Facilities Corporation**

**Final
Intended Use Plan
Drinking Water State Revolving
Fund**

October 1, 2020 - September 30, 2021

Effective Date: October 1, 2020

The State of New York

Andrew M. Cuomo,
Governor

Department of Health
Howard A. Zucker, M.D., J.D.
Commissioner

Environmental Facilities Corp.
625 Broadway
Albany, NY 12207

Final
Intended Use Plan
for the
NEW YORK STATE
DRINKING WATER STATE REVOLVING FUND

Effective: October 1, 2020 – September 30, 2021

Note: All projects funded through the Drinking Water State Revolving Fund (DWSRF) are subject to Federal Davis Bacon Prevailing Wage Laws in addition to NYS State Prevailing Wage Laws, Use of American Iron and Steel, MWBE/EEO/DBE requirements and the State Smart Growth Public Infrastructure Policy Act. Refer to Section 10 for additional information.

1.0 Introduction

The New York State Drinking Water State Revolving Fund (DWSRF) was created in 1996 as a result of the New York State's enactment of Chapter 413 of the Laws of 1996 (Clean Water/Clean Air Bond Act, "Bond Act") and passage of the 1996 Amendments to the Safe Drinking Water Act (Public Law 104-182) by the United States Congress. The DWSRF provides a financial incentive for municipally and privately owned public water systems to undertake needed drinking water infrastructure improvements (e.g., treatment plants, distribution mains, storage facilities). This program provides market rate and below market rate financing for the construction of certain eligible public water system projects for the protection of public health. As financings are repaid, money is made available for new financings making it a true revolving fund. For qualifying communities with eligible projects and demonstrated financial hardship, interest rates can be reduced to zero percent and grants may be provided. The DWSRF program is administered jointly by the New York State Department of Health (DOH) and the New York State Environmental Facilities Corporation (EFC).

Since its inception in 1996, New York's DWSRF has received a total of \$1.62 billion including \$1.36 billion in federal funds through US Environmental Protection Agency (US EPA) annual program capitalization grants and \$265 million in state funds during the early years of the program from the Clean Water/Clean Air Bond Act. With this \$1.62 billion investment into the program, the DWSRF has been able to execute \$7.3 billion in financings, refinancings and grants to assist public water systems throughout the state. This assistance included the provision of \$384 million in grants to approximately 296 disadvantaged communities. This tremendous level of success has been achieved through the leveraging of program funds, the recycling of repayments and interest earnings, and the efficient management of the program. These financings and grants have assisted 495 public water system owners in protecting public health by making needed drinking water system infrastructure projects more affordable for residents throughout New York State.

For this federal fiscal year (FFY) funding cycle, the state expects to receive an estimated federal capitalization grant of \$45 million for the DWSRF. The state is required to provide a match of 20% of the federal capitalization grant. The \$265 million in state dollars that were committed during the early years of the program from the Clean Water/Clean Air Bond Act are considered as "banked" or overmatched funds and are credited towards meeting the required state match.

The Safe Drinking Water Act requires the State to prepare a plan identifying the estimated and intended uses of the DWSRF funds and a description of how those uses support the goals of the DWSRF. To meet that requirement, the State prepares an Intended Use Plan (IUP) annually and provides for public review and comment before submitting it to the US EPA. The US EPA must receive the IUP before it awards the annual capitalization grant to the State's DWSRF under the Safe Drinking Water Act.

2.0 Program Changes & Ongoing Initiatives

Program Changes:

1. The Disadvantaged Community (Hardship) Program is being revised effective October 1, 2020 to qualify certain communities serving Environmental Justice (EJ) areas for Hardship financing. Projects serving EJ areas that do not otherwise qualify for hardship based on Median Household Income (MHI) or poverty rate criteria will be considered for hardship if at least 50% of the project cost or project scope serves, protects, or benefits an identified EJ area. Additional information is included in Section 7.0.

2. DOH and EFC are seeking approval from the EPA to provide extended term financing. New York State law authorizes extended term financing with a final maturity date up to forty years for hardship recipients. The offer of extended term financing would be at DOH and EFC discretion and would be used on a limited basis to assist communities for which DOH and EFC determine that an extended term would provide a significant benefit over the life of the financing.

Ongoing Program Initiatives:

1. **AWIA 2018 Additional Subsidy:** The Safe Drinking Water Act was amended with the October 23, 2018 passage of the America's Water Infrastructure Act of 2018 (AWIA 2018). AWIA 2018 included the requirement that if sufficient applications are available, DWSRF programs must provide a minimum of 6% of the Federal Capitalization Grant as additional subsidy to disadvantaged communities in the form of Principal Forgiveness or Negative Interest Rate Loans. This 6% is in addition to the minimum of 20% in additional subsidy that has been required since 2010. To meet this requirement, the DWSRF program may provide 6% additional subsidy in the form of Principal Forgiveness through the Hardship Program contingent upon there being a sufficient number of qualifying projects.
2. **Interconnections:** Under provisions of the 1996 Amendments to the Federal Safe Drinking Water Act, DOH is required to ensure that all systems receiving DWSRF assistance have adequate managerial, technical, and financial capabilities to provide safe drinking water. The failure to meet this requirement could result in a significant reduction of the DWSRF federal capitalization grant awarded to the state for the program. Therefore, systems that lack adequate managerial, technical, and financial capacity may be determined as ineligible by DOH to receive DWSRF assistance unless the project to be financed corrects the managerial, technical, and financial deficiencies.

DOH will continue to promote the regionalization and interconnections for public water systems to enhance the managerial, technical, and financial capacity for those systems. Therefore, when the possibility to interconnect to another public water system exists for a project seeking assistance, and if that interconnection will address the scope of the project with respect to its priority health ranking, the interconnection must be a carefully considered alternative as a part of the State Environmental Quality Review Act process and be discussed in detail in the engineering report. If the system applying for DWSRF assistance decides not to pursue a possible interconnection alternative when it exists and would address the scope of the project with respect to its priority health ranking, then detailed justification satisfactory to DOH must be provided demonstrating that the interconnection is a technically, financially, or managerially disadvantageous option. See Section 8 of this IUP for additional information regarding capacity requirements.

3. **Expanding the Number of Projects Eligible for Subsidized Interest Rate Funding:** DOH and EFC initiated a pilot program initiative in FFY 2015 to expand the number of projects that are eligible to apply for subsidized interest rate financing through the DWSRF. The program initiative will continue for this FFY funding cycle.

To implement this initiative, the annual list has an expanded (lowered) subsidized interest rate funding line as well as a hardship evaluation eligibility line. The expanded subsidized rate funding line is set at an increased amount of the actual total resources available and will make more projects eligible to apply for subsidized interest rate financing. The use of an increased amount of the total available resources is supported by program equity including repayments, interest earnings, carryover funds, fund drawdown rates and the historical fact that all listed eligible projects do not formally apply for financing.

With this expanding of the subsidized interest rate funding line, it is no longer being used to determine the project eligibility to be evaluated for hardship. To be eligible to be evaluated for hardship financing, projects must have a public health priority ranking score equal or greater than that score where the hardship evaluation eligibility line is drawn. The public health priority ranking score used for hardship evaluation eligibility will continue to be the “raw score” or that score which is exclusive of short-term financing and/or phased bonus points. The hardship evaluation eligibility line is drawn at the project where the cumulative amount of projects’ costs approximately equals the total resources available and as needed to ensure federal additional subsidy requirements can be met. This is where the subsidized interest rate funding line would have historically been drawn if it had not been expanded with this initiative. Therefore, this initiative has not changed the method used for determining the eligibility to be evaluated for hardship financing.

Prior to this initiative of expanding the subsidized interest rate funding line, systems with acute health risk violations such as coliform contamination were already likely to rank high enough to be eligible for subsidized interest rate financing whereas those with chronic health risk violations such as organic contamination may not have been eligible. This change makes interest rate subsidy available for more projects addressing chronic public health risks while continuing to assist those systems with projects that address acute public health risks. This change also provides a more affordable funding alternative to many compliant public water systems that require drinking water infrastructure improvements to remain compliant and thereby continue to protect public health.

4. **Climate Change Initiative:** When ranking projects by public health priority, as applicable, the DOH will take into consideration projects’ attributes for physical climate risk mitigation due to sea level rise, storm surges, flooding or any combination thereof. If appropriate, public health priority ranking points may be awarded under the categories of C-2 (10 points), C-4 (5 points), D-4 (10 points) and D-6 (5 points) for projects that provide climate risk mitigation. The awarding points for this purpose may be in any combination and is dependent on the availability of data or the provision of a hazard risk analysis by projects’ sponsors demonstrating mitigation against future extreme weather events. Other documentation as provided by projects’ sponsors demonstrating that the project is protective of future climate impacts may also be acceptable to be awarded points under the aforementioned categories.
5. **Asset Management:** The DOH and the EFC encourage communities that apply for financing in to prepare and submit an asset management plan to accompany the engineering report and/or plans and specifications for their project. An asset management plan would support communities by encouraging the building of sustainable infrastructure. The DOH reserves the right to require an asset management plan for any project that has shown deficiencies with respect to managerial, technical, and financial capacity. In support of the DWSRF’s federal capacity development requirements, if otherwise DWSRF eligible, asset management plan costs are reimbursable as a part of any DWSRF financed project.
6. **Energy Efficiency:** New York State encourages the efficient use of energy in all drinking water projects. Therefore, the DOH and the EFC are recommending, if applicable, that engineering reports and/or plans and specifications submitted to the DOH identify project components that incorporate energy efficiency, water efficiency, and/or other environmentally innovative activity.
7. **New York Water Infrastructure Improvement Act Grant Program (WIIA):** WIIA funds are state grants that fund the same types of projects as the DWSRF program. WIIA grant funds are not considered DWSRF funds but may be used as co-funding for DWSRF projects. Projects with WIIA applications will be listed in the DWSRF IUP at the start of the new FFY or they may be added by amendment so that eligible applicants with WIIA grant

awards may have the option of utilizing DWSRF funds for the non-WIIA grant funded portion of their projects. Applicants applying for or awarded WIIA grant funds are not required to use DWSRF financing for any non-WIIA grant funded portion of their projects. Information regarding the WIIA program is available at www.efc.ny.gov/WIIA.

8. At the discretion of DOH, projects that have been on the IUP Annual List and have been inactive for seven years or longer may be moved to the IUP multi-year list. Projects that have been on the Multi-year list and have been inactive for ten years or longer may be removed from the IUP. The projects will be added back onto the Annual List or onto the IUP with the receipt of an updated engineers report and Listing Form.

3.0 Short and Long-Term Program Goals

The Safe Drinking Water Act (SDWA) Amendments of 1996 authorize a DWSRF to assist public water systems with financing the costs of infrastructure needed to achieve or maintain compliance with SDWA requirements and to protect public health. The DWSRF program will help ensure that New York State's drinking water supplies remain safe and affordable, and that drinking water systems that receive funding will be properly operated and maintained.

3.1 Short-Term Goals

- Continue to implement the DWSRF program for the State of New York.
- Continue to ensure that a minimum of 15% of the available DWSRF assistance is provided to public water systems that serve populations of less than 10,000. All financings will be reported along with population as required into the federal Project Benefit Reporting System (PBR) and the National Information Management System (NIMS).
- Receive project Listing Forms, score and rank projects based on human health risk and compliance with the SDWA.
- Make available short-term financing to help accelerate project development.
- Make available long-term financing for projects in public health priority order, taking into consideration project affordability.
- Make available financing and/or financial assistance payments (grants) to help small public water systems and disadvantaged communities finance needed projects.
- Continue to be current with all Federal Reporting requirements.

3.2 Long-Term Goals

- Help public water supplies achieve and maintain compliance with federal and state drinking water standards and enforceable requirements of the SDWA and the New York State Sanitary Code.
- Protect and enhance New York's public drinking water supplies using the financial incentives provided by the DWSRF and the programs that the DWSRF supports.
- Administer the DWSRF in a fiscally responsible manner that will ensure its revolving nature in perpetuity.
- Assist public water supplies to improve drinking water quality, quantity and dependability

by providing reduced interest rate long-term financing and/or Additional Financing Subsidies (Grants).

- Continue to support the national reduction of federal DWSRF unliquidated obligations, New York State will continue to work to reduce the amount of year to year carry-over funds by increasing the number of projects eligible for subsidized interest rate financing.

4.0 Financial Status

4.1 Total DWSRF Monies

Capitalization for the New York DWSRF program during this IUP funding period will be provided from the FFY 2021 DWSRF federal capitalization grant, unobligated funds carried forward from the previous FFY funding cycle, and repayments and interest earnings from the program. New York State has not yet received federal capitalization grant for this funding cycle and depending on impacts to the program or projects listed, the IUP may be amended once the capitalization grant amount is finalized. The minimum state match requirement is 20% of each federal award. The match is made from Bond Act funds that were provided in excess of the 20% minimum amount required under the federal SDWA that have been credited against state match requirements. The estimated sources, uses and available DWSRF funds for this IUP funding cycle are presented in Table 1.

Table 1 Sources and Uses	
Sources	Amount
FFY 2021 Capitalization Grant ¹	\$45,000,000
Anticipated Repayments, Interest Earnings, and carry-over monies from FFY 2020	\$190,089,000
Total Sources	\$235,089,000
Uses	Amount
Administrative Set-Aside	\$1,800,000
Technical Assistance Set-Aside	\$900,000
State Program Management Set-Aside	\$4,500,000
Total Set-Asides ²	\$7,200,000
Direct Financings	\$140,000,000
Grants Expected to Close	\$9,000,000
Grant Funds Reserved	\$5,000,000
New Grant Funds Available for Award ¹	\$9,000,000
Reserve Allocation for Leveraged Financing ³	\$64,889,000
Total Uses	\$235,089,000
¹ Based on an estimation the DWSRF federal allocation for federal FFY 2021. ² Refer to Section 6.0 for information related to set-asides. ³ Leveraged three times, these funds will provide financing of \$194,667,000 for eligible projects. This combined with Direct Financings, Grants Expected to Close, and New Grant Funds Available for Award results in an estimated funding capacity for this IUP period of \$352 million. A factor of 1.75 has been used to set the expanded subsidized interest rate funding line on the Annual List.	

4.2 Fees

Up to 4% of the total amount of federal capitalization grants (as provided by Section 1452(g)(2) of the SDWA) can be set-aside to support the cost of administering the DWSRF program. Costs of DWSRF program administration not covered by the 4% administrative set-aside must be paid

from fees charged to DWSRF recipients. A description of the fees is presented in Attachment III. Fees collected by the DWSRF are held in an account outside of the DWSRF.

For the state fiscal year associated with the previous DWSRF funding cycle, the DWSRF collected approximately \$1,600,000 in program administration fees. It is anticipated that for the state fiscal year associated with this DWSRF funding cycle, a similar amount of fees will be recognized and collected.

4.3 Transfer of Funds

The SDWA Amendments of 1996 offered states the flexibility to meet the funding needs for drinking water and wastewater facilities by transferring funds from one SRF program to the other (Section 302 of Public Law 104-182). An amount equal to up to 33 percent of the DWSRF capitalization grant could be transferred from the DWSRF to the CWSRF program, or an equivalent amount from the CWSRF to the DWSRF program. While the authority expired on September 30, 2001, Congress has extended this provision within US EPA's annual budgets. Pending Congressional approval of an extension within US EPA's proposed budget for this funding cycle, transfers between the CWSRF and the DWSRF programs during current and future IUP periods may be made. Any funds transferred during this IUP period will be returned using program funds within this IUP period. Therefore, there will be no effect on the funding line of either the DWSRF program or the CWSRF program.

4.4 Eligible Systems and Types of Projects to be Funded

Drinking water systems that are eligible for project funding are community water systems, both public and privately owned, and non-profit, non-community water systems (when funding is provided, a "recipient").

"Drinking water infrastructure project" or "water supply project" means the planning, design, construction, improvement, or acquisition of facilities, equipment, sites, or buildings for the supply, control, treatment, distribution, and transport of drinking water and the testing and monitoring to ensure the integrity and quality of such water intended to improve drinking water facilities including achievement of compliance with the federal SDWA or other applicable federal law and state drinking water quality goals and standards.

Projects eligible for DWSRF financing include investments to upgrade or replace infrastructure, address noncompliance with federal or state health standards, prevent future violations of such standards, and provide the public with safe drinking water. Examples of such projects include but are not limited to:

- rehabilitation or development of new drinking water sources to replace contaminated supplies;
- installation or upgrading of facilities if the project will improve the quality of drinking water to comply with primary or secondary standards or treatment/performance criteria;
- installation or upgrading of storage facilities, including finished water reservoirs, to prevent microbiological contamination or to provide adequate delivery pressures;
- installation or replacement of transmission and distribution mains to prevent contamination caused by leaks or breaks;
- funding and/or construction to promote the consolidation of water supply services, particularly in circumstances where individual homes or water systems generally have an inadequate

quantity of water, the water supply is contaminated, or the system is unable to maintain adequate compliance for financial or managerial reasons;

- the purchase of a portion of another system's capacity, if the purchase is part of a consolidation plan to bring the system(s) into compliance;
- capital investments made to improve the security of drinking water systems; and
- The extension of an existing community public water system or the creation of a new community public water system to address existing public health issues caused by inadequate or unsafe drinking water provided from individual water sources.
- in accordance with the SDWA, any of the above listed project types which are publicly owned and which were previously financed, may be eligible for refinancing. Projects for refinancing must comply with applicable current DWSRF requirements including but not limited to Davis Bacon Federal Prevailing Wage requirements and American Iron and Steel requirements. Planning, design and other pre-construction costs that comply with current DWSRF requirements that were incurred for refinanced projects may be allowed if clearly documented and related to an otherwise eligible project.

Ineligible projects include but are not limited to projects submitted by systems that lack technical, managerial or financial capacity or are classified as priority systems based on US EPA's Enforcement Targeting Tool (ETT) unless the proposed project will ensure capacity or compliance. Ineligible projects also include projects whose primary purpose is fire protection or growth and/or development, dam projects, reservoir projects, operation and maintenance costs, and acquisition of land not integral to an eligible project or land integral to an eligible project that is obtained through eminent domain.

4.5 Financial Planning Process

Projects submitted for financing will be screened for eligibility, scored, ranked and listed. Projects can be submitted to the DOH for listing at any time. All eligible projects for which Listing Forms were submitted on or before the close of the Draft IUP comment period are included in the final IUP. Eligible projects for which Listing Forms were submitted after the close of the Draft IUP comment period will be included in the subsequent IUP funding cycle. Projects for which an engineering report or plans and specifications were submitted to the DOH along with a listing form by the close of the Draft IUP comment period are listed on the Project Annual List. Under the anticipated financing schedule, leveraged financing funded from bond issuance will be determined as needed and direct long-term and short-term financings will be originated throughout the year.

4.6 Types of Assistance and Terms

The DWSRF program will offer the following types of financial assistance:

1. **Short-Term Financing Program (STFP)** – Short-term financing will be offered interest-free and at market rate for terms of up to five (5) years. Before any short-term financing is provided, an applicant must, among other conditions, receive approval of an engineering report for the project, complete the State Environmental Review Process (SERP), be evaluated for compliance with the Smart Growth Act, obtain approval from the Office of the State Comptroller for any necessary district formation, and adopt a bond resolution for the project.
 - **Short-Term Interest-Free Financing (STIFF)** - The STIFF program provides short-term financing to recipients that are developing projects eligible for long-term DWSRF

financing. STIFF is available for projects that are eligible to be funded from the current Project Annual List and have not completed construction. The amount available is limited to one-third of the estimated total project costs as set forth on the Project Annual List. Recipients that qualify for hardship assistance are not subject to the one-third project cost limitation. STIFF is not available to pre-finance any awarded grants.

- **Short-Term Market Rate Financing (SMRF)** – For projects with scores too low to be eligible for subsidized DWSRF financing or projects eligible for STIFF but with financing needs more than the one-third project cost limitation referenced above, short-term financing may be made available at EFC's short-term cost of funds (market rate). SMRF may be used to pre-finance third party grants. EFC and DOH encourage applicants to inquire about SMRF availability as we believe this financial assistance is generally less expensive and more convenient than traditional bond anticipation note financing.

For the current FFY, it is projected that \$75 million will be available for DWSRF SMRF. Upon reaching this threshold amount of SMRF transactions, DOH and EFC will, if prudent and necessary, revise the threshold. In the event a determination is made requiring the raising of the threshold, applicants may experience delays in SMRF funding. DOH and EFC intend to make SMRF available to as many applicants as possible. However, DOH and EFC have determined that additional considerations may need to be given to the process of SMRF allocation. Therefore, depending on the number of applications received and the total dollar amounts associated with them, the following priorities which are in order of public health benefit may be applied, if necessary, to DWSRF SMRF availability:

- Projects on the Annual List with scores above the subsidy funding line requiring short-term financing in excess of the amount available under the Short-Term Interest-Free Financing (STIFF) Program. This can include financings beyond the STIFF for Annual List projects and pre-financing of third-party grants.
 - Projects on the Annual List that require additional funds prior to the leveraged financing pool.
 - Projects on the Annual List that have been awarded NYS Water Infrastructure Improvement Act (WIIA) or Intermunicipal Water Infrastructure (IMG) grants, and are seeking DWSRF co-funding for the remaining project costs.
 - Projects on the Annual List below the Subsidy Line and not reachable for subsidy via bypass between the Subsidy Line down through 45 points. DOH and EFC, may elect not to process applications for SMRF for projects with priority health ranking scores of 40 points or lower or for program and or project financial capacity considerations regardless of public health ranking.
2. **Leveraged Financing** - Leveraged Financings are DWSRF financings funded from bond proceeds. Certain bond series issued to fund DWSRF financings will be secured by federal and state match dollars deposited to and held in program financing indentures. Leveraged Financings will be at market rate or receive a 33 1/3% interest subsidy.
 3. **Regular Reduced Rate Direct Financing** - Regular Reduced Rate Direct Financing will be made available to recipients not eligible for Leveraged Financing. Direct Financing recipients are determined by EFC and may include non-investment grade borrowers or small financing requests.
 4. **Hardship Financing** – Direct or Hardship Financing will be made available to qualified recipients at rates as low as zero percent. Certain hardship eligible recipients may receive

leveraged financing. A description of the DWSRF Disadvantaged Community Program is provided in Section 7.0.

5. **Additional Financial Assistance (Grants)** – Grants, also called additional subsidy, may be made available to eligible qualified recipients. A description of the DWSRF Disadvantaged Community Program is provided in Section 7.0.
6. **Emergency Financing** - The DWSRF emergency financing program allows for the expedited financing to eligible public water systems for emergency situations as defined in Attachment I of this IUP. This funding is only available to public water systems for projects when no other funding source is available to the system. The determination of when an emergency exists would be made by the DOH. Imminent threats to public health would include situations that result in the unavailability of a source of potable water at an existing public water system for an extended period. Projects that are designed to address such emergency situations will receive the highest priority ranking and will be added to the Project Annual List. These projects would receive the priority for any funds that are by-passed in accordance with by-pass procedures authorized in Section 12.2 of this IUP.
7. **SRF Bond Market Rate Program** - The SRF Bond Market Rate Program provides eligible financing recipients with project scores below the subsidy funding line on the Project Annual List access to the public market at preferred market rates. Projects funded with market rate obligations will be retained on the Project Annual List of the IUP for 5 years. For projects with scores that rise above the subsidy funding line during that 5 year period (including through by-pass), subsidy assistance will become available at the then target rate for the remaining term of the recipient financing.

4.7 Program Financial Terms

1. **Short-Term Financing** - Communities will borrow through the STFP by issuing municipal Bond Anticipation Notes (“BANs”) to the EFC. The EFC will provide funding in the amount of the BANS on an interest-free or EFC market rate basis. Upon maturity, the BANs may be retired with long term DWSRF financing, the issuance of long-term debt obligations by the community, or other funding. Applicants other than municipalities will borrow through the STFP by issuing a promissory note to EFC secured by a letter of credit if not PSC regulated. Only DWSRF market rate short-term funds will be available to pre-finance any awarded grants.
2. **Leveraged Financing** - The financing terms, including the payment of principal and interest, are based on the terms of the EFC’s bonds, proceeds of which fund the Leveraged Financing. Principal amortization will be required to commence the earlier of a) within one year of the project completion or b) no later than two years after closing the financing (consistent with New York State Local Finance Law). Principal amortization cannot exceed 30 years from the project completion date or the Period of Probable Usefulness, whichever is sooner. The interest subsidy is provided either from other program assets or interest earnings on the investment of the reserve allocation. Reserve investments will be limited to U.S. Treasury securities, U.S. Government guaranteed securities, securities of Government Service Enterprises (GSE) such as the Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation, GSE guaranteed securities, investment agreements collateralized by U.S. Treasury securities, U.S. Government guaranteed securities, GSE securities, and GSE guaranteed securities and entered into with banks, broker dealers or insurance companies rated in one of the two highest rating categories by each nationally recognized rating service that rates their obligations, and state obligations, state guaranteed securities or other qualified obligations rated in one of the two highest rating categories by each nationally recognized rating service that rates the bonds. As of the release date of this IUP, the most recent Effective Market Rate for leveraged financings made from New York’s

DWSRF program is **3.30%**. The Effective Interest Cost (EIC) for recipient financings based on this Effective Market Rate is approximately **2.20%** (1/3 subsidy). These rates are subject to change.

3. **Regular Reduced Rate Direct Financing** – Terms governing principal amortization are the same as those applicable to Leveraged Financing. Interest payable on the financing will be set at two-thirds of the interest rate, as determined by the most recent issuance of DWSRF bonds issued to provide financing to eligible recipients.
4. **Hardship Financing** - For eligible projects the terms governing principal amortization shall be up to 30 years from the project completion date or the period of probable usefulness, whichever is sooner. State law authorizes extended term financing with a final maturity up to 40 years for hardship recipients. The offer of extended term financing would be at DOH and EFC discretion and would be used on a limited basis to assist communities for which DOH and EFC determine an extended term would provide a significant benefit over the life of the financing. DOH and EFC are seeking approval from the EPA to provide extended term financing. Hardship financing interest rates will be as low as zero percent. A description of the DWSRF Disadvantaged Community (Hardship) Program is provided in Section 7.0.
5. **Additional Financial Assistance (Grants)** - Grants will be provided to qualified recipients based on the Hardship Criteria as outlined in Section 7. If determined to be eligible, projects will be ranked according to project priority ranking system score. Projects with the highest scores will receive confirmation letters for hardship grant assistance until the available funding is fully committed. To be considered for hardship grants, eligible projects must have a total numerical score (excluding bonus points) equal to or greater than that project on the Project Annual List where the Hardship Evaluation Eligibility Line is drawn.
6. **Emergency Financing** - Emergency financing would initially be issued as regular reduced rate direct financing. Interest payable on the financing would be set at two-thirds of the interest rate, as determined by the most recent issuance of DWSRF bonds for eligible recipient projects. However, before an emergency financing can be issued, the recipient must demonstrate credit worthiness and fiscal viability in accordance with EFC criteria. Privately owned water systems regulated by the Public Service Commission would be permitted to apply for funding only if the Public Service Commission has issued an order allowing the water system to surcharge its customers to repay the financing.
7. **SRF Bond Market Rate Program** - Bonds issued by eligible recipients and guaranteed by the EFC will be purchased by the EFC from proceeds of DWSRF bonds publicly issued by the EFC to investors. All avenues of recourse currently available to the EFC will apply with respect to recipient bonds guaranteed by the EFC, including its statutory right to intercept any state aid annually appropriated by the state to the recipient.

4.8 Fund Management and Long-Term Effects of Funding Decisions – Leveraging

A significant need exists for financial assistance for eligible drinking water projects in New York State. The US EPA *Drinking Water Infrastructure Needs Survey and Assessment* is done approximately every four years. The most recent *Drinking Water Infrastructure Needs Survey and Assessment – Sixth Report to Congress* dated March 2018 estimated that more than \$22 billion will be required in New York State over the next twenty years to ensure continued delivery of safe public drinking water. DWSRF IUP Listing Forms received by the DOH indicate an aggregate need of approximately \$7.95 billion over the next several years based on the IUP Multi-year list. Anticipated project financing needs for this current IUP funding cycle, is \$5.01 billion based on projects listed on the IUP Annual List. Given these needs, New York State plans to continue to leverage the available DWSRF capital by a factor of three to one.

All DWSRF financings are made in a fiscally responsible manner that will ensure the revolving nature of the program in perpetuity. In addition, the fiscal aspects of the program are regularly evaluated to ensure optimum use of DWSRF resources. The long-term effect of leveraging the DWSRF three to one will be to extend the reach of financial assistance benefits to more New York State public water systems than could be served if leveraging were set at a lower level.

5.0 Amending the IUP

This IUP may be amended during the funding cycle to reflect both programmatic and/or project specific changes. Draft IUP amendment notices will be published in the New York State Department of Environmental Conservation (DEC) Environmental Notice Bulletin (ENB). At the end of the public comment period, responses to comments will be made available and the final amendment notice will be published in the ENB and posted at www.efc.ny.gov/dwiup.

6.0 Set-Aside Activities

Section 1452 of the SDWA authorizes states to use a portion of the federal capitalization grant (set-asides) to support various drinking water programs. Section 1452 allows up to 31% of a state's federal capitalization grant to be used for administrative activities, technical assistance activities, state program management activities, and special activities. New York State proposes to use 16% of the capitalization grant for set-aside purposes for the current funding cycle. The State intends to maximize the use of capitalization grant monies for water system infrastructure projects. Therefore, only those funds considered essential for DWSRF and water supply program support have been allocated to set-aside activities. Also, any unused set-aside monies can be transferred to the project fund after receiving an approved amendment to the capitalization grant. Descriptions and budgets of the set-aside monies for the current funding cycle will be included in the federal capitalization grant application set-aside work plans. The intended use of funds and accomplishment goals for each set-aside are described below. Table 2, presented at the end of this section, specifies intended set-aside allocations.

6.1 Administrative

The SDWA authorizes states to use up to 4% of the total annual federal capitalization grant (as provided in Section 130 of the SDWA Amendments of 1996) to support the cost of administering the DWSRF program. The State plans to use 4% of the total annual federal capitalization grant for administrative activities.

Administrative tasks include, but are not limited to: developing and finalizing the capitalization grant application package to secure federal funds; implementing the Operating Agreement (OA) between the DOH and the US EPA; performing technical project reviews and ranking project proposals in priority order; preparing an IUP which identifies available funding resources and expenditures and establishes current year and multi-year project priority lists; implementing a State Environmental Review Process; reviewing and approving engineering reports, construction plans and specifications; conducting project inspections; evaluating and determining specific project affordability (hardship); conducting public participation efforts; conducting database management activities; establishing DWSRF accounts; directing the investment of DWSRF funds; preparing project financing agreements (including cost summaries and project financing schedules); preparing necessary financial documents; issuing Corporation Bonds and originating financing; establishing annual reserve allocations; establishing disbursement schedules; processing disbursement requests and conducting associated document reviews; collecting and managing repayments; establishing and collecting DWSRF fees; insuring program and fiscal audits are conducted; and preparing technical and financial reports to meet federal and state mandates.

6.2 Technical Assistance

Section 1452(g)(2)(D) of the SDWA authorizes states to use up to 2% of the total annual federal capitalization grant to provide technical assistance to small water systems (those with populations of 10,000 or fewer). This technical assistance may include assistance to potential DWSRF applicants complying with federal and state drinking water regulations. The State plans to use 2% of the total annual federal capitalization grant to continue to fund the enhancement of the State's existing Small Water Systems and Comprehensive Performance Evaluation Programs and provide for direct technical assistance to small water systems.

6.2.1 Small Water Systems

The DOH implements the Small Water Systems program aimed at providing direct technical assistance to small communities experiencing operational, emergency, or compliance problems.

Since its inception, the DOH's Small Water Systems Technical Assistance Program has helped numerous communities improve their drinking water systems while saving money using self-help techniques. The purpose of this program is to offer technical assistance to address the needs of small community water systems. The DOH, often working with and through, its partners at the NYS Environmental Facilities Corporation, the NY Rural Water Association, the Rural Community Assistance Program, and other associations, provides guidance to communities in considering project alternatives, calculating alternative project costs, preparing budgets for selected projects and reviewing existing operation and maintenance practices. Additionally, the Program has assisted communities to develop criteria for consultant selection, determine project priorities, select the most sensible project, use inexpensive but qualified labor and materials, use volunteers or municipal forces, and avoid duplication of services. This assistance is useful to the small water systems in helping them improve their overall capacity.

During FFY 2021 the DOH Small Water System Program proposes to:

- provide direct technical assistance to small community water systems via routine consultation and referral;
- oversee the "circuit rider" contract that provides on-site training and other direct technical assistance to manufactured housing communities, mobile home parks and other small community and non-transient non-community public water systems (those not currently served by such a program), including a review of the contractor's quarterly progress reports on which continued funding is contingent.
- coordinate available US EPA sponsored SDWA compliance training and guidance to small water systems;
- coordinate federally offered Technical Assistance to ensure that help is provided at very needy, non-complying water systems;
- provide guidance to small water systems on emergency preparedness, vulnerability assessment, and security-related initiatives;
- coordinate sampling and analytical assistance to small systems for required organic, inorganic, and radiological water quality compliance testing;
- participate in meetings with the public and individual systems, as opportunities arise, to explain the Small Systems Technical Assistance Program and its advantages to local communities;
- encourage small water systems and local health department (LHD) staff to consider collaborative or regional approaches to water supply services, such as consolidating and/or seeking legislative authorization for municipal regionalized water systems;

- encourage small water systems to form partnerships, initiate contract operation and maintenance agreements, and implement mutual-aid agreements as via the New York Water and Waste Water Agency Response Network (NYWARN);
- implement a number of small system projects and otherwise assist small systems endeavoring to find technical and economically-viable solutions to long term compliance issues, focusing primarily on communities applying for DWSRF financing but also working with those using other means of financing.

6.2.2 Comprehensive Performance Evaluation Program

The primary Comprehensive Performance Evaluation (CPE) program goal is to review and evaluate the capabilities of existing treatment facilities to determine if they are meeting current standards and performance goals. A secondary, but equally important goal is to develop a program, based upon the evaluation, for the optimization of each facility to assure compliance with current and future standards and regulations.

The DOH's CPE program has resulted in the detailed assessment of 146 water treatment facilities since November 1994. Although most of these plants are able to meet the current Filtration Performance Criteria and Maximum Contaminant Levels (MCLs), the structural, operational and administrative deficiencies noted in the evaluations will make it difficult for many of these systems to do so consistently, and to comply with future regulations without considerable operational or capital improvements. There are approximately 320 surface water filtration systems and more than 200 ground water filtration systems for microbial contaminants on ground water systems determined to be under the direct influence of surface water (GWUDI) and several hundred filtration/treatment systems for the removal of other (eg. chemical) contaminants in New York State.

During the current FFY funding cycle the DOH goals are to:

- conduct 1 - 2 CPEs as necessary for compliance with 40 CFR 141.563(c), complete with a detailed evaluation report, recommendations, and follow-up meetings with the community to review the report, outline necessary improvements, and discuss an optimization program. This task will be accomplished with bureau staff and other field staff that may be temporarily assigned to lead or assist staff conducting the CPEs;
- continue to develop and issue comments and recommendations for initial remedial actions to the community within 30 days after the completion of the field work, followed by the submission of the completed evaluation report to the community within an average of 180 days after the completion of the field work;
- conduct Focused Performance Evaluations (FPE's) as necessary to assess specific operational issues including filter media evaluations, DBP and disinfection assessments, TOC/color problems and GWUDI treatment assessments;
- conduct follow up visits, as time permits, at communities that had a FPE/CPE to determine the degree of implementation of the recommendations, to discuss any new difficulties at these facilities, and to support communities having a specific critical problem; and
- improve where needed/ appropriate, training of field staff responsible for follow-up, making equipment available where needed and holding workshops on trouble-shooting techniques as appropriate.

6.3 State Program Management

The SDWA authorizes states to use up to 10% of the total annual federal capitalization grant to support state program management activities. The State plans to use 10% of the total annual federal capitalization grant to administer the Public Water System Supervision (PWSS) program.

6.3.1 Administer the PWSS Program

The PWSS program enables the DOH to continue administration and oversight of the drinking water program, ensuring consistency in the implementation of and compliance with the requirements of the New York State Sanitary Code on a statewide basis. Additionally, the PWSS program assures that public water systems are operated in a manner that ensures adequate protection of their source water(s) and delivery of potable, aesthetically pleasing drinking water.

To achieve these goals, the DOH plans to implement the following objectives during the current FFY and subsequent years:

- assure continued compliance with Part 5 of the State Sanitary Code;
- coordinate with the DOH Wadsworth Center to assure that State Laboratory capabilities are maintained;
- provide technical assistance to public water systems in achieving compliance;
- assure public health protection at public water systems using surface water sources;
- assure public health protection by developing, adopting and implementing mandatory federal drinking water regulations into the State Sanitary Code, including development and submittal of primacy packages;
- ensure that local health department water supply programs properly implement the program;
- assure that water supply facilities are built in accordance with proper design criteria by providing conceptual review and design approval of new construction and major modifications to water supply systems;
- continue to assess whether community groundwater systems may be under the influence of surface water;
- continue to implement the State's Capacity Development Program including submitting the Annual Capacity Development Report to the U.S. EPA by December 31st of each year and submitting the triennial Report to the Governor; continue to implement the Source Water Assessment and Protection Programs and Well Head Protection Program;
- continue to perform security inspections of public water systems;
- assure potable water is provided during water supply emergencies;
- assure staff are properly trained;
- assure that water systems are operated by certified operators;

- continue to collaborate and assist US EPA with initiatives such as the Child Health Initiative and the Unregulated Contaminant Monitoring Rule;
- continue to track NYC filtration avoidance compliance; and
- ensure that all US EPA reporting requirements under the grant are met and that US EPA proposals for regulations and policies are promptly commented upon as requested

6.4 Special Activities

Section 1452(k) of the SDWA authorizes states to use up to 15% of the annual federal capitalization grant for land acquisition, capacity development projects, wellhead protection, and source water petitions. No more than 10% of the federal capitalization grant can be allotted to any one of these special activities. At the time of this IUP printing, New York State is not proposing to take or use any of the set-aside funds from the current FFY funding cycle's DWSRF capitalization grant for the following programs. However, New York State reserves the right to issue an IUP amendment during the Federal Fiscal Year to use set-aside funds for these activities.

1. Land Acquisition

Funds in the DWSRF can be used to purchase land integral to the construction of facilities, but not for other purposes such as watershed protection. A separate set-aside of 10%, however, may be used to establish a separate low-interest fund for land acquisition, particularly for watershed protection. New York State is not proposing to create such a fund at this time. There are a number of existing programs that can be used to purchase sensitive watershed lands. These include the State's 1986 Environmental Bond Act, the 1996 Clean Water/Clean Air Bond Act, the New York City Watershed Agreement, the Clean Water State Revolving Fund, as well as local, regional and private sources. The State will review the need to create additional capacity for land acquisition as part of its source water assessments and delineation efforts.

2. Capacity Development Projects

The State has proposed to use a portion of the allotted Program Management set-aside to implement the statewide capacity development strategy. The DOH with input from the EFC, the New York State Public Service Commission, the Office of State Comptroller, and other state agencies will use the capacity development strategy to address non-viable public water supplies in the State.

3. Wellhead Protection

The DEC developed New York's Wellhead Protection Program (WHPP), which was approved by the US EPA in 1990. The goal of the WHPP is to protect the ground water sources and wellhead areas that supply public drinking water systems from contamination. New York's approach to wellhead protection recognizes and includes the existing federal, state and county programs that protect groundwater, and compliments these programs through a combination of activities and efforts using existing public and private agencies and organizations at all levels. In New York, the WHPP has focused on assisting municipal community water systems with an interest in developing protection plans for their ground water supplies.

In October 1998, administration of New York's WHPP was transferred from the DEC to the DOH. The basis for the transfer of this program responsibility was due to the creation of the Source Water Assessment Program (SWAP) under the 1996 SDWA Amendments and the need to ensure efficiency and compatibility in the administration of these key water supply management programs. The WHPP and the SWAP share several similar program elements (e.g., delineation and contaminant inventory) for identifying areas of source water vulnerability to contamination,

and both programs provide a foundation for focusing source water protection efforts at the local level.

The DOH submitted a Biennial Wellhead Protection Report to the US EPA on November 15, 1999 for the October 1997 through September 1999 reporting period. This biennial report was prepared in accordance with the reporting requirements and criteria outlined in the US EPA guidance provided to states and is consistent with previous New York State submittals on progress reporting for the WHPP. The DOH submitted a Biennial Wellhead Protection Report, using the 2001 Source Water Assessment and Protection Reporting Matrix, to the US EPA on November 9, 2001 for the October 1999 through September 2001 reporting period. Future wellhead protection reporting, if done, will be prepared in accordance and be consistent with any revised US EPA reporting requirements that may become available.

4. Source Water Petitions

The DOH continues to work with communities to improve source water protection throughout the state. Assessments of drinking water sources were completed in the Source Water Assessment Program (SWAP) and all new sources are required to complete assessments of the susceptibility of the source to contamination. No source water petition partnerships are anticipated at this time and therefore there is no intention to develop a financing program for them during this FFY.

TABLE 2 INTENDED USE & DISTRIBUTION OF NYS DWSRF FFY 2021 SET-ASIDE FUNDS				
Set-Aside	% Allowed by SDWA	FFY 2021 Maximum Allocation¹ Allowed by SDWA	NYS %	NYS's FFY 2021 Use
Administration DOH (2%) EFC (2%) ²	4%	\$1,800,000	4%	\$1,800,000 (\$900,000) (\$900,000)
Technical Assistance DOH	2%	\$900,000	2%	\$900,000 (\$900,000)
State Program Management Administer PWSS Program DOH	10%	\$4,500,000	10%	\$4,500,000 (\$4,500,000)
Special Activity Set-Asides^{3 & 4}	15%	\$6,750,000	0%	\$0
Land Acquisition	(10%)	(\$4,500,000)		
Capacity Development	(10%)	(\$4,500,000)		
Wellhead Protection	(10%)	(\$4,500,000)		
SW Petition Programs	(10%)	(\$4,500,000)		
Total Set-Asides⁵	31%	\$13,950,000	16%	\$7,200,000

¹ Based on an estimated Federal Capitalization Grant of \$45,000,000 and is subject to change.
² Depending on DOH/EFC program needs, DOH and EFC may adjust the percentages of the Set-Asides.
³ No more than 10% for any individual component and a total of 15% under Special Activity Set-Asides.
⁴ Future IUP amendment may be issued to use set-aside funds for these activities depending on program needs.
⁵ The US EPA Safe Drinking Water Act allows for States to use up to 31% of the federal Capitalization Grant for set- asides and NYS intends on using only 16% of the federal Capitalization Grant for total set-asides.

7.0 Disadvantaged Community (Hardship) Program

7.1 Introduction

DWSRF hardship assistance includes grants and/or interest-free financing. Since the inception of the program, the DOH and the EFC exercised the federal SDWA Hardship Provision that allowed states to utilize up to 30% of their annual DWSRF federal capitalization grant to provide additional financing subsidies (Grants) beyond the interest-free financing rate to eligible disadvantaged communities. States are federally required to use no less than 26% of their federal capitalization grant for additional financing subsidies in the form of grants, negative interest loans, or principal forgiveness provided there are sufficient disadvantaged community projects available. It is anticipated that NYS will use 20% of the federal capitalization grant for additional subsidy in the form of grants to disadvantaged communities and may use 6% of its federal capitalization grant to provide additional financing subsidies in the form of principal forgiveness to eligible disadvantaged communities. Table 3 reflects the total project financings, the cumulative amount of grant funds that have been provided to disadvantaged communities and the estimated new additional subsidy that may be provided during this FFY funding cycle.

Federal Fiscal Years	Federal DWSRF Dollars Provided to NY State (Capitalization Grants)	Executed Project Financings & Grants	Additional Subsidy Awarded to Disadvantaged Communities
1997 - 2020	\$1,361,052,943	\$7,306,944,855	\$384,046,424 ²
2021 (Estimated)	\$45,000,000		\$9,000,000 ³
¹ Includes financings, refinancings and grants awarded since program inception. ² Total DWSRF hardship grants awarded to disadvantaged communities since program inception ³ Estimated new hardship grant commitments to be provided = 20% of the Federal Capitalization Grant. .			

Municipalities with eligible drinking water infrastructure projects may qualify for hardship (interest-free) financing through the DWSRF. Certain municipalities that qualify for hardship financing may additionally qualify to receive grant funding as available through the DWSRF. Available grant funds are awarded for eligible projects in order of public health priority until exhausted.

DOH and EFC qualify municipalities or eligible public water systems for hardship financing based on the DWSRF public health priority ranking of the project and publicly available census data rather than requiring detailed demographic and economic data from the municipalities. For the current FFY, DOH and EFC are using data from the 2017 American Community Survey (ACS) 5-year data, published by the US Census Bureau. In addition, the Hardship Policy includes regionally adjusted MHI thresholds used for determining hardship eligibility. Projects serving Environmental Justice (EJ) areas may also qualify for hardship eligibility. Projects in EJ areas that do not otherwise qualify for hardship based on MHI or poverty rate criteria will be considered for hardship eligibility if at least 50% of the project cost or project scope serves, protects, or benefits an identified EJ area. The Hardship Policy is available at www.efc.ny.gov.

7.2 Restrictions on Hardship Financing

Eligible Applicants are limited to \$14 million in interest-free financing over a 5-year period. Municipalities that reach the \$14 million limit will be eligible for additional interest-free financing five years after the FFY in which the \$14 million limit is reached. Eligible project costs above the \$14 million interest-free financing threshold may be financed through the DWSRF program at the regular subsidized interest rate.

For special districts or other areas for which accurate census data is not available, other income data, including income surveys, may be provided by the municipality and considered by DOH and EFC. The income survey must be in a form acceptable to DOH and EFC. If the project service area encompasses multiple municipal jurisdictions which have different MHIs, a “weighted average” MHI, based on approximate residential units served by the project, will be calculated and used in determining eligibility for hardship financing. Municipalities and eligible privately owned public water systems have the option of submitting an income survey to justify inclusion as a hardship community if they disagree with the census data.

7.3 Hardship Financing and Grant Eligibility Criteria

While DOH and EFC have been providing hardship assistance in the form of interest-free financing and additional subsidy (grants) to public water systems since the inception of the DWSRF program, the provision of additional subsidization became a federal requirement in FFY 2010.

Hardship Eligibility Criteria:

To be considered for hardship assistance including grant and/or interest-free financing, public water system projects must meet the following criteria:

- Must be a municipally-owned or NYS Public Service (PSC) Regulated Privately owned drinking water infrastructure project;
- Must be listed on the Annual List with a score equal to or greater than the score at the Hardship Evaluation Eligibility line. If insufficient qualifying projects exist above the line to award all the required additional subsidy, projects below the line may be considered in public health priority order until all of the required additional subsidy is awarded;
- Municipal population must be less than 300,000 per the 2017 American Community Survey. Alternatively, a public water system with a population greater than 300,000 can qualify if the project is for an established water district or a service area with a population less than 300,000. An income survey of the water district or service area would be required;
- At least one of the following criteria must be met:
 - The Median Household Income (MHI) of the municipality must be less than 80% of the regionally adjusted statewide MHI; or
 - For projects in communities with an MHI of between 80% and less than 100% of the regionally adjusted statewide MHI, the community must have an American Community Survey family poverty rate greater than the statewide family poverty rate of 11.3%; or
 - At least 50% of the project cost or project scope must serve, protect, or benefit an identified EJ area.
- Projects for communities with an MHI equal to or greater than 100% of the regionally adjusted statewide MHI, and that do not meet the EJ criteria outlined above, are not eligible;
- An income survey, Census Designated Place (CDP), or other acceptable demonstration of a more accurate MHI for the service area may be used in lieu of the American Community Survey published MHI;

- Project construction cannot reach substantial completion prior to October 1 of the FFY in which the hardship assistance is awarded;
- The project must not have closed on DWSRF short-term financing prior to October 1 of the FFY in which the hardship assistance is being awarded. For phased projects, closing a short-term or long-term financing on a previous phase may not preclude a subsequent phase from hardship eligibility;
- The project must not have closed on long-term financing.

7.4 Determination of Maximum Grant Award

Projects and municipalities are subject to a maximum grant award as described below:

- Projects are limited to the lesser of \$3 million or 60% of total net project costs after outside grants;
- Municipalities or projects that reach the DWSRF maximum grant offer of \$3 million will be eligible for additional DWSRF grant funds five years after the FFY in which the \$3 million limit is reached.
- No municipality could receive more than their maximum grant award for any combination of projects, and no single project (if shared by more than one municipality) would receive more than the maximum grant amount of \$3 million or 60% of the total net project cost, whichever is less.

7.5 Project Evaluation and Identification

Projects that meet the hardship criteria above and receive a hardship confirmation letter will receive an “H” designation on the Annual List in the following IUP. DOH will determine a set amount of funding each FFY that will be available for grants and interest-free hardship financing based on a percentage of the federal capitalization grant and total resources available respectively. DOH will determine the projects that meet the criteria necessary to be evaluated to receive a hardship confirmation letter offering interest-free hardship financing and, if applicable, grant. Using the amount of funding available for both hardship interest-free financings and grant, DOH will determine which eligible projects, in order of public health priority ranking can be issued hardship confirmation letters. After finalization of the IUP, hardship confirmation letters will be sent to qualifying municipalities stating that they are eligible to apply for interest-free hardship financing and, if applicable, grant.

DOH and EFC may modify the data being used to evaluate for hardship and/or grant awards. Such modifications will be announced in a draft IUP or through IUP amendments. DOH and EFC will continue to honor the commitment of hardship financing and grant, if offered, to those municipalities whose census data change during the hardship/grant offer period.

7.6 Timing for closing on Interest-Free Financing and Grant

Municipalities issued hardship confirmation letters at the beginning of each FFY (year 1) will have until the application deadline in the following FFY (year 2) to submit a complete financing application, and until the end of the following FFY (year 2) to close on a financing. The dates will be specified in the hardship confirmation/grant offer letter.

A municipality will need to close on DWSRF short-term or long-term financing before the confirmation letter expires to remain eligible for hardship financing. Submittal of a short-term financing application and closing of a short-term financing will qualify as meeting the submittal and approval dates stated within the DWSRF hardship confirmation letter. For hardship eligible municipalities that close a short-term financing, the financial hardship eligibility expiration date will become the short-term financing maturity date and the municipality will need to close on their hardship long-term financing before that date. If a municipality has not executed a DWSRF financing by the expiration date identified in the confirmation letter the municipality will be considered for hardship eligibility evaluation in the next IUP period using the hardship evaluation criteria in place for that IUP. At the discretion of DOH and EFC, for those municipalities that are under formal project related compliance orders and have demonstrated diligence with respect to closing but are unable meet the hardship eligibility expiration date, or for projects that are delayed due to demonstrated circumstances beyond the control of the municipality, consideration may be given for a time extension.

7.7 Co-funding

Confirmation that a project qualifies for hardship assistance will help facilitate funding coordination with other State and Federal agencies that finance drinking water projects. The New York State Water and Sewer Infrastructure Co-funding Initiative brings together representatives from the DOH, EFC, DEC, Department of State, Office of Community Renewal, United States Department of Agriculture Rural Development, Office of the State Comptroller, and New York State Energy Research and Development Authority to ensure optimum funding potential and assistance for New York's communities.

Co-funding is anticipated and encouraged by the provision of additional points to a project's score in the priority system. A project must receive co-funding assistance of either \$25,000 or 5% of the project costs, whichever is less, to qualify for project co-funding points. Coordination of joint funding of projects is done on a project by project basis for those projects that apply to multiple funding entities.

8.0 Capacity Assessment

To provide safe and reliable drinking water, the federal and state governments are investing substantial financial resources in the drinking water infrastructure of New York State. To assure the DWSRF is invested wisely, each DWSRF applicant must demonstrate that its water system has adequate technical, financial and managerial capacity.

8.1 Technical Capacity

To assure adequate technical capacity, the applicant must demonstrate adequacy of source water, adequacy of infrastructure and technical knowledge. The DOH will review central office and local office records to assure that the system is being properly operated and maintained. The water system must not have outstanding drinking water compliance problems unless the project is aimed at correcting those problems. The engineering report and plans and specifications for the proposed project will be evaluated to ensure that the system has a reliable source for its

drinking water and that it is adequately protected; that the project will maintain system compliance; and that the education, experience, and technical skills and capabilities of the system operator are appropriate for that system.

8.2 Financial Capacity

To assure adequate financial capacity, the applicant must have sufficient rates, charges and revenues to cover necessary costs, demonstrate credit worthiness and fiscal condition in accordance with EFC criteria. The EFC will review the applicant's financial capacity during the full application process to determine financial viability before the awarding of financial assistance. The EFC's review will include, but not be limited to, the project budget, municipal bond resolution(s), annual financial reports to the Office of the State Comptroller, and other financial information to assure adequate financial capacity of the applicant.

8.3 Managerial Capacity

To assure adequate managerial capacity, the water system must have clear ownership identity and be appropriately staffed by personnel with expertise to administer overall water system policies and operations. The DOH will review the applicant's managerial capacity to assure that management is involved in the day to day supervision of the water system, is aware and responsive to all required regulations, is available to respond to emergencies, is capable of identifying and addressing all necessary capital improvements, is responsive to their customers and is capable of keeping accurate records and assures financial viability. The water system must have a qualified water operator in accordance with the State's existing Operator Certification Program.

8.4 Systems with Inadequate Capacity

For all systems that seek funding under the DWSRF, the DOH will review any history of violations, outstanding compliance problems, reported source contamination or inadequacies, treatment failures, needs survey data, operations and maintenance issues, and operator and owner coverage to determine whether a system lacks adequate capacity. A system that requires improvements to obtain adequate capacity can apply to the DWSRF provided the improvements will ensure compliance and render the water system viable. Using the procedures outlined in Sections 8.1, 8.2, and 8.3 to evaluate the system's technical, financial, and managerial capacity, the DOH will assess whether DWSRF assistance will help to ensure compliance. In addition, the DOH will consult with the local health department, which provides the daily oversight and regulation of the water system, to make this assessment.

8.5 Long-Term Capacity

Water systems must maintain adequate capacity. The DOH and EFC will assess whether each water system has a long-term plan to undertake feasible and appropriate changes in operations necessary to develop adequate capacity. The DOH will review Water Resource Management Strategies, Comprehensive Studies, the Needs Survey and other available engineering reports, as well as consult with the local health departments, in making these assessments. The DOH and EFC will encourage restructuring efforts when two or more systems can benefit and other options, such as contract management or partnerships with other communities in their area, in an effort to improve the overall capacity. The priority ranking criteria provides additional points to encourage this objective. In addition, restructuring efforts and other cooperative arrangements among systems will be encouraged as part of the implementation of the statewide capacity development strategy.

8.6 Annual Reporting Requirements

The State will submit to the US EPA and include in the IUP, documentation that summarizes the results of the capacity assessments conducted on those systems seeking funding under the DWSRF in the preceding year. The summary will include statistics on the numbers, types, and sizes of systems assessed to determine technical, managerial, and financial capacity, including the assessment outcomes; whether DWSRF assistance will ensure compliance for those systems with inadequate capacity; and whether restructuring efforts will result in both developing adequate capacity and achieving long-term capacity for systems. Table 4 summarizes the required capacity assessment information.

Table 4 - Capacity Development Review Summary (10/1/19 – 9/30/20)						
Statewide Capacity Reviews	Totals	System Type:		System Size (population served)		
		CWS	NTNC	<1000	1,000-3,300	>3300
Passed	39	39	0	11	11	17
Failed	0	0	0	0	0	0
(Failed) Requiring Restructuring	0	0	0	0	0	0
ERP Priority Systems ¹ Requesting DWSRF Assistance	Funded	0	0	0	0	0
	Being Processed	1	1	0	0	0

¹ Projects submitted by systems that lack technical, managerial or financial capacity or are classified as priority systems based on US EPA's Enforcement Targeting Tool (ETT) are not eligible for funding unless the proposed project will ensure capacity or compliance. Also, projects whose primary purpose is fire protection or growth/development, dams and reservoirs, or acquisition of land not integral to an eligible project are not eligible.

9.0 State Environmental Review Process/Determination of Equivalency Projects

The State Environmental Review Process (SERP) applies to all projects receiving financial assistance from the DWSRF. The SERP incorporates environmental review requirements of the National Environmental Policy Act (NEPA) and its implementing regulations (40 CFR, Part 6 and 40 CFR, Part 1500), the State Environmental Quality Review (SEQR) Act, Article 8 of the Environmental Conservation Law (ECL) and its implementing regulations under 6 NYCRR, Part 617, as well as the DOH regulations under 10 NYCRR, Part 97. The DWSRF applicant must complete the SERP before receiving DWSRF financing.

A SEQR Type 1 coordinated review must be performed for all DWSRF projects unless the projects are a SEQR Type II action or a Categorical Exclusion under NEPA or have performed a Federal NEPA review.

All projects that are financed from the DWSRF are classified by the DOH under the SERP as either Tier I or Tier II projects. Tier I projects, also referred to as equivalency projects, refer to a project or multiple projects that meet the NEPA threshold and whose cumulative total is an amount equal to the federal capitalization grant to the State. Tier II projects, (non-equivalency projects), refer to all other projects that receive DWSRF financial assistance.

Tier I projects must undergo an environmental review consistent with the NEPA. For the DWSRF program, Tier I projects will include:

- projects for which an environmental review consistent with NEPA has already been completed; and
- projects that meet the definition of a NEPA categorical exclusion.

If necessary, additional Tier I projects will include:

- projects for which applicants have voluntarily undertaken to complete a NEPA equivalent environmental review;
- projects that have a particular environmental significance, due to the nature and scope of the projects; and
- projects for which the environmental review can be considered functionally equivalent to a NEPA environmental review, with some minor additional elements.

Tier II projects are subject to the environmental review requirements of SEQRA with additional requirements imposed by the SERP for the DWSRF program. Applicants will be notified by the DOH whether their project(s) proposed for financing through the DWSRF program fall under the category Tier I (equivalency) or Tier II.

10.0 Federal and State Program Requirements

The federal and state program requirements cited below are not meant to be all inclusive but are prominent requirements that prospective program applicants need to be aware of and comply with for receiving financing through the DWSRF program. Additional guidance related to items 10.1, 10.2, and 10.3 below is available in the Construction Bid Packet for Treatment Works Projects at www.efc.ny.gov/Bid-Packets .

10.1 American Iron and Steel

As of January 17, 2014, the use of American Iron and Steel (AIS) became a federal requirement for projects funded through the DWSRF and that requirement will be continuing for the current FFY DWSRF funding cycle.

10.2 Federal Prevailing Wage (Davis-Bacon)

Congress has mandated that federal labor laws regarding prevailing wages, hours of work, and rates of pay shall apply to construction carried out in whole or in part with assistance from the DWSRF. These requirements are collectively known as the Davis-Bacon laws. These requirements are in addition to the requirements of NYS prevailing wage laws. US EPA guidance requires that any DWSRF financings comply with the Davis-Bacon laws and incorporate these provisions into any project construction work that has been or will be contracted. Work done by a municipal applicant's employees, generally known as "force account" or "work force", is not generally subject to Davis-Bacon requirements.

10.3 Minority and Women Business Enterprise/Equal Employment Opportunity

EFC maintains a robust MWBE program that includes training, technical assistance and guidance for SRF recipients. EFC is also committed to creating opportunities for certified firms to participate on all SRF projects as both prime contractors and subcontractors. EFC's MWBE program requires prime contractors and service providers to conduct good faith efforts to achieve a 20% combined MBE and WBE participation goal for their contract.

All applicants must incorporate MWBE provisions and requirements into all contracts pursuing DWSRF financial assistance, including costs incurred prior to application. Failure to adequately incorporate and carry out MWBE provisions and requirements in any contract will result in the loss of DWSRF financial assistance for that particular contract.

EFC's MWBE program complies with both federal and state regulations. Federal Disabled Business Enterprise regulations are found in Title 40 of the Code of Federal Regulations (CFR), Part 33 and require SRF recipients to offer fair share opportunities for agreements and/or sub-agreements to disadvantaged, minority and woman-owned businesses.

The NYS law and regulations for Minority and Women Owned Business Enterprises can be found in Executive Law, Article 15-A, and Title 5 of the New York Code of Rules and Regulations (NYCRR), parts 140-145. The NYS laws and regulations may be amended from time to time so the SRF recipients should check EFC's website for news about any updates that may affect SRF requirements.

10.4 State Smart Growth Public Infrastructure Policy Act

On August 30, 2010, the New York State Environmental Conservation Law was amended to add the State Smart Growth Public Infrastructure Policy Act. This law required that starting September 27, 2010, any new or expanded public infrastructure project receiving financing from a state infrastructure agency must be consistent with the relevant smart growth public infrastructure criteria as they are defined in the law to the extent practicable. DOH requires that a smart growth assessment form be submitted with along with the DWSRF project listing form to add a new project to the IUP and those forms are available in Attachment IV of this IUP. Depending on the project scope, DOH may also require as a part of the engineer's report and/or through other DWSRF application materials that may be developed, an analysis of the project with respect to its compliance with the criteria of the smart growth law. If this analysis is determined to be required and has not been provided, DOH will notify the applicant during the review process for the engineer's report.

11.0 How to get a Project Listed & Financed

Projects must appear on the IUP Annual List to be eligible to apply for DWSRF financing. The type of financing available is dependent on the public health priority ranking of the project and its relation to the subsidized interest rate funding line and hardship evaluation eligibility line on the Annual List. Projects below the subsidized interest rate funding line are eligible to apply for market interest rate financing and projects above that line are eligible to apply for subsidized interest rate financing. Eligible projects with a score above or equal to that score where the hardship evaluation eligibility line is drawn will be evaluated for hardship assistance which may consist of grant and/or zero interest rate financing depending on availability. Applicants that qualify for hardship assistance will be notified in writing that their project qualifies.

11.1 How to Get a Project Listed in the IUP or Placed on the Annual List

For Projects Not Currently Listed in the IUP

- Submit a listing form & Smart Growth Assessment form (**see Attachment IV of this IUP**).

- An engineering report is required along with the listing form to get the project listed on the Annual List. The engineering report needs to be in accordance with the Engineering Report Outline which is available at www.efc.ny.gov/DWSRFApply. Listing Forms submitted without an engineering report will result in the project being on the multi-year list only and that project may not be eligible to apply for financing until such time that an engineering report is received and the next funding cycle's IUP is released.
- DOH accepts listing forms on a continual basis but typically adds new projects to the IUP annually at the beginning of each funding cycle on October 1. For projects to be added the IUP at the start of each funding cycle, new listing forms must be received by the close of the public comment period for the draft IUP. Attachment II of the IUP provides details as to the funding cycle schedule including dates related to the submittal of listing forms.
- For listing forms that are submitted after the close of the draft IUP comment period, those projects will appear in the IUP for the subsequent funding cycle.
- The submittal of a listing form and getting a project listed on the IUP does not result in any obligation to prospective applicants.

For Projects Already Listed and Appearing on the IUP Multiyear List Only

- If not already submitted, provide a Smart Growth Assessment form and an engineer's report or an updated engineer's report to get the project placed on the Annual List. A request to move the project from the Multiyear List to the Annual List should also be provided.

11.2 Applying for Project Financing

Once a project is on the Annual List of the IUP, the prospective applicant must submit a full financing application along with the required supporting documents detailed in that application. After that application is filed, DOH and/or EFC will contact the applicant to provide further guidance to assist with the processing of it. The financing application and guidance materials are available at www.efc.ny.gov/DWSRFApply.

It is recommended that prospective applicants contact the appropriate DOH Area Project Manager as shown in Attachment VIII to discuss the project and receive guidance prior to filing the financing application.

12.0 Project Priority Lists

12.1 Project Selection Process

Both federal and state laws required that New York develop a DWSRF Project Priority Ranking System. The priority ranking system establishes a list of eligible projects to be funded in a manner consistent with the SDWA such that the most serious risks to public health are given the highest priority. The DOH has given the highest priority to acute public health risks, particularly those related to microbiological organisms. The next priority was given to situations that pose chronic and longer-term risks to consumers, such as organic chemical contamination. The scoring criteria also consider issues that are related to infrastructure upgrading or replacement. The project ranking system also considers, as mandated by the SDWA, special allocations and restrictions on the use of DWSRF monies for disadvantaged and small systems. A detailed description of the Project Priority Ranking System and Scoring Criteria are included as Attachment I to this IUP.

12.2 Description and Use of Project Lists

Projects must be listed in the IUP to receive DWSRF financing. This IUP includes the following prioritized lists of eligible projects being considered for financing from the DWSRF:

- The **Project Annual List** for this IUP includes all projects for which an engineering report or plans and specifications are submitted to the DOH or for which construction is completed by the close of the draft IUP comment period and DOH has been notified of such. Projects must be included on this list to be considered ready to apply and to receive financing. DOH reserves the right to require an updated engineering report for projects that have been on the Annual List for more than two years or have an engineering report that DOH has determined is outdated. A project is deemed “ready” when all technical submittals have been received by the DOH. Projects that have submitted Listing Forms, but have neither submitted an engineering report, plans and specifications nor completed construction have been included on the Multi-Year List.

The Project Annual List includes a subsidized funding line. Projects listed above this subsidy funding line comprise the Funding List, which includes all those projects expected to qualify for subsidized interest rate financing within the current IUP financing period. Provisions are made in the Project Priority Ranking System to by-pass projects that may not progress as expected (see Attachment I). The DOH may proceed with an accelerated by-pass of those non-hardship projects that have been on the Project Annual List, above the subsidy funding line for two or more consecutive IUP periods and fail to submit a complete financing application by December 31 of the funding cycle.

Funds released by project by-passing will first be used for the Emergency Financing Program to finance imminent threats to public health. Funds released by project by-passing will then be used to finance cost increases incurred by projects on the IUP above the subsidy funding line. Any remaining funds available will be used to finance projects below the subsidy funding line in order of priority ranking.

The project cost presented on the Project Annual List reflects the applicant’s estimated project cost.

For some larger projects there may not be sufficient funds available in a single IUP financing period for their complete financing. As necessary, DOH at its discretion and in consultation with the applicant will segment and/or phase finance on a cash flow basis and DWSRF program needs for larger projects over several IUP financing periods to maintain a statewide program of maximum effectiveness.

- The **Multi-Year List** includes all eligible projects for which Listing Form forms have been submitted and reviewed, including those projects on the preceding Multi-Year List. The DOH accepts Listing Forms on a continuous basis. All eligible projects for which Listing Form forms are submitted on or before the close of the comment period of the draft IUP will be included on the Multi-Year List in the final IUP.

Copies of the Project Annual List and the Multi-Year List follow at the end of this section.

PROJECT ANNUAL LIST

The Project Annual List begins with projects that have received a written confirmation letter that they qualify for financial hardship. These projects are identified by 'H' in the column labeled "score."

Phased or segmented projects are assigned 2000 points in addition to their total project priority ranking system score. Phased points will not typically be assigned for any Listing Form received if the prior related phase or portion of the project closed on long term financing more than five years earlier and the improvements already funded are operational. Regardless of time frames, DOH reserves the right to assign phased points for projects that require additional financing to address the more serious public health priorities for which the project received its original score.

Projects that are eligible for subsidy or have been designated hardship and have closed on a short-term financing are assigned 1000 points in addition to their total project priority ranking system score and are identified in the column labeled "project cost" by 'NOTE: Short-Term Loan Closed'

Annual List
NYS Drinking Water State Revolving Fund - Federal Fiscal Year 2021 Final IUP

Project #	County	System Name/ Borrower	Description	Pop.	Project Cost	Score	Cumulative Total
18660	Ulster	ELLENVILLE (VILLAGE) WATER DIS / Ellenville (V)	Phase 2 of #15003 - New Well - replace GWUDI wells & other Improvements, New Ground Water Source, Upgrade Storage, Upgrade Distribution System	4,323	\$2,800,000	H	\$2,800,000

NEW YORK STATE DRINKING WATER STATE
REVOLVING FUND

ATTACHMENT I

PROJECT PRIORITY RANKING SYSTEM

Project Priority Ranking System for the Drinking Water State Revolving Fund (DWSRF)

(I) Priority Ranking System and Intended Use Plan

A. Priority Ranking System

The purpose of the priority ranking system is to establish a list of eligible projects to be funded in a manner that the most serious risks to public health are given the highest priority. The New York State Department of Health (NYSDOH) proposes that the highest priority be given to acute public health risks, particularly those related to microbiological organisms. The next priority has been given to situations that pose chronic and longer-term risks to consumers, such as organic chemical contamination. The scoring criteria also considers issues that are related to infrastructure upgrading or replacement. Consistent with these priorities, the numerical scores in the Drinking Water State Revolving Fund (DWSRF) priority ranking system are based on the following criteria:

Technical Factors

- A. MCL/Treatment Technique Violations
- B. Other Sanitary Code Violations
- C. System Reliability/Dependability Issues

a. Non-Technical Factors

- D. Governmental Needs
- E. Financial Needs

The total numerical score for a project or a project segment will be the sum of the scores for criteria A, B, C, D and E.

B. Intended Use Plan

The State will prepare a document called the Intended Use Plan (IUP) that describes how the State intends to use available DWSRF resources for the year to meet the objectives of the Safe Drinking Water Act (SDWA) and to further the goal of protecting public health. The IUP will include specific detail on how the State will use all funds available. The IUP will also include a list of projects expected to qualify for financing within the fiscal period addressed by the IUP. A project must be listed in an IUP to be eligible for financing.

(II) Project Ranking

A. Special Allocations and Restrictions

The federal Safe Drinking Water Act Amendments of 1996 (SDWA) require that, on an annual basis, water systems serving fewer than 10,000 persons must receive a minimum of 15% of the DWSRF. This minimum allocation for systems serving less than 10,000 persons will occur to the extent that there are a sufficient number of eligible projects to fund.

The SDWA also states that up to 30% of the annual DWSRF federal capitalization grant can be used to give loan subsidies to disadvantaged communities.

The State of New York will impose an annual cap or ceiling of 50% of DWSRF resources that can be received by any single applicant. In addition, the State may limit DWSRF financing to the demonstrated annual cash flow needs of any single applicant.

The New York State Clean Water/Clean Air Bond Act of 1996 requires the development of a Memorandum of Understanding among the Governor and Legislative Leaders regarding selection of projects to be funded from the Drinking Water provisions of the Bond Act. Projects identified in the Memorandum of Understanding will be incorporated into an annual funding list for Bond Act financing in conjunction with projects selected according to the Priority Ranking System.

B. Project Ranking Categories

Projects will be placed in categories to allow priority ranking within a specific grouping of projects. Federal legislation requires that, on an annual basis, a minimum of 15% of the DWSRF be received by water systems serving fewer than 10,000 people. Also, water systems that qualify for financial hardship have special conditions that require a separate category for these projects. Therefore, three priority ranking categories will be created:

1. Category A. Water systems serving > 10,000 people.
2. Category B. Water systems serving < 10,000 people.
3. Category C. Water systems that have received written confirmation of qualification for financial hardship assistance.

C. Description and Use of the Project Lists

Several lists of projects will be created to organize and manage projects with different levels of priority and readiness. These listings will display the status of all projects in the system and indicate the final list of projects that qualify for funding in the current IUP.

1. Multi-Year List:

This list will contain all eligible projects for which a Project Listing Form has been submitted and reviewed. This list will contain projects from Categories A, B, and C. New projects can be added to this list on a continuous basis.

2. Hardship List:

This list will contain all projects with written confirmation that they qualify for financial hardship assistance (Category C). This written confirmation will be limited to projects on the Annual List with a score equal to or greater than the score at the Hardship Eligibility Line. Written qualification for financial hardship assistance will remain valid for two consecutive annual federal funding cycles.

3. Project Annual List:

This list will contain Category C projects and the projects from the Multi-Year List which are anticipated to be ready for long-term financing during the effective period of the IUP. Applicants for these projects are expected to apply for the funds projected to be available during the fiscal period addressed by the IUP. Projects from Categories A and B will be listed in descending order of total numerical score (resulting from the Priority Ranking System Scoring Criteria).

4. Funding List:

This list will include all projects from the Project Annual List expected to qualify for long-term loans within a particular IUP. Projects will be listed according to the three project categories. All Category C that are on the Project Annual List will qualify for funding. Projects in Category A will then be selected from the Project Annual List in priority order to meet the 15% minimum requirement for water systems serving less than 10,000 people. All remaining projects on the Project Annual List will be selected in priority order until the remaining annual DWSRF funding amount is encumbered. The project selection is subject to Restrictions and Project By-pass Criteria in Sections II.A and D of this document.

D. Project By-pass

Projects on the Project Annual List can be by-passed, if any of the following occurs:

1. Project is withdrawn by the applicant.
2. Project does not meet the dates and/or conditions in the project schedule or the Project Financing and Loan Agreement.
3. The applicant has reached the 50% annual DWSRF resources cap for fundable projects on the Project Readiness List. All other projects for the applicant that would exceed the 50% cap will be by-passed.

E. Special Priorities

1. Emergencies:

An emergency is a catastrophic situation that results in an imminent threat to public health. The determination of when an emergency exists will be made by the NYS DOH. Imminent threats to public health include situations that result in the unavailability of a source of potable drinking water for an extended period of time. Projects designed to address emergencies will receive the highest priority ranking.

2. Projects with Prior Funding Agreements:

Projects with executed Project Financing and Loan Agreements for long-term and short-term DWSRF loans will be given significant additional bonus points when they are placed on the Project Annual List. This will help to ensure the availability of DWSRF financing needed for completion of on-going projects.

Phased or segmented projects for which additional funds have been conditionally committed in an executed Project Financing Agreement (PFA) for long-term DWSRF financing will be listed, in descending priority score order. These projects will be assigned 2000 points in addition to their total project ranking system score.

Projects for which funds have been committed in an executed PFA for short-term DWSRF financing will be listed, in descending priority score order. These projects will be assigned 1000 points in addition to their total project ranking system score. Other projects will then be listed in descending priority score order.

F. Tie Breaking

In the event of a tie score for projects, the higher total score under Technical Factors (Criteria A, B and C) will be used as a tie breaker. If this still results in a tie score, the population served by the system will be used as a tie breaker. The larger population will be given preference.

G. Eligible Project Limitation

Eligible projects are activities that address critical water system problems. The NYS DOH may require separation of unrelated project components into separate projects if it is necessary to focus on critical water system problems. These separate projects will be scored independently. Projects must be adequately supported by technical documentation, data, reports, etc.

(III) Priority Ranking System Scoring Criteria

The numerical scores in the DWSRF priority ranking system are based on technical and non-technical criteria. The technical criteria are A.) MCL/treatment technique violations; B.) Other sanitary code violations; and C.) system reliability and dependability issues. The non-technical criteria are D.) governmental needs and E.) financial needs. The total numerical score for the project or project segment being scored shall be the sum of the scores for criteria A, B, C, D and E. Projects must be adequately supported by technical documentation, data, reports, etc.

Technical Factors

A. MCL/Treatment Technique Violations. Points awarded are based on treatment of MCL exceedances and/or replacement with an alternate source of supply, and for interconnection with, or purchase from adjacent water system(s) in lieu of treatment (more than one item may apply):

	<u>Score</u>
1. Microbiological	
a) Surface Water Treatment Rule	
i. Filtration	100
ii. Filtration Performance Criteria (NTU compliance)	50
iii. CT Disinfection	30
b) <i>E. coli</i>	80
c) Total Coliform	40
2. Organics	
3. Organic chemicals (POC/UOC) and disinfection by-products	40
4. Lead and Copper/Corrosion (mandated)	30
5. Radiological	25
6. Inorganic/Physical	
a) Nitrates	50
b) Other health-related	25
c) Aesthetic	10

B. Non-treatment Sanitary Code Violations (more than one item may apply):

1. Inadequate Source Capacity (public health hazard)	50
2. Inadequate Distribution Pressure (public health hazard)	25
3. Uncovered Finished Water Storage (public health hazard)	25

C. System Reliability/Dependability Issues (more than one item may apply):

	<u>Score</u>
1. Complete replacement or major rehabilitation of existing treatment facility for primary contaminants that has exceeded design life and/or does not meet the design standards in the current edition of <u>Recommended Standards For Water Works</u> . In lieu of treatment, replacement with an alternate source of supply, and/or interconnection with, or purchase from, adjacent water system.	20
2. Upgrade, replace and/or install major vulnerable system components to meet the design standards in the current edition <u>Recommended Standards For Water Works</u> . Any of the following apply.	10
a) A principal component integral to an existing filtration process such as sedimentation, flocculation, filtration, chemical feed, or backwashing (can only receive points for Criteria C.2a. or C.1.)	
b) Pump stations	
c) Existing wells	
d) Existing disinfection system for a groundwater/surface water supply	
e) Transmission main	
f) Finished water or distribution storage	
g) Other water treatment systems for secondary contaminants only (or replacement of source instead of treatment)	
3. Aged mains and appurtenances	5
4. Redundancy of critical components (pumps, valves, chemical feed-systems, etc.)	5
5. Asbestos main replacement	5
6. Control/automation for operational efficiency (computerization, control valves, metering, laboratory upgrading)	5
7. Inadequate source capacity which is not a public health hazard (can only receive points for Criteria B1 or C7)	5

Non-Technical Factors:

Score

D. Governmental Needs (more than one may apply)

Additional points will be assigned to a project on the basis of state or local government needs, policies, and/or requirements.

- 1. Development of a water system or extending existing system to service contaminated or insufficient yielding private wells at existing residential housing (new systems are not eligible for points under Criteria A, B or C) 40
- 2. Consolidation of water systems (can include improving technical, managerial and financial capacity development) 25
- 3. System dependent on a Sole Source Aquifer for its source. (These points can only be obtained if system scores points from Criterion A, B, C.1. or C.2.g.) 25
- 4. A project that has received written commitment of funding from another governmental source (e.g., co-funded with Clean Water SRF, Rural Development, HUD, etc.). These points do not apply to refinancing of projects. 10
- 5. Consistent with Water Resources Management Strategy 5
- 6. Proposes operational changes that improve and insure adequate technical, managerial and financial capacity of the system in order to insure compliance 5

E. Financial Need

- 1. The Median Household Income (MHI) of the community in which the water service area is located is used as a numerator and the Statewide MHI is used as the denominator in the following equation to determine the financial need factor.

$$\frac{\text{Community MHI} \times 100}{\text{Statewide MHI}^*} = \text{Factor}$$

Factor	≤70	>70 - ≤77.5	>77.5 - ≤85	>85 - ≤92.5	>92.5 - ≤100	>100
Points	25	20	15	10	5	0

*2013 MHI is \$58,003.

The MHI of the community in which the water service area is located and the Statewide MHI will be determined from the 2013 U.S. Census Bureau's American Community Survey 5 year income data. If there is reason to believe that the census data is not an accurate representation of the MHI within the area to be served, the reasons will be documented and applicant will furnish, or the Department may obtain, additional information regarding the MHI. Information will consist of reliable data from local, regional, state or federal sources or from an income survey conducted by a reliable impartial source. Communities have the option of conducting an income survey to ensure the accuracy of the MHI used.

Appendix A. Glossary of Terms

CT - The product of the free residual disinfectant concentration (C) in milligrams per liter determined before or at the first customer, and corresponding disinfectant contact time (T) in minutes, expressed by the formula $(C) \times (T) = CT$. (10 New York Code of Rules and Regulations (NYCRR) Part 5, Subpart 5-1, Public Water Systems.)

DWSRF - Drinking Water State Revolving Fund. A fund for financing, planning, design and construction of drinking water projects.

E. coli - *Escherichia coli*. A microscopic organism of fecal origin.

HUD - United States Department of Housing and Urban Development.

MCL - Maximum Contaminant Level. The maximum permissible level of a contaminant in water which is delivered to any user of a public water system as specified in 10 NYCRR Part 5, Subpart 5-1, Public Water Systems.

MHI - Median Household Income.

NTU - Nephelometric Turbidity Unit. The system under which measured turbidity is reported.

PFA - Project Financing Agreement. An agreement between the NYS Environmental Facilities Corporation and a loan recipient in order to provide financial assistance from the DWSRF for an eligible project.

POC - Principal Organic Contaminant. Any organic chemical compound belonging to specific chemical classes as described in 10 NYCRR Part 5, Subpart 5-1, Public Water Systems.

Primary Contaminants - Any contaminant for which a maximum contaminant level has been established for protection of public health.

Secondary Contaminants - Any contaminant for which a maximum contaminant level has been established for reasons other than protection of public health (i.e., aesthetic purposes such as taste, odor and staining of fixtures).

Surface Water Treatment Rule - A regulation that requires that all surface water be treated in accordance with 10 NYCRR Part 5, Subpart 5-1, Section 5-1.30, Public Water Systems.

UOC - Unspecified Organic Contaminant. Any organic chemical compound not otherwise specified in 10 NYCRR Part 5, Subpart 5-1, Public Water Systems.

ATTACHMENT II

ANTICIPATED INTENDED USE PLAN SCHEDULE

OCTOBER 1, 2020 – SEPTEMBER 30, 2021

**Anticipated Intended Use Plan Schedule for the FFY 2021 Financing Period
(Subject to Change)**

August 5, 2020	Draft 2021 IUP Released (Draft comment period opens)
August 19, 2020	Public Webinar (See Attachment VII)
September 2, 2020	Public Hearing (See Attachment VII)
September 21, 2020	Close of Draft 2021 IUP Comment Period & Due date for New or Revised Project Listing Forms for Inclusion in the FFY 2021 Final IUP
October 1, 2020	Effective Date of FFY 2021 IUP
May 21, 2021	Due Date for FFY 2022 Draft IUP Listing Forms
June (TBD), 2021	Due date for receipt of complete financing applications for FFY 2021 non-hardship projects
July 2021	Release of FFY 2022 Draft IUP
September 2021	Close of Comment Period for FFY 2022 Draft IUP
TBD	FFY 2021 Leveraged financing
September 30, 2021	End of Financing period for FFY 2021

ATTACHMENT III

FINANCING
OPTIONS AND FEES
AND
DISBURSEMENT
REQUESTS

Financing Options and Fees

DOH and EFC work with applicants to identify the appropriate financial assistance option or options for a project, and EFC financing packages may include one or more of the funding options as outlined in **Table A below**.

EFC's website presents additional information about each financing option. The construction schedule of the project and the project score are key considerations in determining the appropriate term and type of assistance that may be offered. Short-term financing provides recipients with funding to design and construct State Revolving Fund ("SRF") eligible projects. EFC may offer affordable long-term financing to the borrower when the project's final costs have been determined.

Disbursement Requests

Once a financing has closed, the project funds not disbursed at closing will be available on a weekly basis provided an acceptable disbursement request, supported with proper cost documentation, has been submitted to EFC. Disbursement request forms will be included in the PFA that the recipient will execute to obtain financing. The recipient should make certain proper financial coverage is in place in the event that a disbursement is delayed, denied or adjusted.

Disbursement request forms can be submitted via:

1. **Mail to:** NYS Environmental Facilities Corporation, 625 Broadway, Albany, NY 12207-2997
2. **E-mail to:** DisbursementRequests@efc.ny.gov.

Note: This email address should only be used for the submission of the disbursement request and supporting documentation for that request. Additional documentation or information requested by the assigned Financial Analyst should be sent directly to the analyst.

Further information about the disbursement request process is available in the "Disbursement Request Information Sheet" which is one of the reference and guidance documents in the financing application package.

Table A - Financing Options

FINANCING OPTION	RATE	AMOUNT	QUALIFICATIONS	FEES	NOTES
SHORT-TERM					
SHORT-TERM SUBSIDIZED	Interest-free for one-third of eligible project costs or one-third of IUP amount, whichever is less, and market-rate for the balance	The lesser of: eligible project costs or the Estimated Amount on the IUP	Project IUP score must be above the Subsidy Line	.6% Program Administrative Fee	May not be used to pre-finance grants.
SHORT-TERM MARKET-RATE (SMRF)	Municipal Market Data (MMD) AAA scale 1-year plus issuance costs	<ol style="list-style-type: none"> 1. Finance costs not funded with or eligible for interest free financing. 2. Finance 100% of eligible project costs up to the IUP amount. 3. Pre-finance anticipated third-party grant funds. 	Project IUP score below the Subsidy Line or not eligible for subsidy	None	EFC may elect not to process finance applications for SMRF for projects with priority scores below the score stated in Section 4.6-1 of the IUP.

FINANCING OPTION	RATE	AMOUNT	QUALIFICATIONS	FEES	NOTES
SHORT- AND LONG-TERM					
HARDSHIP	Interest-free	Finance up to \$14 million of eligible project costs with interest-free funding	Applicants must qualify pursuant to the criteria set in the Hardship Policy	None	Restrictions apply. See Hardship Policy.
LONG-TERM					
LONG-TERM MARKET-RATE (LEVERAGED)	AAA/aaa borrowing rates	Finance the lesser of 100% of eligible project costs or the Estimated Amount on the IUP	Project IUP score below the Subsidy Line or not offered subsidy	One-time fee equaling 1% of project costs financed with EFC. State Bond Issuance Charge	Long-Term Market-Rate financings will be funded as leveraged financings at the applicable market rate. Projects closed with a Long-Term Market-Rate financing will remain eligible for consideration for subsidized funding for up to 5 years from the long-term closing date.. Annual Administrative Fee (.25%) would apply if converted to subsidized funding.

FINANCING OPTION	RATE	AMOUNT	QUALIFICATIONS	FEES	NOTES
LONG-TERM SUBSIDIZED (LEVERAGED)	Two-thirds of AAA/aaa borrowing rates	Finance the lesser of 100% of eligible project costs or the Estimated Amount on the IUP	Project IUP score must be above the Subsidy Line	<p>One-time fee equaling 1% of the project costs supported by bonds</p> <p>One-time fee equaling 1.1% Program Administration Fee</p> <p>State Bond Issuance Charge</p> <p>0.11% Annual Administrative Fee (calculated on outstanding balance)</p>	
LONG-TERM (DIRECT)	AAA/aaa borrowing rates	Finance the lesser of 100% of eligible project costs or the Estimated Amount on the IUP	Determined by EFC on a case-by-case basis after evaluation of the municipality's financing capacity and credit history.	<p>One-time fee equaling 1.1% Program Administration Fee</p> <p>0.11% Annual Administrative Fee (calculated on outstanding balance)</p>

- When will all Technical Submittals be completed? () _____ (Date)
- Start of construction date (date Notice to Proceed was issued)? () _____ (Date)
- Is this project being submitted for Refinancing? Yes or No?
 If yes, Construction Completion Date (actual date)? () _____ (Date)

Project Cost Estimate	
Construction Costs	\$ _____
Engineering Fees	\$ _____
Other Expenses	\$ _____
Equipment Costs	\$ _____
Land Acquisition	\$ _____
Contingencies(____% used)	\$ _____
Subtotal Project Costs	\$ _____
Deduct other funding sources (HUD, RD, etc.)	\$ _____
Add Est. Issuance Costs (Estimated issuance costs are approximately 3% of project costs)	\$ _____
Total Amount to Finance	\$ _____

Please return completed form to:
 New York State Department of Health
 Bureau of Water Supply Protection
 Corning Tower, Room 1135
 Empire State Plaza
 Albany, New York 12237
 Phone: (518) 402-7650
Or Email to: bpwsp@health.ny.gov

INSTRUCTIONS

LISTING FORM, DWSRF PROJECT SCHEDULE AND COST ESTIMATE

This form is used to gather preliminary schedule and cost information about your project. It will help us to determine project eligibility and a target date for providing your DWSRF financing. New York State Department of Health (DOH) staff may call you to verify this information and to develop a more detailed schedule for completion of all activities needed for a complete financing application. You should confer with your engineer and financial advisor regarding the schedule and cost estimate. Please call DOH at 1-800-458-1158 (within NYS State) or (518) 402-7650 for assistance regarding this Listing Form.

PROJECT INFORMATION This section of the form should include the **Name of the Water System**, **Name of the Municipality** serviced by the water system, and the **County** and **Legislative Districts** in which the project is located. A **Project Description** and the **Location** of the project should also be included (*e.g.*, Construct new water treatment plant at 69 Mill Road in Village of Waterburgh. If an engineering report has not been provided with this form, please attach a narrative description including details with respect to the issues the project will be solving as related to the priority ranking system (see Attachment 1 in the IUP). The applicant should provide information regarding the **Population Served by the Water System** and the **Population Served by the Project**.

Has the project been listed in a previous DWSRF Intended Use Plan (IUP)? If a Listing Form (previously called pre-application) has previously been submitted for the same project, it is not necessary to complete an additional Listing Form. If project information, contact information, actual or targeted activity dates, or project cost estimates previously submitted have changed, the applicant may wish to submit a revised Listing Form. If so, please include the **DWSRF project tracking number**.

Indicate if **other funding sources** (*i.e.*, Rural Development, Housing and Urban Development, etc.) are available for the project. If other sources of funding are available please attach a separate sheet with details about the funding source, funding amount, type of funding (*i.e.*, grant, low interest loan), and date the funding was granted (letter of confirmation).

CONTACT INFORMATION

DOH will be using the contact information provided on the Listing Form to identify the borrower, the consulting engineer, and other key project contacts (if applicable). Individuals listed on this portion of the Listing Form may be contacted directly by DOH staff to answer technical questions.

PROJECT COST ESTIMATE

The accuracy of project costs will vary depending on the stage of project development. Please use the best available estimate when completing the form. Cost estimates should be provided for **Construction Costs**, **Engineering Fees** (planning, design, and construction phase), **Other Expenses** (legal expenses, bond counsel costs, force account costs, fiscal expenses, interest during construction, and miscellaneous expenses), **Equipment Costs**, **Land Acquisition Costs**, and **Contingencies**. **Financial assistance anticipated from other Funding Sources** (Rural Utilities, Housing and Urban Development, etc.) should be subtracted from the **Subtotal Project Costs** of the above listed cost estimates. The **Estimated Issuance Cost** (approximately 3% of project costs) should be added to the subtotal to determine **Total Amount to Finance**. If certain cost elements are unknown and cannot be reasonably estimated, please indicate on the form. Estimates for all expenses will eventually be needed so that sufficient monies for the project are included in the IUP.

PROJECT SCHEDULE

1. Provide the date (targeted or actual) when an approvable **Engineering Report** and all **Technical Submittals** will be completed. Required Technical Submittals include environmental review documents and findings, final plans and specifications, engineer's certification of technical requirements, certification of title to project sites, Minority & Women's Business Enterprise - Equal Opportunity (M/WBE-EEO) program documents. Additionally, the borrower should contact DOH and other responsible permitting agencies (*e.g.*, New York State Department of Environmental Conservation) for anticipated review and issuance times. Please contact EFC for applicable financing application deadlines and anticipated financing closing dates.
2. Provide the date (targeted or actual) of **Start of Construction** (*i.e.*, date Notice to Proceed was issued). Although the construction schedule may be very tentative when you complete the pre-application, it is important to set target dates as they indicate when DWSRF financing will be needed.
3. Indicate if the project is being submitted for **Refinancing**. If the project is being refinanced, include the actual date of Construction Completion.

Smart Growth Assessment Form
New York State Revolving Funds (CWSRF & DWSRF)

This form should be completed by the applicant's project engineer or other design professional. Please refer to EFC's "Smart Growth Guidance".

Applicant Information

SRF Applicant: _____

SRF No.: _____

Project Name: _____

Is project construction complete? Yes, date: _____ No

Project Summary: (provide a short project summary in plain language including the location of the area the project serves)

Section 1- Screening Questions

1. Prior Approvals

1A. Has the project been previously approved for SRF financing? Yes No

1B. If so, what was the SRF project number(s) for the prior approval(s)? SRF No.:

Is the scope of the project substantially the same as that which was approved? Yes No

IF THE PROJECT WAS PREVIOUSLY APPROVED BY EFC'S BOARD AND THE SCOPE OF THE PROJECT HAS NOT MATERIALLY CHANGED, THE PROJECT IS NOT SUBJECT TO SMART GROWTH REVIEW. SKIP TO SIGNATURE BLOCK.

2. New or Expanded Infrastructure

2A. Does the project add new wastewater collection/new water mains or a new wastewater treatment system/water treatment plant? Yes No

Note: A new infrastructure project adds wastewater collection/water mains or a wastewater treatment/water treatment plant where none existed previously

2B. Will the project result in either: An increase of the State Pollution Discharge Elimination System (SPDES) permitted flow capacity for an existing treatment system; Yes No

OR

An increase such that a NYSDEC water withdrawal permit will need to be obtained or modified, or result in the NYSDOH approving an increase in the capacity of the water treatment plant?

Note: An expanded infrastructure project results in an increase of the SPDES permitted flow capacity for the wastewater treatment system, or an increase of the permitted water withdrawal or the permitted flow capacity for the water treatment system.

1 If project construction is complete and the project was not previously financed through the SRF, an authorized municipal representative may complete and sign this assessment.

2 Available at the Smart Growth Website

IF THE ANSWER IS "NO" TO BOTH "2A" AND "2B" ON THE PREVIOUS PAGE, THE PROJECT IS NOT SUBJECT TO FURTHER SMART GROWTH REVIEW. SKIP TO SIGNATURE BLOCK.

3. Court or Administrative Consent Orders

- 3A. Is the project expressly required by a court or administrative consent order? Yes No
- 3B. If so, have you previously submitted the order to NYS EFC or DOH? If not, please attach. Yes No

Section 2- Additional Information Needed for Relevant Smart Growth Criteria

EFC has determined that the following smart growth criteria are relevant for SRF projects and that projects must meet each of these criteria to the extent practicable:

1. Uses or Improves Existing Infrastructure

- 1A. Does the project use or improve existing infrastructure? Yes No
Please Describe:

2. Serves a Municipal Center

Projects must serve an area in either 2A, 2B or 2C to the extent practicable.

2A. Does the project serve an area **limited** to one or more of the following municipal centers?

- i. A city or incorporated village Yes No
- ii. A central business district Yes No
- iii. A main street Yes No
- iv. A downtown area Yes No
- v. A Brownfield Opportunity Area Yes No
(for more information, go to the [Department of State Website](#) & search "Brownfield")
- vi. A downtown area of a Local Waterfront Revitalization Program Area Yes No
(for more information, go to the [Department of State Website](#) & search "Waterfront Revitalization")
- vii. An area of transit-oriented development Yes No
- viii. An Environmental Justice Area Yes No
(for more information, go to [DEC'S Page of County Environmental Justice Area Maps](#))
- ix. A Hardship/Poverty Area Yes No

Please Describe All Selections:

2B. If the project serves an area located outside of a municipal center, does it serve an area located adjacent to a municipal center which has clearly defined borders, designated for concentrated development in a municipal or regional comprehensive plan and exhibit strong land use, transportation, infrastructure and economic connections to an existing municipal center?

Yes

No

Please Describe:

2C. If the project is not located in a municipal center as defined above, is the area designated by a comprehensive plan and identified in zoning ordinance as a future municipal center?

Yes

No

Please describe and reference applicable plans:

3. Resiliency Criteria

3A. Was there consideration of future physical climate risk due to sea-level rise, storm surge, and/or flooding during the planning of this project?

Yes

No

Please Describe:

Signature Block: By entering your name in the box below, you agree that you are authorized to act on behalf of the applicant and that the information contained in this Smart Growth Assessment is true, correct and complete to the best of your knowledge and belief.

Applicant Name: _____

Phone Number: (____) _____

Name & Title of Project Engineer or Design Professional or Authorized Municipal Representative:

Signature: _____

Date: _____

ATTACHMENT V

DRINKING WATER STATE REVOLVING FUND APPLICATION CHECKLIST for MUNICIPALY OWNED PROJECTS

The financing application checklist includes a list of application items that may apply to a DWSRF project finance application for it to be processed. The checklist includes boxes to indicate which items have been submitted to DOH and EFC.

**New York State Revolving Fund
MUNICIPAL APPLICATION CHECKLIST**

This checklist will assist in determining the documents and information that are needed to apply for financing through the SRF. An explanation of each of these items is provided in the “Municipal Application Form Instructions and Guidance.” The items necessary for closing and the type of financing offered to you will be determined by your project status and your funding needs. Please contact EFC at 518-402-6924 to review this checklist and if you have any questions.

Please do not submit a Financing Application until your project is listed on the Annual Project Priority List, as published in the current CWSRF or DWSRF Intended Use Plan (IUP), and the critical components identified in PART I have been completed.

Please note that EFC will not begin to process a Financing Application until the items identified in Part I have been received and your Engineering Report has received regulatory approval and has been deemed eligible for SRF financing.

Items in Part I MUST be included with your application for financing. Items in Part II should be submitted with Part I items if they are currently available.

PART I – Items Required to Process an Application for SRF Financing

Check the appropriate boxes below.

No.	Checklist Item	Submitted Earlier	Submitted with this Application
1.	Application Form	<input type="checkbox"/>	<input type="checkbox"/>
2.	Municipal Bond Resolution(s)		
	a) Bond Resolution (Certified Copy)	<input type="checkbox"/>	<input type="checkbox"/>
	b) Proof of Publication of Permissive Referendum (if applicable)	<input type="checkbox"/>	<input type="checkbox"/>
	c) Proof of Publication of Estoppel Notice	<input type="checkbox"/>	<input type="checkbox"/>
3.	Environmental Review Documents and Findings (see SEQRA/SERP guidance in the “Environmental Review Requirements”)	<input type="checkbox"/>	<input type="checkbox"/>
	OPRHP / SHPO Project Review Letter (Initial or Final Letter)	<input type="checkbox"/>	<input type="checkbox"/>
4.	District Formation/Increase Authorization	<input type="checkbox"/>	<input type="checkbox"/>
5.	Agreement for Engineering Planning Services	<input type="checkbox"/>	<input type="checkbox"/>

Applicant Name: _____
SRF Project No.: _____
Date Prepared: _____

PART II – Items that may be necessary to close a SRF financing and/or disburse funds.

Your project status and financing needs will determine the type of financial assistance offered by EFC and the timing of the closing.

Timely availability of SRF funds will be dependent, in part, upon the accuracy and completeness of these submissions. EFC will review the submissions and may provide comments or request clarification. For this reason, applicants are strongly encouraged to develop and submit these materials as soon as practicable.

Please call EFC to discuss which of the following items apply. Check the appropriate boxes below.

No.	Checklist Item	Submitted Earlier	Submitted with this Application	Not Applicable
1.	Financial statements (audited if available) for the three (3) most recent fiscal years. (For Applicants <u>other than</u> counties, cities, towns and villages)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2.	Co-Funding Documentation			
	a) Awarded Grants	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	b) Closed Third Party Loans	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	c) Co-funding Cost Documentation	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3.	Current Adopted Capital and Operating Budgets	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4.	For Reimbursement of Inter-fund Borrowings:			
	a) Inter-fund Borrowing Resolution (Copy)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	b) Cost Documentation (Inter-fund Borrowings)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5.	For refinancing of existing debt, please attach the following supporting documents as applicable:			
	a) Municipal Resolution Authorizing Debt (Original)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	b) Bond Anticipation Note (BAN)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	c) Opinion of Bond Counsel	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	d) Official Statement	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	e) Refunding Resolution (Copy)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	f) Proof of Publication of Estoppel Notice for Resolution	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	g) Cost Documentation (Refinancing)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	h) Statement Specifying Net Interest Earned or Anticipated	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
6.	Inter-municipal Agreements (draft or final agreements critical to the project)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

No.	Checklist Item	Submitted Earlier	Submitted with this Application	Not Applicable
7.	Supplemental Municipal Bond Resolution (if needed)			
	a) Supplemental Bond Resolution (Certified Copy)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	b) Proof of Publication of Permissive Referendum (if applicable)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	c) Proof of Publication of Estoppel Notice	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
8.	Consolidation Plan, Agreements and Approval	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
9.	Municipal Service Agreements			
	a) Inter-municipal Agreements (final agreements)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	b) Private Operating Agreements	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	c) Private Use Agreements	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
10.	Smart Growth Assessment Form	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
11.	Agreements for Professional Services			
	a) Engineering Planning Services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	b) Engineering Design Services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	c) Engineering Construction Services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	d) Local Counsel	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	e) Bond Counsel	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	f) Financial	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	g) Other (please specify)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
12.	MWBE Utilization Plan or Good Faith Effort Documentation (for executed professional service and construction contracts) See EFC website for additional information.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
13.	Certification as to Title to Project Site ¹	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
14.	Lease Agreement to Project Site	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
15.	Work Force Documentation ^{1,2}			
	a) Technical Certification & Proposal	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	b) Administrative Proposal	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
16.	Construction Plans and Specifications	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Bid Tabulations and Evaluations	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Notice of Award	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Notice to Proceed	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Contract Change Orders	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Completed EPA 6100-3 and 6100-4 Forms	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Wage Determinations	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	SRF Contractor Certification	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Certification for Contracts (Lobbying Certification)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Questions regarding engineering and technical items should be addressed to EFC's Division of Engineering & Program Management at 518-402-7396.

¹ Form included in the Municipal Application Form Instructions and Guidance document

ATTACHMENT VI
OUTPUT AND OUTCOME MEASURES

Environmental Results Grant Requirements

As required by US EPA Order 5700.7, Environmental Results under US EPA Assistance Agreements, New York will provide the following output and outcome measures as applicable in its DWSRF Biennial/Annual Reports. NIMS, PBR and the IUP:

NATIONAL REPORTABLE OUTPUTS/OUTCOMES FOR DWSRF

1. The annual percentage of assistance agreements to bring entities into compliance.
2. Fund utilization rate [cumulative financing agreement dollars to the cumulative funds available for projects] for the DWSRF.
3. Return on Federal Investment [cumulative dollar amount of assistance disbursements to projects divided by cumulative federal outlays for projects].
4. The cumulative number of project completions.

ANTICIPATED OUTPUTS ESTIMATES FOR DWSRF

1. Number of binding commitments (45).
2. Number of financing agreements (45).
3. Number of assistance agreements for system compliance (33).
4. Number, dollar amounts, and/or population served of projects financed (50/\$150M).
5. Fund utilization rate remaining higher than the national average.
6. Rate at which projects progressed as measured by disbursements as a percent of assistance provided remaining at or higher than the national average.

ANTICIPATED OUTCOMES (SHORT-TERM/LONG-TERM) ESTIMATES FOR DWSRF

1. Number of projects initiating operation resulting in improved compliance (10).
2. Improved compliance for systems receiving DWSRF assistance. (7)

ANTICIPATED OUTPUTS ESTIMATES FOR SET-ASIDES

1. Small System Technical Assistance
 - Number of systems receiving training (400).
 - Number of systems receiving on-site technical assistance (100).
2. State Program Management
 - Data management system maintained.
 - State required updates to primacy made.
3. Source Water Protection Program
 - Number of source water strategies in place and implemented (15).
4. Capacity Development Program
 - Implement statewide strategy.

ANTICIPATED OUTCOMES (SHORT-TERM/LONG-TERM) FOR SET-ASIDES

1. Improved compliance for systems receiving Technical Assistance.
2. Attainment of primacy for new rules.
3. Improved data quality.
4. Improvement to capacity development baseline.

ATTACHMENT VII

PUBLIC COMMENTS, RESPONSES, and REVISIONS

Public Comments, Responses & Revisions Federal Fiscal Year 2021 DWSRF Draft Intended Use Plan

The Notice of Availability of the Federal Fiscal Year 2021 Drinking Water State Revolving Fund (DWSRF) Draft Intended Use Plan (IUP) was published in the Environmental Notice Bulletin and in the New York State Register on August 5, 2020.

Subsequent to that Notice of Availability, the Environmental Facilities Corporation and the Department of Health hosted a public webinar on August 19, 2020 and a public hearing on September 2, 2020. The webinar and public hearing presented an overview of the Federal Fiscal Year 2021 DWSRF Draft IUP and provided the opportunity for the public to provide input and ask questions about the program.

The public comment period for the Federal Fiscal Year 2021 DWSRF Draft IUP ran from August 5, 2020 through September 21, 2020.

Program Specific Public Comments:

The Department of Health received no program specific public comments during the Federal Fiscal Year 2021 DWSRF Draft IUP public comment period.

Project Specific Revisions:

Project specific revisions were made to both the Annual and Multiyear project lists. There were no changes to the program as presented in the Draft IUP and there were no negative impacts to the program or to any projects listed on the IUP due to those project specific revisions.

General Revisions:

Revisions may have been made to address typographical errors, provide minor clarifications, and to update numbers with respect to historical information and estimates that have changed between the Draft and Final IUPs. These general revisions did not result in any changes to the program as presented in the Draft IUP and did not negatively impact any projects listed on the IUP.
