

- directly to the project(s) identified within the qualifying categories,
- the project(s) first received and ready to go,
- the most expensive project(s).

## 9. PROJECT PRIORITY LIST

### 9.1 Project Selection Process

Federal law requires the Commonwealth to develop a Project Priority Ranking System. The priority ranking system establishes a list of eligible projects to be funded in a manner consistent with the SDWA such that compliance is given the highest priority. The DOH proposed that Priority will be given to water systems in non-compliance with the surface water treatment requirements, and those incurring acute, primary or action level violations as defined in the SDWA. Addressing these problems will protect the public health of the water users and will bring water systems into compliance with the SDWA.

The next priority has been given to systems that address the most serious risks to public health therefore the highest priority will be given to acute public health risks, particularly those related to microbiological organism. Situations that pose chronic and longer-term risks to consumers, such as organic chemical contamination, are also considered.

The scoring criteria, also considers issues related to infrastructure upgrading or replacement. The project ranking system also considers, as mandated by the SDWA, special allocations and restrictions on the use of DWSRF monies for disadvantaged and small systems. A detailed-description of the Project Priority Ranking Systems is included as Attachment V (Systems Criteria and Ranking Methodology (Summary) to this IUP. A checklist as to the information to be provided by the proponent is included as Attachment

VI (Check List for Priority Ranking/Project Fact Sheet - pages 22 to 26).

### **9.2 Description and Use of Project List**

Projects must be included in the IUP to receive DWSRF financing. This IUP includes the following prioritized lists of eligible projects being considered for financing from the DWSRF.

- The Project Readiness List or Fundable List includes projects which have completed construction or will submit plans and specifications for review and approval, and are expected to be ready for long-term financing during the effective period of this IUP. DOH will review the projected readiness date and the project proposal for all eligible projects and put together the fundable and planning portions of the list.
- The Project Multi-Year List will also include the project readiness list which includes all those projects expected to qualify for long provisions are made in the Project Priority Ranking System to bypass project which may not progress as expected. The Multi-Year List includes projects that may be ready during the current IUP period and, in the case where additional funds are available or a project on the fundable or readiness portion is not ready to proceed, these projects may substitute the ones not ready upon a formal request of the proponent. Both Lists may include, projects for small systems serving less than 10,000 people.

### **9.3 Hardship List**

This IUP does not include a Hardship List, as hardship determinations will not be completed until after submittal of additional project information to evaluate
