§ 62.1-234. Creation and management of Fund.

A. There shall be set apart as a permanent and perpetual fund, to be known as the "Virginia Water Supply Revolving Fund," sums appropriated to the Fund by the General Assembly, all receipts by the Fund from loans made by it to local governments or other entities, all income from the investment of moneys held in the Fund, and any other sums designated for deposit to the Fund from any source public or private. The Fund shall be administered and managed by the Authority as prescribed in this chapter, subject to the right of the Board, following consultation with the Authority, to direct the distribution of loans, loan subsidies (including principal forgiveness) or grants from the Fund to particular local governments or other entities and to establish the interest rates and repayment terms and those public health conditions deemed necessary by the Board of such loans, loan subsidies or grants as provided in this chapter. In order to carry out the administration and management of the Fund, the Authority is granted the power to employ officers, employees, agents, advisers and consultants, including, without limitation, attorneys, financial advisers, engineers and other technical advisers and public accountants and, the provisions of any other law to the contrary notwithstanding, to determine their duties and compensation without the approval of any other agency or instrumentality. However, the Authority shall adopt policies and procedures that minimize the costs of professional services associated with the processing of a loan application and the financing or refinancing of a project, especially in those instances in which the Board has identified the applicant as "disadvantaged."

The Board shall reimburse the Authority for its reasonable costs and expenses incurred in the administration and management of the Fund, and the Board may disburse a reasonable fee, to be approved by the Board, for the Authority's management services. The Board may require status reports on the Fund from the Authority.

B. The Board may enter into a memorandum of understanding or interagency agreement with the State Water Control Board to manage aspects of the Fund, which may include (i) reviewing assistance applications and project bid documents, (ii) monitoring projects, and (iii) ensuring compliance with environmental review and other program requirements. Any memorandum of understanding or interagency agreement shall be approved by the United States Environmental Protection Agency.

The money in these accounts shall be paid by check signed by the Executive Director of the Authority or other officers or employees designated by the Board of Directors of the Authority. All deposits of money shall, if required by the Authority, be secured in a manner determined by the Authority to be prudent, and all banks, trust companies and savings institutions are authorized to give security for the deposits. Money in the Fund shall not be commingled with other money of the Authority. Money in the Fund not needed for immediate use or disbursement may be invested or reinvested by the Authority in obligations or securities which are considered lawful investments for public funds under the laws of the Commonwealth.

§ 62.1-236. Annual audit.

The Auditor of Public Accounts, or his legally authorized representatives, shall annually audit the accounts of the Authority, and the cost of such audit services as shall be required shall be borne by the Authority. The audit shall be performed at least each fiscal year, in accordance with generally accepted auditing standards and, accordingly, include such tests of the accounting records and such auditing procedures as considered necessary under the circumstances. The Authority shall furnish copies of such audit to the Governor and to the Board.

§ 62.1-237. Collection of money due Fund.

Proceedings to recover amounts due to the Fund may be instituted by the Authority in the name of the Fund in the appropriate circuit court.

1987, c. 324; 1997, cc. [651](#), [665](#).

§ 62.1-238. Loans to local governments or other entities.

Money in the Fund shall be used solely to make loans or loan subsidies to local governments or other entities to finance or refinance the cost of any project or to establish or fund an endowment

fund to assist in the cost of any project. The local governments or other entities to which loans or loan subsidies are to be made, the purposes of the loan or loan subsidy, and the amount of each such loan or loan subsidy, the interest rate thereon and the repayment terms and those public health conditions deemed necessary by the Board thereof, which may vary between loan recipients, shall be designated in writing by the Board to the Authority following consultation with the Authority. No loan or loan subsidy from the Fund shall exceed the total cost of the project to be financed or the outstanding principal amount of the indebtedness to be refinanced plus reasonable financing expenses.

Except as set forth above, the Authority shall determine the terms and conditions of any loan or loan subsidy from the Fund, which may vary between local governments or other entities. Each loan shall be evidenced by appropriate bonds, notes, or agreements of the local government or other entity payable to the Fund. The bonds or notes shall have been duly authorized by the local government or other entity and executed by its authorized legal representatives. The Authority is authorized to require in connection with any loan or loan subsidy from the Fund such documents, instruments, certificates, legal opinions and other information as it may deem necessary or convenient. In addition to any other terms or conditions which the Authority may establish, the Authority may require, as a condition to making any loan or loan subsidy from the Fund, that the local government or other entity receiving the loan or loan subsidy covenant to perform any of the following:

A. Establish and collect rents, rates, fees and charges to produce revenue sufficient to pay all or a specified portion of (i) the costs of operation, maintenance, replacement, renewal and repairs of the project; (ii) any outstanding indebtedness incurred for the purposes of the project, including the principal of and premium, if any, and interest on the loan from the Fund to the local government or other entity; and (iii) any amounts necessary to create and maintain any required reserve, including any rate stabilization fund deemed necessary or appropriate by the Authority to offset the need, in whole or part, for future increases in rents, rates, fees or charges;

B. With respect to a local government, levy and collect ad valorem taxes on all property within the jurisdiction of the local government subject to local taxation sufficient to pay the principal of and premium, if any, and interest on the loan or loan subsidy from the Fund to the local government;

C. Create and maintain a special fund or funds for the payment of the principal of and premium, if any, and interest on the loan or loan subsidy from the Fund to the local government or other entity and any other amounts becoming due under any agreement entered into in connection with the loan or loan subsidy, or for the operation, maintenance, repair or replacement of the project or any portions thereof or other property of the local government or other entity, and deposit into any fund or funds amounts sufficient to make any payments on the loan or loan subsidy as they become due and payable;

D. Create and maintain other special funds as required by the Authority; and

E. Perform other acts, including the conveyance of, or the granting of liens on or security interests in, real and personal property, together with all rights, title and interest therein, to the

Fund, or take other actions as may be deemed necessary or desirable by the Authority to secure payment of the principal of and premium, if any, and interest on the loan or loan subsidy from the Fund and to provide for the remedies of the Fund in the event of any default in the payment of the loan or loan subsidy, including, without limitation, any of the following:

1. The procurement of insurance, guarantees, letters of credit and other forms of collateral, security, liquidity arrangements or credit supports for the loan or loan subsidy from any source, public or private, and the payment therefor of premiums, fees or other charges;
2. The combination of one or more projects, or the combination of one or more projects with one or more other undertakings, facilities, utilities or systems, for the purpose of operations and financing, and the pledging of the revenues from such combined projects, undertakings, facilities, utilities and systems to secure the loan or loan subsidy from the Fund made in connection with such combination or any part or parts thereof;
3. The maintenance, replacement, renewal and repair of the project; and
4. The procurement of casualty and liability insurance.

All local governments or other entities borrowing money from the Fund are authorized to perform any acts, take any action, adopt any proceedings and make and carry out any contracts that are contemplated by this chapter. Such contracts need not be identical among all local governments or other entities, but may be structured as determined by the Authority according to the needs of the contracting local governments or other entities and the Fund.

Subject to the rights, if any, of the registered owners of any of the bonds of the Authority, the Authority may consent to and approve any modification in the terms of any loan or loan subsidy subject to guidelines adopted by the Board.

1987, c. 324; 1997, cc. [651](#), [665](#).

§ 62.1-239. Grants.

Subject to any restrictions which may apply to the use of money in the Fund, the Board in its discretion may approve the use of money in the Fund to make grants or appropriations to local governments or other entities to pay the cost of any project. The Board may establish such terms and conditions on any grant as it deems appropriate. Grants shall be disbursed from the Fund by the Authority in accordance with the written direction of the Board.

1987, c. 324; 1997, cc. [651](#), [665](#).

§ 62.1-239.1. Loans, loan subsidies, and grants for regional projects, etc.

In approving loans and grants, the Board shall give preference to loans, loan subsidies, and grants for projects that will (i) utilize private industry in operation and maintenance of such projects where a material savings in cost can be shown over public operation and maintenance, (ii) serve two or more local governments or other entities to encourage regional cooperation, or (iii) accomplish both goals.

In order to conserve water in the Eastern Virginia Groundwater Management Area (EVGMA), created pursuant to the Ground Water Management Act of 1992 (§ [62.1-254](#) et seq.), and in compliance with the federal Safe Drinking Water Act (42 U.S.C. § 300f et seq.), the Board shall, when evaluating projects in the EVGMA, give preference to water projects that do not involve withdrawal of groundwater from the coastal plain aquifers over those water projects that withdraw groundwater from such aquifers.

1992, c. 378; 1997, cc. [651](#), [665](#); 2018, c. [183](#).

§ 62.1-240. Pledge of loans to secure bonds of Authority.

The Authority is empowered at any time and from time to time to transfer from the Fund to banks or trust companies designated by the Authority any or all of the assets of the Fund to be held in trust as security for the payment of the principal of and premium, if any, and interest on any or all of the bonds (as defined in § [62.1-199](#)) of the Authority. The interests of the Fund in any obligations so transferred shall be subordinate to the rights of the trustee under the pledge. To the extent funds are not available from other sources pledged for such purpose, any payments of principal and interest received on the assets transferred or held in trust may be applied by the trustee thereof to the payment of the principal of and premium, if any, and interest on such bonds of the Authority to which the obligations have been pledged, and, if such payments are insufficient for such purpose, the trustee is empowered to sell any or all of such assets and apply the net proceeds from the sale to the payment of the principal of and premium, if any, and interest on such bonds of the Authority. Any assets of the Fund transferred in trust as set forth above and any payments of principal, interest or earnings received thereon shall remain part of the Fund but shall be subject to the pledge to secure the bonds of the Authority and shall be held by the trustee to which they are pledged until no longer required for such purpose by the terms of the pledge. On or before January 10 each year, the Authority shall transfer, or shall cause the trustee to transfer, to the Fund any assets transferred or held in trust as set forth above which are no longer required to be held in trust pursuant to the terms of the pledge.

1987, c. 324.

§ 62.1-240.1. Sale of loans.

The Authority is empowered at any time and from time to time to sell, upon such terms and conditions as the Authority shall deem appropriate, any loan, or interest therein, made pursuant to this chapter. The net proceeds of sale remaining after the payment of the costs and expenses of the sale shall be designated for deposit to, and become part of, the Fund.

1994, c. [684](#).

§ 62.1-240.2. Powers of the Authority.

The Authority is authorized to do any act necessary or convenient to the exercise of the powers granted in this chapter or reasonably implied thereby.

1994, c. [684](#).

§ 62.1-241. Liberal construction of chapter.

The provisions of this chapter shall be liberally construed to the end that its beneficial purposes may be effectuated. Insofar as the provisions of this chapter are inconsistent with the provisions of any other law, general, special or local, the provisions of this chapter shall be controlling.
