funds to make new loans;
- Water Pollution Permit Fee Fund (Fund 0568) – receives the loan fees charged to borrowers and pays the administrative expenses of the program and other eligible expenses for water quality purposes. This fund is also referred to as the administration fee fund;
- Water Pollution Control Bond and Interest Fund – A2010 (Fund 0209) – holds the funds that will be used to pay debt service on the Series A2010 state match bond.

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Unaudited  
Exhibit 9**

**Note 1: Summary of Significant Accounting Policies (continued)**

The agency fund accounts for the monies held at trustee banks on behalf of the loan participants. This includes the funds generated by the sale of bonds that are deposited with a trustee bank in the applicant's name and are used for SRF eligible activities, their unspent loan funds, debt service reserve funds, as well as the rebate funds held for arbitrage payments.

The State of Missouri's statewide Comprehensive Annual Financial Report includes the Clean Water SRF program as a special revenue fund, which uses the modified accrual basis of accounting. Due to differences in reporting methods, there may be differences between the amounts reported in these financial statements and the Comprehensive Annual Financial Report. One major difference between the amounts reported in these financial statements and the Comprehensive Annual Financial Report is that the agency fund is not included in the Comprehensive Annual Financial Report but is shown in these financial statements. Another difference is the difference in reporting period.

**Program Operations**

The program provides financing to participants using three main types of funding: leveraged and reserve loans, direct loans, and grants.

**A. Leveraged and Reserve Loans**

Prior to State Fiscal Year (SFY) 2010, the program's main type of financing was leveraged and reserve loans. Missouri leveraged federal and state matching funds by issuing revenue bonds to make loans to qualified communities and by using federal grant and state matching funds to create reserves for the loans. Interest earned on the reserves subsidizes loan interest rates and enhances the security of the loans, which are pledged to repay bond principal and interest. Borrowers, in essence, received two loans from the Clean Water SRF program: 1) a market-rate loan funded by the revenue bond proceeds that equaled project construction costs; and 2) a zero-rate loan funded by capitalization grants and state matching funds that equaled 70 percent of the project loan (50 percent prior to 1993). Bond proceeds were deposited to the construction loan funds held by the trustee bank. As communities drew on these funds to pay construction costs, the reserve accounts were funded. For loans closed in SFY 2009, the reserve accounts were funded at closing rather than as construction funds were released. Earnings in the reserve account reduced the borrower's net interest payments on the bonds, resulting in the subsidized, blended interest rate on the project loan.

Beginning with bond series 2004C, a portion of the revenue bonds sold to fund the leveraged loans were state match bonds that will be repaid with interest earnings on the loans. The state match bond proceeds were used to fund a portion of the construction loan account, while the reserve account was funded with federal grant and recycled funds.

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Unaudited  
Exhibit 9**

**Note 1: Summary of Significant Accounting Policies (continued)**

**B. Direct Loans**

Direct loans that were closed prior to SFY 2010 were funded up front from recycled funds. Loan proceeds were deposited to the construction loan accounts held by the trustee bank. As construction costs were incurred, funds were released from the trustee bank to the borrower. During SFY 2010, the program changed how direct loans are funded. Instead of depositing 100 percent of the loan proceeds in a trustee bank at the time of closing, the loan is funded incrementally. Similar to a line of credit, funds are requested by the loan recipient as construction costs are incurred.

**C. Grants**

Missouri was awarded the American Recovery and Reinvestment Act (ARRA) capitalization grant during SFY 2010. The terms and conditions of the ARRA capitalization grant required that not less than 50 percent of assistance provided be in the form of additional loan subsidies, such as principal forgiveness, negative interest loans, or grants. Missouri chose to provide the required additional subsidization through grants. ARRA projects were funded through a combination of 50 percent grant and 50 percent loan with a maximum grant of \$3,000,000 per applicant. Disadvantaged communities were eligible for a 75 percent grant with a 25 percent direct loan.

Missouri has chosen to provide the additional subsidization through grants. The following table lists the ranges at which additional subsidization is required:

<b>Federal Fiscal Year</b>	<b>Clean Water Capitalization Grant</b>	<b>Fiscal Year Awarded</b>	<b>Percentage</b>	<b>Planned Amount</b>	<b>Actual Amount Awarded</b>
2010	CS290001-15	2011	Not < than 14.98%	\$10,608,161	\$10,608,161

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Unaudited  
Exhibit 9**

**Note 1: Summary of Significant Accounting Policies (continued)**

**Basis of Accounting**

The financial statements include enterprise funds and a fiduciary fund. The loan and administration fee funds are presented as enterprise funds and the agency fund is presented as a fiduciary fund. All funds are maintained on the accrual basis. The enterprise funds are accounted for using the flow of economic resources measurement focus. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded at the time the liabilities are incurred. All assets, deferred outflows of resources, deferred inflows of resources, and liabilities associated with the operations of the loan and administration fee funds are included on the statement of net position. The assets and liabilities of the agency fund are included on the statement of fiduciary net position. Fiscal year end accruals include expenditures the program was cognizant of through November 6, 2020.

The Clean Water SRF program reports the following major funds:

*Loan Fund.* The loan fund provides financial assistance to municipalities, counties, political subdivisions, and instrumentalities of the state, and in some cases individuals, small business owners, and others in the private sector. Funding is generated from federal capitalization grants, proceeds of revenue bonds issued to provide required state matching monies, proceeds of revenue bonds issued for the leveraged program, and recycled monies.

*Administration Fee Fund.* This fund accounts for the administration fees received on loans and the use of those fees to pay salaries and associated expenses of program personnel devoting time to the administration of the program. This fund is also available for eligible water quality purposes as defined in the Intended Use Plan (IUP).

In addition, the program reports the following fund type:

*Agency Fund.* This fund accounts for monies held on behalf of municipalities, counties, political subdivisions, and instrumentalities of the state. This includes the funds generated by the sale of bonds, which are deposited with a trustee bank in the applicant's name and are used for SRF eligible activities, their unspent loan funds, debt service reserve funds, as well as the rebate funds held for arbitrage payments.

**Cash, Cash Equivalents, and Investments**

**A. Enterprise Funds**

All monies in the state funds (Funds 0209, 0568, 0602, and 0649) are required to be deposited with the Missouri State Treasurer's Office, which is responsible for maintaining these deposits in accordance with state law. The program considers all such deposits to be cash. Investment

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Unaudited  
Exhibit 9**

**Note 1: Summary of Significant Accounting Policies (continued)**

interest earnings on these deposits are received by the program periodically throughout the month. According to state law, the treasurer is responsible for maintaining the cash balances and investing excess cash of the program, as further discussed in Note 2. Consequently, management of the program does not have any control over the investment of the excess cash. The statement of cash flows considers all funds deposited with the treasurer to be cash or cash equivalents, regardless of actual maturities of the underlying investments.

Monies of the Enterprise Funds that are held at the trustee bank in the master trust bond expense fund and the main bond debt service funds are invested in money market mutual funds by the trustee bank and are considered to be cash or cash equivalents. This does not include monies held at trustee banks on behalf of the loan participants. Those monies are accounted for under the Agency Fund.

**B. Agency Fund**

The Agency Fund accounts for the monies held at trustee banks on behalf of the loan participants. This includes the funds generated by the sale of bonds that are deposited with a trustee bank in the applicant's name and are used for SRF eligible activities, their unspent loan funds, debt service reserve funds, as well as the rebate funds held for arbitrage payments. The program considers all highly liquid investments with original maturities of three months or less to be cash equivalents.

**Operating Revenues and Expenses**

Revenues and expenses as a result of providing grants and loans to participants are considered operating revenues and expenses. Operating revenues include interest earned on loans and administration fee revenue. Operating expenses include grant payments and accruals, salaries, benefits, depreciation, and other administrative expenses. The non-operating revenues and expenses of the Clean Water SRF program are the EPA capitalization grant revenues, investment income, contributions from the State of Missouri and bond related expenses.

Administrative expenses to manage and operate the Clean Water SRF program and other water quality purposes include staff salaries of \$4,692,188.

**Administration Fees**

The program charges an administration fee to borrowers to fund administrative costs of operating the program and other water quality purposes. During the year ending September 30, 2020, \$5,827,118 was collected for administration fees from borrowers, \$433,699 of investment interest was received, and \$4,460,955 was paid for administrative expenses from the administration fee fund. The cash balance of the administration fee fund was \$34,068,799 as of September 30, 2020.

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Unaudited  
Exhibit 9**

**Note 1: Summary of Significant Accounting Policies (continued)**

**Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Missouri State Employees' Retirement System (MOSERS) and additions to or deductions from MOSERS' fiduciary net position have been determined on the same basis as they are reported by MOSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**Bonds Payable**

Revenue bonds issued prior to 2010 are special limited obligations of the EI ERA, payable from borrower loan repayments and a reserve account established for each borrower (equal to 70 percent of the outstanding bond principal), in accordance with a master trust agreement. Interest expense is reported on the accrual basis. Due to the flow-through effect of the bonds and related receivables, bond discounts, premiums, and issuance costs are not reported by the program since they represent the costs to the borrowers.

Borrowers make monthly payments to debt service repayment accounts, which also earn interest that further subsidizes the interest rates. On bond payment dates, transfers are made from the repayment accounts to the debt service funds to make the semi-annual interest payments and annual bond principal payments. Interest earnings on the construction loan accounts and reserve accounts are also transferred to the debt service funds on the bond payment dates. These interest earnings reduce the amount that is needed from the repayment accounts.

As outstanding bond principal is reduced, a proportional amount is released from the reserve account. The released amounts flow to the master trust unallocated fund, and, if there are no loan defaults, are transferred to the Water and Wastewater Loan Revolving Fund to be used to make new loans.

Bonds issued since 2010 are different than those issued before 2010. There is no longer a direct link between the bonds and the loans. Any premium or cost of issuing the bonds is no longer passed on to the loan borrower. Therefore, those amounts are reported on the program's financial statements.

State match bonds that are immediately and directly deposited inside the Clean Water SRF program, and that will be repaid using Clean Water SRF program interest earnings, are recorded as bonds payable. The first state match bonds that met this criteria were sold in August 2002.

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Unaudited  
Exhibit 9**

**Note 1: Summary of Significant Accounting Policies (continued)**

State general obligation bonds sold prior to August 2002 were used to provide state match for the Clean Water SRF program and were initially repaid with state general revenue funds rather than Clean Water SRF program interest earnings. Therefore, the state general obligation bonds were recorded as contributed capital as the state funds were transferred into the Water and Wastewater Revolving Loan Fund. They were not recorded as Clean Water SRF program bonds payable because the Clean Water SRF program was not obligated to repay them. During SFY 2007, the EPA approved the use of Clean Water SRF program interest earnings to pay debt service on the bonds issued prior to 2002. No interest earnings were used to pay debt service on these bonds during 2020. The obligation to repay the remainder of the bonds still rests with the State and not the Clean Water SRF program. The amount of interest earnings used to repay the bonds will be appropriated each year based on the amount of available interest and will not necessarily be for the full amount of debt service due on the bonds. As such, the bonds are not considered Clean Water SRF program bonds payable and the amount paid with the Clean Water SRF program interest earnings each year will be expensed.

**Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The program has three items that qualify for reporting in this category. Those are the deferred charge on refunding and the deferred outflows for pension and OPEB reported in the statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The program has two items that qualify for reporting in this category, which are deferred inflows for pension and OPEB.

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Unaudited  
Exhibit 9**

**Note 1: Summary of Significant Accounting Policies (continued)**

**Pending Governmental Accounting Standards Board Statements**

GASB Statement No. 84

GASB Statement No. 84, *Fiduciary Activities*, improves guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The statement establishes criteria for identifying fiduciary activities, with the focus of the criteria on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. An activity meeting the criteria should be reported in a fiduciary fund. The requirements of this statement are effective for periods beginning after December 15, 2019. GASB Statement No. 95 postpones by one year the effective dates of certain provisions of this statement.

GASB Statement No. 91

GASB Statement No. 91, *Conduit Debt Obligations*, was issued May 2019. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. This Statement also addresses arrangements—often characterized as leases—that are associated with conduit debt obligations. In those arrangements, capital assets are constructed or acquired with the proceeds of a conduit debt obligation and used by third-party obligors in the course of their activities. Payments from third-party obligors are intended to cover and coincide with debt service payments. During those arrangements, issuers retain the titles to the capital assets. Those titles may or may not pass to the obligors at the end of the arrangements. This Statement requires issuers to disclose general information about their conduit debt obligations, organized by type of commitment, including the aggregate outstanding principal amount of the issuers' conduit debt obligations and a description of each type of commitment. Issuers that recognize liabilities related to supporting the debt service of conduit debt obligations also should disclose information about the amount recognized and how the liabilities changed during the reporting period. The requirements of this Statement are effective for reporting periods beginning after December 15, 2021. GASB Statement No. 95 postpones by one year the effective dates of certain provisions of this statement.

GASB Statement No. 92

GASB Statement No. 92, *Omnibus 2020*, was issued January 2020. The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified

**Missouri Department of Natural Resources**  
**Clean Water State Revolving Fund**  
**Notes to the Financial Statements – Unaudited**  
**Exhibit 9**

**Note 1: Summary of Significant Accounting Policies (continued)**

during implementation and application of certain GASB Statements. The requirements of this Statement are effective for reporting periods beginning after June 15, 2020. GASB Statement No. 95 postpones by one year the effective dates of certain provisions of this statement.

GASB Statement No. 93

GASB Statement No. 93, *Replacement of Interbank Offered Rates*, was issued March 2020. Some governments have entered into agreements in which variable payments made or received depend on an interbank offered rate (IBOR)—most notably, the London Interbank Offered Rate (LIBOR). As a result of global reference rate reform, LIBOR is expected to cease to exist in its current form at the end of 2021, prompting governments to amend or replace financial instruments for the purpose of replacing LIBOR with other reference rates, by either changing the reference rate or adding or changing fallback provisions related to the reference rate. The requirements of this Statement are effective for reporting periods beginning after June 15, 2020 and December 31, 2021. GASB Statement No. 95 postpones by one year the effective dates of certain provisions of this statement.

GASB Statement No. 94

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, was issued March 2020. The primary objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). As used in this Statement, a PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. Some PPPs meet the definition of a service concession arrangement (SCA), which the Board defines in this Statement as a PPP in which (1) the operator collects and is compensated by fees from third parties; (2) the transferor determines or has the ability to modify or approve which services the operator is required to provide, to whom the operator is required to provide the services, and the prices or rates that can be charged for the services; and (3) the transferor is entitled to significant residual interest in the service utility of the underlying PPP asset at the end of the arrangement. The requirements of this Statement are effective for reporting periods beginning after June 15, 2022, and all other reporting periods thereafter.

GASB Statement No. 95

GASB Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*. The Statement is intended to provide relief to governments and other stakeholders in light of the COVID-19 pandemic.

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Unaudited  
Exhibit 9**

**Note 1: Summary of Significant Accounting Policies (continued)**

GASB Statement No. 96

GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*, was issued May 2020. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, *Leases*, as amended. The requirements of this Statement are effective for reporting periods beginning after June 15, 2022, and all other reporting periods thereafter.

GASB Statement No. 97

GASB Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – an amendment of GASB Statements No. 15 and No. 84, and a supersession of GASB Statement No. 32*, was issued June 2020. The primary objectives of this Statement are to (1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans. Certain requirements of this Statement are effective immediately while others are effective for reporting periods beginning after June 15, 2021.

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Unaudited  
Exhibit 9**

**Note 2: Cash, Cash Equivalents, and Investments**

**State Funds**

All cash in the state funds (Funds 0209, 0568, 0602, and 0649) is required to be deposited with the State Treasurer, who is responsible for maintaining and investing the pooled cash balances in accordance with state laws. The treasurer is required to maintain a mix of investments in order to allow funds to be withdrawn at any time to meet normal operating needs. The program's share of the investment income from the local government investment pool is based on the average daily balance for the period and is credited to the program periodically throughout the month. The treasurer has its own policies for custodial credit risk, interest rate risk, credit risk, concentration of credit risk, and foreign currency risk. Details of the investments and risks can be obtained from the State Treasurer's Office.

All cash and investments in the local investment pool are stated at cost, which approximates fair market value. The investments in the local government investment pool are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book entry form.

**Trustee Bank Funds**

All cash and investments held by trustee banks are invested in accordance with the trustee investment agreement and the bond indentures. Allowable investments include:

- Federal securities
- Direct and general obligations of the State which are pledged by the full faith and credit of the State and are rated in either of the two highest rating categories
- Deposits at banks, trust companies, or savings and loan associations which are fully insured by the Federal Deposit Insurance Corporation (FDIC)
- Federal funds, unsecured certificates of deposit, time deposits, and bankers acceptances (having maturities of not more than 365 days) of any bank and which are rated in the highest short-term rating category
- Unsecured promissory notes of any bank, trust company, national banking association, or bank holding company equal in quality to such institution's outstanding unsecured long-term debt that is rated in the highest rating category
- Tax exempt permitted investments
- Any other investment agreement with a provider which is rated, or whose unsecured, long-term obligations are rated at least "Aa2" or equivalent, or with a provider whose obligations are guaranteed by a guarantor which is rated, or whose unsecured, long-term obligations are rated at least "Aa2" or equivalent
- Commercial paper issued by domestic corporations rated in the second highest short-term rating category
- Shares in money market mutual funds rated in the highest applicable rating category

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Unaudited  
Exhibit 9**

**Note 2: Cash, Cash Equivalents, and Investments (continued)**

*Custodial credit risk.* This is the risk that, in the event of the failure of the counterparty, the program will not be able to recover the value of its deposits or investments. There are no cash and cash equivalents held by the trustee banks that were exposed to custodial credit risk. Also, no cash and cash equivalents were invested in money market mutual funds.

*Interest rate risk.* Interest rate risk is the risk that changes in interest rates may adversely affect the investment’s fair value. The program does not have a policy to address interest rate risk.

*Credit risk.* The trustee banks are responsible for monitoring credit risk as it relates to the types of investments that can be made in accordance with the trustee investment agreement. The program has no investment policy that further limits its investment choices.

*Concentration of credit risk.* The program places no limit on the amount that may be invested with any one issuer. The percent of total investments held by each provider during the reporting period as of September 30, 2020, was as follows:

Investment Issuer	Fair Value	Percent of Total
Trinity Plus Funding Company LLC	\$ 318,500	100%

*Fair Value Measurement.* The Clean Water SRF program categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

As of September 30, 2020, the Clean Water SRF program’s guaranteed investments of \$318,500 and government agency and state and local government fixed income securities of \$1,528,534 were valued using pricing of similar assets in markets that were not active (Level 2 input).

As of September 30, 2020, the loan fund had the following investments:

Investment Type	Fair Value	Investment Maturities		
		<1 Year	1-5 Years	>5 Years
Guaranteed Investment	\$ 318,500	\$ 318,500	\$ -	\$ -
Gov’t Agency & State and Local	1,528,534	-	1,528,534	-
Total	\$ 1,847,034	\$ 318,500	\$ 1,528,534	\$ -

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Unaudited  
Exhibit 9**

**Note 3: Loans Receivable**

Loans receivable consist of: leveraged loans, reserve loans, direct loans and nonpoint source loans. Leveraged loans are funded by the sale of revenue bonds, the proceeds of which are deposited to a construction loan fund. Borrowers are loaned funds from the construction loan fund to pay for construction costs incurred. The terms of the loans mirror the terms of the bonds in order to provide the funds to pay bond interest and principal according to the terms of the bonds. In conjunction with the leveraged loan that funds construction, a reserve loan is made to provide an interest subsidy to the borrower and to provide security for bond principal and interest. With direct loans, there is no bond sale directly related to the loan. The loans are funded directly from the federal capitalization grant or recycled monies. The following details the types of loans as of September 30, 2020:

Loan Type	Loan Amount Authorized	Outstanding Balance
Leveraged	\$1,730,092,661	\$ 293,070,000
Reserve	1,164,691,027	202,614,658
Direct	1,368,865,236	860,228,221
Nonpoint Source	20,342,890	1,152,686
Total	<u>\$4,283,991,814</u>	1,357,065,565
Less Current Maturities		143,441,343
Loans Receivable, Net of Current Portion		<u>\$1,213,624,222</u>

Loans receivable activity during the period ended September 30, 2020, is summarized as follows:

Loan Type	Sept. 30, 2019			Sept. 30, 2020
	Balance	Disbursements	Repayments	Balance
Leveraged	\$ 353,175,000	\$ -	\$ 60,105,000	\$ 293,070,000
Reserve	245,100,375	-	42,485,717	202,614,658
Direct	812,471,661	92,684,519	44,927,959	860,228,221
Nonpoint Source	1,682,868	-	530,182	1,152,686
Total	<u>\$1,412,429,904</u>	<u>\$92,684,519</u>	<u>\$148,048,858</u>	<u>\$1,357,065,565</u>

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Unaudited  
Exhibit 9**

**Note 3: Loans Receivable (continued)**

**Loan Maturities**

The scheduled principal payments in subsequent years are as follows:

<b>Year Ending Sept. 30</b>	<b>Leveraged</b>	<b>Reserve</b>	<b>Direct</b>	<b>Nonpoint Source</b>	<b>Total</b>
2021	\$ 56,190,000	\$ 39,232,593	\$ 47,727,563	\$ 291,187	\$143,441,343
2022	55,300,000	38,424,556	51,887,682	295,850	145,908,088
2023	46,170,000	31,892,021	56,172,125	105,425	134,339,571
2024	44,145,000	30,265,157	57,516,794	91,011	132,017,962
2025	33,755,000	22,951,401	57,657,232	92,809	114,456,442

**Missouri Department of Natural Resources**  
**Clean Water State Revolving Fund**  
**Notes to the Financial Statements – Unaudited**  
**Exhibit 9**

**Note 4: Bonds Payable**

The Missouri Clean Water SRF program issues revenue bonds to finance qualified projects and uses federal capitalization grants and state matching funds to provide reserves for the bonds. The bonds are issued by the EI ERA and proceeds from the bond sales are deposited into the borrowers' accounts with the trustee banks. Bonds payable and loans receivable are recorded in the loan fund. Cash and project costs payable are recorded in the agency fund. As borrowers incur costs, funds are transferred from the construction loan fund to the borrower. At the same time, the program draws federal and state matching funds to establish the bond reserves at 70 percent of the amount released from the construction loan fund. For bond series 2008A, the reserves were fully funded on the day of bond closing. Interest earned on the construction loan fund and the reserve fund subsidizes the interest on the borrower's loan. As borrowers repay the loans, the principal and interest serve as the source of funds to pay bond principal and interest.

Beginning with Bond Series 2004C, state match revenue bonds were issued by the EI ERA in addition to leveraged bonds. Proceeds from both the state match bonds and the leveraged bonds are deposited into the borrowers' accounts at the trustee banks. The reserves for the leveraged bonds are then funded by federal capitalization grants or recycled funds.

In SFY 2011, revenue bond series 2010B was issued. In addition the EI ERA issued state match revenue bond series 2015A in SFY 2015 and state match revenue bond series 2018A in SFY 2018. These bond sales are different from previous bonds in that they were to provide additional funding that were used to fund any loan being funded with recycled monies. The principal and interest repayments on the program's direct loans have been pledged to make the principal and interest repayments on the bonds.

In addition to revenue bonds, there have been three state match general obligation bond issues. The state issued series A2002 to provide state match funding. In July 2010, the state issued series A2010, which partially refunded series A2002. In September 2012, the state issued series A2012 which refunded the rest of series A2002.

As of September 30, 2020, 25 separate revenue bond series remain outstanding which have a total principal balance of \$342,775,000 and one separate general obligation bond series which has a current outstanding balance of \$3,079,500. The individual series, outstanding balances, and principal due included:

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Unaudited  
Exhibit 9**

**Note 4: Bonds Payable (continued)**

**Advance Refunding**

Six separate revenue refunding bond series (Series 2004A, 2010A, 2011A, 2013A, 2015B, and 2020A) totaling \$574,290,000 and one general obligation refunding bond series (Series A2010) totaling \$9,412,000 were issued to provide resources to purchase U.S. Government State and Local Government Series securities that were placed in irrevocable trusts for the purpose of generating resources for future debt service payments. As a result, the refunded bonds are considered to be defeased, and the liability has been removed from the statement of net position. As of September 30, 2020, the amount of refunded bonds that had yet to be called totaled \$22,480,000.

**Note 5: Arbitrage Rebate**

In accordance with Internal Revenue Code Section 148(f) relating to arbitrage restrictions on tax-exempt bonds, no arbitrage rebate payable has been recorded during this reporting period.

**Note 6: Pension Plan**

**Plan Description**

Benefit eligible employees of the Department are provided with pensions through Missouri State Employees' Plan (MSEP) - a cost-sharing multiple-employer defined benefit pension plan administered by Missouri Employees' Retirement System (MOSERS). The plans are referred to as MOSERS in the notes. Chapter 104.320 of the Revised Statutes of Missouri grants the authority to establish a defined benefit plan for eligible state and other related agency employees. MOSERS issues an annual Comprehensive Annual Financial Report (CAFR), a publicly available financial report that can be obtained at [www.mosers.org](http://www.mosers.org).

**Benefits Provided**

MOSERS provides retirement, disability, and survivor benefits to eligible employees. The base retirement benefits are calculated by multiplying the employee's final average pay by a specific factor multiplied by the years of credited service. The factor is based on the specific plan in which the employee participates, which is based on the employee's hire date. Information on the two plans administered by MOSERS (MSEP (closed plan) and MSEP 2000 (MSEP 2011 is a tier of MSEP 2000) retirement plans) and how eligibility and the benefit amount is determined for each plan may be found in the Notes to the Financial Statements of MOSERS' CAFR at [www.mosers.org](http://www.mosers.org).

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Unaudited  
Exhibit 9**

**Note 6: Pension Plan (continued)**

**Contributions**

Per Chapter 104.436 of the Revised Statutes of Missouri, contribution requirements of the active employees and the participating employers are established and may be amended by the MOSERS Board. Employees in the MSEP 2011 Plan are required to contribute 4.0 percent of their annual pay. The Clean Water SRF program's required contribution rate for the year ended June 30, 2020, was 21.77 percent of annual payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Contributions to the pension plan from the Clean Water SRF program were \$473,051 for the fiscal year ended September 30, 2020.

**Net Pension Liability**

At September 30, 2020, a liability was reported of \$4,506,566 for the Clean Water SRF program's proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability was offset by the fiduciary net position obtained from MOSERS CAFR as of June 30, 2019, to determine the net pension liability.

The Clean Water SRF program's proportion of the net pension liability was based on the Department's actual share of contributions to the pension plan relative to the actual contributions of all participating employers for MOSERS plan year ended June 30, 2019. At the June 30, 2019, measurement date, the Clean Water SRF program's proportion was 0.0746 percent, an increase from its proportion measured using 0.0687 percent as of June 30, 2018, measurement date.

There were no other changes in benefit terms during the MOSERS plan year ended June 30, 2019, that affected the measurement of total pension liability.

**Actuarial Assumptions**

The total pension liability in the June 30, 2019, actuarial valuation, which is also the date of measurement for GASB 68 purposes, was determined using the following actuarial assumptions, applied to all periods included in the measurement:

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Unaudited  
Exhibit 9**

**Note 6: Pension Plan (continued)**

Inflation	2.35%
Salary Increases	2.85% to 8.35% including inflation
Wage Inflation	2.35%
Investment Rate of Return	7.10%, compounded annually, net after investment expenses and including inflation

The actuarial assumptions used in the June 30, 2019, valuation were based on the results of an actuarial experience study for the period July 1, 2010 to June 30, 2015. In addition, the investment return assumption was reduced from 7.25 percent to 7.10 percent for the June 30, 2019 valuation. Other assumption changes were decreases in the payroll and wage growth assumption.

**Mortality**

Mortality rates for post-retirement mortality are based on the RP-2014 Healthy Annuitant mortality table, projected to 2026 with Scale MP-2015 and scaled by 120 percent. The pre-retirement mortality table used is the RP-2014 Employee mortality table, projected to 2026 with Scale MP-2015 and scaled by 95 percent for males and 90 percent for females.

**Long-Term Investment Rate of Return**

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates rates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in MOSERS target asset allocation as of June 30, 2019, are summarized in the following table:

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Unaudited  
Exhibit 9**

**Note 6: Pension Plan (continued)**

Asset Class	Policy Allocation	Long-term Expected Nominal Return*	Weighted Average Long-term Expected Nominal Return
Global public equities	30.0%	7.7%	2.3%
Global private equities	15.0%	9.3%	1.4%
Long treasuries	25.0%	3.5%	0.9%
Core bonds	10.0%	3.1%	0.3%
Commodities	5.0%	5.5%	0.3%
TIPS	25.0%	2.7%	0.7%
Private real assets	5.0%	7.1%	0.3%
Public real assets	5.0%	7.7%	0.4%
Hedge funds	5.0%	4.8%	0.2%
Alternative beta	10.0%	5.3%	0.5%
Private credit	5.0%	9.5%	0.5%
Cash and cash equivalents**	(40.0)%	-	-
<b>Total</b>	<b>100.0%</b>		<b>7.8%</b>

\*Long-term expected arithmetic returns of the asset classes at the time of the asset allocation study for each portfolio.

\*\*Cash and cash equivalents policy allocation amounts are negative due to use of leverage.

**Discount Rate**

The discount rate used to measure the total pension liability was 7.10 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions from employers will be made at required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Unaudited  
Exhibit 9**

**Note 6: Pension Plan (continued)**

**Sensitivity of the Clean Water SRF Program's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate**

The following presents the Clean Water SRF program's proportionate share of the net pension liability calculated using the discount rate of 7.10 percent, as well as what the Clean Water SRF program's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.10 percent) or 1 percentage point higher (8.10 percent) than the current rate:

	<b>1% Decrease (6.10%)</b>	<b>Current Discount Rate (7.10%)</b>	<b>1% Increase (8.10%)</b>
Clean Water SRF program's proportionate share of the net pension liability	\$5,685,249	\$4,506,566	\$3,515,581

**Pension Plan Fiduciary Net Position**

Detailed information about the pension plan's fiduciary net position is available in the separately issued MOSERS comprehensive annual financial report, which may be requested from Missouri State Employees' Retirement System, P.O. Box 209, Jefferson City, MO 65102-0209 or viewed on [www.mosers.org](http://www.mosers.org).

**Pension Expense**

For the year ended September 30, 2020, the Clean Water SRF program recognized pension expense of \$1,498,283.

**Deferred Outflows of Resources and Deferred Inflows of Resources**

At September 30, 2020, the Clean Water SRF program reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ (7,072)	\$ (53,705)
Changes of assumptions	74,197	4,313
Net difference between projected and actual earnings on pension plan investments	231,708	(52,300)
Changes in proportion and differences between Clean Water SRF program contributions and proportionate share of contributions	33,321	863
Clean Water SRF program contributions subsequent to the measurement date of June 30, 2019	389,754	-
Total	<u>\$ 721,908</u>	<u>\$(100,829)</u>

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Unaudited  
Exhibit 9**

**Note 6: Pension Plan (continued)**

Clean Water SRF program reported \$389,754 as deferred outflows of resources related to pensions resulting from contributions made subsequent to the measurement date, which will be recognized as a reduction of the net pension liability in the year ended September 30, 2021, on the Clean Water SRF program’s financial statements. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in the Clean Water SRF program’s fiscal year following MOSERS’ fiscal year as follows:

Plan year ending September 30:

2021	\$128,182
2022	65,376
2023	20,405
2024	17,362
Total	<u><u>\$231,325</u></u>

**Payables to the Pension Plan**

As of September 30, 2020, the Clean Water SRF program had payables of \$21,168 to MOSERS because of benefits accrued for the September 16, 2020 payroll that were not paid until after this reporting period, but earned during the reporting period.

**Note 7: Other Post-Employment Benefits Plan (OPEB)**

**Plan Description**

The Missouri Consolidated Health Care Plan (MCHCP) operates a cost sharing multiple employer, defined benefit OPEB plan, the State Retiree Welfare Benefit Trust (SRWBT or the Plan). Employees may participate at retirement if eligible to receive a monthly retirement benefit from either the MOSERS or another retirement system whose members are grandfathered for coverage under the Plan by law. The terms and conditions governing postemployment benefits are vested with the MCHCP Board of Trustees within the authority granted under Chapter 103 of the Revised Statutes of Missouri (2000) as amended (“RSMo”) 103.003 through 103.178. MCHCP is considered a component unit of the State of Missouri reporting entity and is included in the state’s financial report. The Plan’s financial statements are available on MCHCP’s website at [www.mchcp.org/aboutUs/annualReport.asp](http://www.mchcp.org/aboutUs/annualReport.asp). The SRWBT does not issue a standalone financial report.

Exhibit 9**

**Note 7: Other Post-Employment Benefits Plan (OPEB) (continued)**

**Benefits Provided**

The SRWBT was established and organized on June 27, 2008, pursuant to the Revised Statutes of Missouri (2000) as amended (“RSMo”) 103.003 through 103.178 to provide health and welfare benefits for the exclusive benefit of current and future retired employees of the state and their dependents who meet eligibility requirements except for those retired members covered by other OPEB plans of the state. MCHCP’s three medical plans offer the same, basic coverage such as preventative care, freedom to choose care from a nationwide network of primary care providers, specialists, pharmacies and hospitals, usually at a lower negotiated group discount and the same covered benefits for both medical and pharmacy. Benefits are the same in all three plans, other aspects differ such as premium, deductible and out of pocket costs. Retiree benefits are the same as for active employees. At the participant census date of July 1, 2018, membership information for the entire SRWBT consisted of the following:

Active employees – 40,453

Participants and Spouses in Payment Status – 21,132

Participants with a deferred benefit – 79

Disabled participants - 90

Note: Membership information for Clean Water SRF program employees is not available.

**Contributions**

Contributions are established and may be amended by the MCHCP Board of Trustees with the authority granted under Chapter 103 of the Revised Statutes of Missouri (2000) as amended (“RSMo”) 103.003 through 103.178. For the fiscal year ended June 30, 2019, employers were required to contribute 4.99 percent for the period July 1, 2018 through January 31, 2019; 6.19 percent for the period February 15, 2019, through April 15, 2019; and 4.33 percent for the period April 30, 2019 through June 30, 2019, of gross active employee payroll toward their required contributions.

Contributions to the OPEB plan from the Clean Water SRF program were \$618 for the fiscal year ended September 30, 2020.

**OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

At September 30, 2020, a liability was reported of \$8,215 for the Clean Water SRF program’s proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date.

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Unaudited  
Exhibit 9**

**Note 7: Other Post-Employment Benefits Plan (OPEB) (continued)**

The Clean Water SRF program’s proportion of the net OPEB liability was based on the Department’s share of covered payroll in the OPEB plan relative to the covered-employee payroll of the State of Missouri. At June 30, 2019, the Clean Water SRF program’s proportion was 0.0005 percent.

For the year ended September 30, 2020, the Clean Water SRF program recognized OPEB expense of \$494. At September 30, 2020, the Clean Water SRF program reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ 468	\$ (177)
Change of assumptions	-	(561)
Net difference between projected and actual earnings on OPEB plan investments	21	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	4	-
Employer contributions subsequent to the measurement date	446	-
<b>Total</b>	<b>\$ 939</b>	<b>\$ (738)</b>

There was \$446 reported as deferred outflows of resources related to OPEB resulting from Clean Water SRF program contributions subsequent to the measurement date and will be recognized as a reduction of the net OPEB liability in the year ended September 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in future years’ OPEB expense as follows:

Year ending June 30:	
2021	\$ (34)
2022	(34)
2023	(33)
2024	(38)
2025	(40)
Thereafter	(66)
<b>Total</b>	<b><u>\$ (245)</u></b>

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Unaudited  
Exhibit 9**

**Note 7: Other Post-Employment Benefits Plan (OPEB) (continued)**

**Actuarial Assumptions**

Actuarial valuations for the SRWBT involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. The valuation to determine the SRWBT’s total OPEB liability is required to be performed at least every two years. The SRWBT valuation is performed annually, but should the valuation not be performed as of the fiscal year end, the total OPEB liability is required to be rolled forward from the actuarial valuation date to the SRWBT plan’s fiscal year end. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of the valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short term volatility in actuarial liabilities and the actuarial value of assets, consistent with the long term perspective of the calculations. The collective total OPEB liability for the June 30, 2019 measurement date was determined by an actuarial valuation as of July 1, 2018, with updated procedures used to roll forward the total OPEB liability to June 30, 2019. This actuarial valuation used the following actuarial assumptions:

<b>Actuarial Assumptions</b>	
Inflation rate	3.00%
Discount rate	5.24%
Projected payroll growth rate	4.00%
Actuarial cost method	Entry age normal, level percentage of payroll
Asset valuation method	Market value

Health care cost trend rate (medical & prescription drugs combined): Non-Medicare is 6.00 percent for fiscal year 2019; the rate decreases by 0.25 percent per year to an ultimate rate of 5.0 percent in fiscal year 2023 and later. Medicare is 10.00 percent for fiscal year 2019 and 2020, 22.00 percent for fiscal year 2021, 10.00 percent for fiscal year 2022 and 2023, 9.5 percent for fiscal year 2024, 9.00 percent for fiscal year 2025, 8.5 percent for fiscal year 2026, and 8.00 percent for fiscal year 2027; the rate then decreases by 1.00 percent per year to an ultimate rate of 5.00 percent in fiscal year 2030 and after.

Mortality: RP-2016 for Employees/Annuitants without collar adjustments using Scale MP-2016. The last experience study was conducted for the period July 1, 2008 through June 30, 2012. The last independent actuarial review of the reasonableness and accuracy of actuarial assumptions, actuarial cost methods, and valuations was conducted as of June 30, 2019. An experience study is currently being performed for the measurement period June 30, 2020, and will be utilized for fiscal year ended June 30, 2021, financial reporting.

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Unaudited  
Exhibit 9**

**Note 7: Other Post-Employment Benefits Plan (OPEB) (continued)**

**Long-Term Expected Rate of Return**

The target allocation and best estimates of arithmetic real rate of returns for each major asset class are listed below:

Asset Class	Target Allocation	Expected Real Return
Large cap stocks	16.0%	8.5%
Mid cap stocks	7.0%	8.8%
Small cap stocks	7.0%	8.8%
High-yield bonds	5.0%	9.0%
BarCap aggregate bonds	63.0%	3.7%
Cash equivalents	2.0%	3.3%

**Discount Rate**

A discount rate of 5.24 percent was used to measure the total OPEB liability. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and the contributions from employers will be made at statutorily required rates, actuarially determined. This discount rate was determined as a blend of the best estimate of the expected return on plan assets and the 20-year high quality municipal bond rate as of the measurement date. For years where expected benefit payments can be covered by projected trust assets, expected returns are used. For years where payments are not expected to be covered by trust assets, the municipal Bond Buyer 20-Bond General Obligation Index rate is utilized.

**Sensitivity of the Clean Water SRF Program’s Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate**

As required by GASB Statement No. 75, the following table presents the Clean Water SRF program’s proportionate share of the net OPEB liability, calculated using a discount rate of 5.24 percent, as well as what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one percent lower or one percent higher:

	1% Decrease in Discount Rate (4.24%)	Current Discount Rate (5.24%)	1% Increase in Discount Rate (6.24%)
Clean Water SRF program’s proportionate share of the Net OPEB Liability	\$9,749	\$8,215	\$7,000

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Unaudited  
Exhibit 9**

**Note 7: Other Post-Employment Benefits Plan (OPEB) (continued)**

**Sensitivity of the Clean Water SRF Program’s Proportionate Share of the Net OPEB Liability to Healthcare Cost Trend Rate**

The following presents the Clean Water SRF program’s proportionate share of the net OPEB liability calculated using assumed trend rates, as well as what the Clean Water SRF program’s proportionate share of net OPEB liability would be if it were calculated using a trend rate that is 1-percentage-point lower or 1-percentage-point higher:

	<b>1% Decrease in Trend Rates</b>	<b>Current Trend Rates</b>	<b>1% Increase in Trend Rates</b>
Clean Water SRF program’s proportionate share of the Net OPEB Liability	\$6,908	\$8,215	\$9,876

**Note 8: Net Position**

The net position of the program is all restricted. The program’s enabling legislation and related regulations require that all money in the fund may be used only for purposes of the program. The program is capitalized by grants from the EPA, authorized by Title VI of the Clean Water Act, and matching funds from the State of Missouri. As of September 30, 2020, the EPA has awarded capitalization grants totaling \$1,331,977,631 of which \$1,286,383,792 has been drawn. The total award amount includes \$100,000 in-kind amounts on each of the CS290001-11, CS290001-13, and CS290001-16 grants to pay for independent audits. CS290001-18 includes an in-kind amount of \$70,000 to pay for independent audits. CS290001-20 includes an in-kind amount of \$42,000 to pay for independent audits. These in-kind amounts are not available to be drawn. The following table summarizes the capitalization grants awarded, amounts drawn on each grant, and balances available:

Clean Water State Revolving Fund  
Notes to the Financial Statements – Unaudited  
Exhibit 9**

**Note 8: Net Position (continued)**

As of September 30, 2020, the state match provided for the capitalization grants was as follows:

	September 30, 2019	2020 Match	September 30, 2020
State Appropriations	\$ 98,136,140	\$ -	\$98,136,140
State Match GO Bonds	15,427,980	-	15,427,980
State Match Revenue Bonds	109,530,600	15,101,462	124,632,062
State Match Administration	455,845	-	455,845
<b>Total State Match</b>	<b>\$223,550,565</b>	<b>\$15,101,462</b>	<b>\$238,652,027</b>

The state match bonds are being repaid with Clean Water SRF program interest earnings and are not contributions to fund equity. The total state contribution to fund equity is \$100,736,278. This amount consists of the \$98,136,140 of state appropriations and \$455,845 of state match paid from the administration fee fund as listed above, plus an additional \$2,144,293 that the state of Missouri contributed to pay part of the debt service on the state match general obligation bonds.

**Note 9: Contingencies**

The program is exposed to various risks of loss related to torts, theft of assets, errors or omissions, injuries to state employees while performing program business, or acts of God. The program maintains insurance through the State of Missouri for all risks of loss, which is included in the indirect costs allocated to the program. There have not been any claims against the program since its inception in 1989.

**Note 10: Commitments**

House Bill No. 2001, Section 1.020, appropriates \$1,104,987 of interest earnings on the Water and Wastewater Loan Revolving Fund to be transferred to the Water Pollution Control Bond and Interest Fund in the 2020 reporting period for the payment of a portion of the debt service due on state general obligation bonds issued prior to 2002 that provided the state match for the Clean Water SRF program. Refer to the Bonds Payable section of Note 1.

**Note 11: Subsequent Events**

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and, on March 11, 2020, declared it to be a pandemic. Actions taken around the world to help mitigate the spread of the coronavirus include restrictions on travel, quarantines in certain areas, and forced closures for certain types of public places and businesses. The coronavirus and actions taken to mitigate the spread of it have had and are expected to continue to have an adverse impact on the economies and financial markets of many countries, including the geographical areas in which the Clean Water SRF program operates. On

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Unaudited  
Exhibit 9**

**Note 11: Subsequent Events (continued)**

March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was enacted to, amongst other provisions, provide emergency assistance for individuals, families and businesses affected by the pandemic.

It is unknown how long the adverse conditions associated with the pandemic will last and what the complete financial effect will be to the Clean Water SRF program. Accordingly, while management has not documented any financial and other impacts to the Clean Water SRF program as of September 30, 2020, management believes that the continued spread of the pandemic may have a material effect on the Clean Water SRF program and participants, which could have a material adverse effect on payment of debt service.

On October 26, 2020, the Department made available Clean Water SRF grant allocations for Water Quality Incentive Grants, Technical Assistance Grants, and Engineering Report Grants (formerly the Small Community Engineering Assistance Program Grant funded by Administration fees). These new grant allocations will provide additional grant opportunities for political subdivisions.

On December 3, 2020, the Environmental Improvement and Energy Resources Authority issued taxable refunding revenue bond series 2020B in the amount of \$100,760,000 for the Clean Water and Drinking Water SRF programs. The bond refunding will generate over \$5.1 million in savings for the programs.
